BP FINANCE P.L.C
(Registered No.04145621)

ANNUAL REPORT AND FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2024

Board of directors: J A Hodgson
C T De La Peña Bethencourt

The directors present the Strategic Report, their report and the audited financial statements on BP Finance p.l.c (also referred to as the 'company') for the year ended 31 December 2024.

The company is a member of the bp group of companies whose ultimate holding company is BP p.l.c. The term 'bp group', 'bp' or 'group' in this context and where used elsewhere in these reports and financial statements means BP p.l.c. and its subsidiaries. These terms are used in this report for convenience to refer to one or more of the members of the bp group instead of identifying a particular company or companies.

STRATEGIC REPORT

Principal activity

The company is a specialist group guarantor and is available to guarantee the obligations of other group companies.

The majority of income in the company derives from interest receivable on a $5 billion deposit made with BP p.l.c.. The $5 billion deposit was renewed for a term of 10 years from 2020.

Results

The profit for the year after taxation was $282,670,000 which, when added to the retained profit brought forward at 1 January 2024 of $100,851,000, and after deducting total paid interim dividends to ordinary shareholders of $100,000,000, gives a total retained profit carried forward at 31 December 2024 of $283,521,000.

Review of the business

The key financial performance indicators during the year were as follows:

	2024	2023	Variance
	$000	$000	%
Turnover	3,337	3,542	(6)
Operating profit	3,325	3,554	(6)
Profit for the financial year	282,670	271,454	4
Total equity	5,283,521	5,100,851	4

	2024	2023	Variance
Quick ratio*	122	22	100
Return on average capital employed**	5.44 %	5.33 %	0.11 %

No significant movement identified on turnover that is solely derived from guarantee fee income. The higher profit for the financial year was due to higher interest earned on the long term deposit with BP p.l.c. as a result of increased average interest rate compared to the previous year.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

Review of the business (continued)

*Quick ratio is defined as current assets (excluding debtors falling due after one year) divided by current liabilities.

**Return on average capital employed is defined as profit for the year after adding back interest, divided by average capital employed. Capital employed is defined as total equity plus gross debt, excluding goodwill and cash.

Section 172 (1) statement

This section describes how the directors have had regard to the matters set out in section 172 (1) (a) - (f) of the Companies Act 2006 (the 'Section 172 factors') and forms the statement required under section 414CZA of the Companies Act 2006. The directors understand their duties under Section 172 and receive training on them upon their appointment, and at regular intervals thereafter.

The board is committed to doing business ethically and transparently, using bp's values and code of conduct to guide them when engaging and working with business partners. The company's activities, and the decisions of the board, affect a wide variety of individuals and organisations. The directors engage with the company's stakeholders, listening to their differing needs and priorities as part of their role as a senior leader at bp and use the feedback received to inform the board's decision-making.

Section 172 factors	
(a) The likely consequences of any decision in the long term; (e) The desirability of the company maintaining a reputation for high standards of business conduct	When performing their duties, the directors of the company had regard to the bp group strategy and how the long-term success and sustained economic viability of the company supports the bp group's financial frame and sustainability frame. bp's code of conduct, which was updated in 2024, and "Who we are" beliefs set clear expectations for how bp, the company and the board operate to maintain a reputation for high standards of business conduct.
(b) The interests of the company's employees	The company has no employees.
(c) The need to foster the company's business relationships with suppliers, customers and others	During 2024, the directors of the company reiterated their focus on engaging and fostering relationships with suppliers. Their actions were aligned with bp's Code of Conduct and 'Who we are' beliefs.
(d) The impact of the company's operations on the community and the environment	The directors of the company are committed to the bp group's sustainability frame which includes 10 aims to get bp to net zero and help the world get there too, 5 aims to improve people's lives and 5 aims to care for our planet.
(f) The need to act fairly as between members of the company	In considering both the short- and long-term consequences of decisions, the directors consider how to best maximize the long-term shareholder value for its member as a wholly-owned subsidiary.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

Section 172 (1) statement (continued)

In addition to the section 172 stakeholders set out above, the company considers its key stakeholders groups to include:

Stakeholders	
Government	The company recognizes the need to create valued relationships with the government centered around ethics and transparency, and the need to discuss relevant regulations and guidance where necessary. The board is provided with updates on changes in legislation impacting the company and is committed to keeping the government informed of any significant changes to the company.
Shareholders	The company is committed to maximising long term shareholder value in whatever form, when making decisions. The company operates in accordance with the bp group's System of Internal Control, Global Subsidiary Corporate Governance Policy etc., to promote the long term success of the company for the benefit of the shareholder.

The company's principal decisions

The board recognizes the importance of considering and having regard to the section 172 factors when making decisions, particularly principal decisions of the company. The company has taken the view that a 'principal' decision is one which is material and strategic in nature and would affect the ability of the company to generate or preserve value over the long term.

The following principal decisions were taken by the company during the period:

Principal decision	Relevant factors taken into account during decision making process
Approving and payment of a dividend	In December 2024, the directors considered the impact of such a decision on the long-term prospects of the company, as well as considering the financial position of the company to ensure that it has the sufficient distributable reserves at the time of the dividend.

Principal risks and uncertainties

The bp group manages, monitors and reports on the principal risks and uncertainties that can impact the group's ability to deliver its strategy. The group's system of internal control includes policies, processes, management systems, organizational structures, culture and standards of conduct employed to manage bp's business and associated risks.

