If you have any questions regarding the application process for participation in BP Global Choice® please contact the BP Customer Service Centre on 1300 1300 27.

BP Global Choice® Ready, Offset, Go!

Terms & Conditions and Application Form

BP Global Choice® Ready, Offset, Go!

BP Global Choice®

BP Global Choice® is a non-profit environmental programme that invests your funds into Australian projects to offset greenhouse gas emissions (CO_{2e}) generated by the BP fuel consumed by your vehicle(s) and/or equipment.

This means your fuel emissions can be 100% greenhouse neutral!

This is a world-leading programme that offsets greenhouse gas emissions at their source and was the first of its kind to be certified Greenhouse Friendly™ by the Department of Climate Change.

How Does It Work?

To participate in BP Global Choice®, simply nominate the amount of emissions you wish to offset (as outlined on the attached application form) and pay the BP Global Choice® Premium (a few cents) on each litre of BP fuel purchased.

Our Obligations

- > BP will offset your nominated amount of CO_{2e} by purchasing ERUs (emission reduction units) from third party abatement projects located around Australia and remitting them to the Department of Climate Change.
- > ERUs are independently calculated and verified in accordance with the Greenhouse Friendly™ Guidelines issued by the Department of Climate Change.
- > On joining, we will give you a Certificate of Participation and a marketing support pack to assist you in promoting your involvement in BP Global Choice®.
- > We will issue a monthly BP statement setting out details of your fuel usage and the total BP Global Choice® Premium payable by you for that period.
- > We reserve the right to vary the BP Global Choice® Premium but will first provide you with one month's written notice before any such variation.
- > We will give you an annual certificate setting out the total tonnes of CO_{2e} offset using BP Global Choice®.
- > We will use our reasonable commercial endeavours to offset the CO_{2e} generated by your use of the BP fuel product within three months of the purchase of the product. If for any reason beyond our control an abatement project is not able to generate ERUs, we will acquire ERUs from an alternative source that is also certified Greenhouse Friendly™.
- > We will use our reasonable commercial endeavours to maintain Greenhouse Friendly™ certification with the Department of Climate Change, including procuring an annual independent audit of our BP Global Choice® programme.
- > In the event BP ceases to participate in the Greenhouse Friendly™ programme, we may terminate these arrangements on giving you one month's written notice.

Your Obligations

- > By completing the application form and submitting it to us, you agree to accept these BP Global Choice® terms and conditions. You must nominate the amount of your total BP fuel usage you wish to offset by selecting from the pre-set options outlined in the application form. This selection will apply across all your fuel purchases. You may vary the nominated amount to another pre-set option by giving us one month's written notice.
- > You agree to pay the BP Global Choice® Premium (excl GST) on the agreed price of BP fuel products certified Greenhouse Friendly™ by the due date specified on a BP statement. See the table below for the current BP Global Choice® Premium.
- > If GST is imposed on any supply made under these BP Global Choice® terms and conditions, you must pay to BP an amount equal to the GST payable on the taxable supply upon receipt of a tax invoice for that GST amount.
- > You may publicise your participation in BP Global Choice®, however you must not use any BP mark or logo or make any representation about BP without our prior written consent. You must not use the Greenhouse Friendly™ logo unless you are authorised to do so and you indemnify us against any action that might arise from your unauthorised use of that logo.
- > You agree to participate in BP Global Choice® until:
 - > you provide us with one month's written notice that you no longer wish to participate; or
 - > we provide you with one month's written notice terminating your participation. We may do this for any reason, including if your fuel supply arrangements with BP terminate, your BP Card is cancelled, you fail to fulfil your obligations under these terms and conditions or if you undergo any form of insolvency.
- > If your participation in BP Global Choice® ceases, you must pay all outstanding amounts owing to us and must not represent that you participate in BP Global Choice®.
- > These BP Global Choice® terms and conditions are not intended to derogate from any existing terms of fuel supply between you and BP. In the event of any inconsistency between these terms and conditions and the terms of existing fuel supply arrangements between you and BP, the terms of the fuel supply arrangements will prevail (except in relation to the payment of the BP Global Choice® Premium).

BP Global Choice® Premium (excl GST) – current from 1 February 2009

| BP Fuel Product | BP Global Choice® Premium |
|------------------------------|---------------------------|
| BP Ultimate Unleaded (98) | 2.60 cents per litre |
| Premium Unleaded Petrol (95) | 2.60 cents per litre |
| Unleaded Petrol (91) | 2.60 cents per litre |
| e10 | 2.40 cents per litre |
| Opal® | 2.40 cents per litre |
| BP autogas | 1.70 cents per litre |
| Diesel | 2.90 cents per litre |
| BP Ultimate Diesel | 2.90 cents per litre |

*A calculator is provided on the BP website to assist you in estimating the costs and the quantity of emissions that you will offset by participating in BP Global Choice®. www.bp.com.au/globalchoice
