

Keeping Our Commitment to the Gulf

*By the Numbers**

Keeping our commitment to clean up after the Deepwater Horizon accident

- \$14,000,000,000 – Amount spent by BP on the response
- 66,500,000 – Work hours invested in responding to the spill
- 48,000 – Workers employed at the peak of the response
- 6,500 – Vessels deployed in spill response
- 1,300,000 – Air, water & other environmental samples collected during response
- 4,350 – Miles of Gulf Coast shoreline surveyed
- 5 – Miles of beach (around 1/10th of 1%) remaining under active cleanup

Keeping our commitment to help restore the Gulf Coast economy

- \$20,000,000,000 – Funds set aside for economic claims & natural resource restoration
- \$7,500,000,000 – Payments for individual, business & government claims
- \$179,000,000 – BP funding to Gulf States for tourism promotion
- \$82,000,000 – Amount paid or committed for seafood marketing & testing
- 2011 – Year in which many Gulf communities enjoyed record tourism

Keeping our commitment to support environmental restoration & independent research

- \$1,000,000,000 – Amount committed for early restoration projects
- \$57,200,000 – Cost of first eight proposed early restoration projects
- \$500,000,000 – Funds committed for independent scientific research over 10 years
- \$164,000,000 – Funds already awarded for that independent research
