Octane Boosters for Petrol Vehicles (pre-1986)

The following table presents a list of some of the Octane Boosters that are commercially available in the Australian Marketplace.

These products are generally available from Auto-Part Centres, Service Stations and Automotive Workshops.

It is the responsibility of the user to ensure that the products are used in accordance with the manufacturer's guidelines and directions.

Product	Claimed Boost	Treat Rate	Notes
Valve master Plus	1 unit	60mls per 60L of fuel	1
Wynn's Spitfire Octane Boost	2 to 3 units	350ml per 60L of fuel	1
Nylon Octane Boost And Clean	N/A	300ml per 60L of fuel	
Nylon Pro-Strength Octane Boost	Up to 7 units	500ml per 60ml of fuel	2

Notes:

1 – Can be used with Premium Unleaded Petrol

2 – Can be used with either Regular Unleaded or Premium Unleaded Petrol