Throughout the year, bp management, the leadership team, the board and relevant committees provide oversight of how principal risks to bp are identified, assessed and managed. They support appropriate governance of risk management including having relevant policies in place to help manage risks. Such oversight may include internal audit reports, group risk reports and reviews of the outcomes of business processes including strategy, planning and resource and capital allocation. bp's group risk team analyses the group's risk profile and maintains the group's risk management system. bp's internal audit team provides independent assurance to the chief executive and board as to whether the group's system of internal control is adequately designed and operating effectively to respond appropriately to the risks that are significant to bp.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

Principal risks and uncertainties (continued)

The company aims to deliver sustainable value by identifying and responding successfully to risks in line with the group's risk management process.

The risks listed below, separately or in combination, could have a material adverse effect on the implementation of the company's strategy, business, financial performance, results of operations, cash flows, liquidity, prospects, shareholder value and returns and reputation. Unless stated otherwise, further details on these risks are included within the risk factors in the Strategic Report of the bp group Annual Report and Form 20-F for the year ended 31 December 2024.

Strategic and commercial risks

Markets

Recent global developments have also caused significant uncertainty and volatility in macroeconomic conditions and commodity markets. The going concern assessment in the Directors' Report has been based on bp's current expectations, but actual outcomes and results may be impacted by these evolving macroeconomic and market conditions.

Geopolitical

The company is exposed to a range of political developments and consequent changes to the operating and regulatory environment could cause business disruption.

Political instability, changes to the regulatory environment or taxation, international trade disputes and barriers to free trade, international sanctions, expropriation or nationalization of property, civil strife, strikes, insurrections, acts of terrorism, acts of war and public health situations (including the outbreak of an epidemic or pandemic) may disrupt or curtail our operations, business activities or investments. These may in turn cause production to decline, limit bp's ability to pursue new opportunities, affect the recoverability of bp's assets and related earnings and cash flow or cause bp to incur additional costs, particularly due to the long-term nature of many of bp's projects and significant capital expenditure required.

Digital infrastructure, cyber security and data protection

The energy industry is subject to fast-evolving risks, including ransomware, from cyber threat actors, including nation states, criminals, terrorists, hacktivists and insiders. Current geopolitical factors have increased these risks. There is also growing regulation around data protection and data privacy, critical national infrastructure and the evolving opportunities and threats from artificial intelligence. A breach or failure of the bp group or third parties' digital infrastructure – including control systems – due to breaches of cyber defences, or those of third parties, negligence, intentional misconduct or other reasons, could seriously disrupt operations. This could result in the loss or misuse of data or sensitive information, including employees' and customers' personal data, injury to people, disruption to bp group's business, harm to the environment or assets, legal or regulatory breaches, legal liability and significant costs including fines, cost of remediation or reputational consequences. Furthermore, the rapid detection of attempts to gain unauthorized access to digital infrastructure, often through the use of sophisticated and co-ordinated means, is a challenge and any delay or failure to detect could compound these potential harms.

Climate change and the transition to a lower carbon economy

Laws, regulations, policies, obligations, government actions, social attitudes and customer preferences relating to climate change and the transition to a lower carbon economy, including the pace of change to any of these factors, and also the pace of the transition itself, could have adverse impacts on our business including on our access to and realization of competitive opportunities, a decline in demand for, or constraints on our ability to sell certain products, constraints on production and supply, adverse litigation and regulatory or litigation outcomes, increased costs from compliance and increased provisions for environmental and legal liabilities.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

Strategic and commercial risks (continued)

Climate change and the transition to a lower carbon economy (continued)

Investor preferences and sentiment are influenced by environmental, social and governance considerations including climate change and the transition to a lower carbon economy. Changes in those preferences and sentiment could affect bp group's access to capital markets and attractiveness to potential investors, potentially resulting in reduced access to financing, increased financing costs and impacts upon business plans and financial performance.

Depending on the nature and speed of any such changes and our response, these changes could increase costs, reduce the company's profitability, reduce demand for certain products, limit our access to new opportunities, require us to write down certain assets or curtail or cease certain operations, and affect investor sentiment, our access to capital markets, our competitiveness and financial performance.

Insurance

The bp group insures in situations where this is legally and contractually required. Some risks are insured with third parties and reinsured by group insurance companies. Uninsured losses could have a material adverse effect on the company's financial position, particularly if they arise at a time when the company is facing material costs as a result of a significant operational event which could put pressure on liquidity and cash flows.

Compliance and control risks

Ethical misconduct and non-compliance

Incidents of ethical misconduct or non-compliance with applicable laws and regulations, including anti-bribery and corruption, competition and antitrust, data privacy, and anti-fraud laws, trade restrictions or other sanctions, could damage the company's reputation, and result in litigation, regulatory action, penalties and potentially affect licence to operate.

Regulation

Changes in the law and regulation, including how they are interpreted and enforced, could increase costs, constrain the company's operations and affect its business plans and financial performance.

Treasury trading activities

Ineffective oversight of treasury and trading activities could lead to business disruption, financial loss, regulatory intervention, fines or damage to the company's reputation.

Reporting

External reporting of financial and non-financial data relies on the integrity of the control environment, bp group's systems and people operating them. Failure to report data accurately and in compliance with applicable standards could result in regulatory action, legal liability and reputational damage.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

Financial risk management

The company is exposed to a number of different financial risks arising from natural business exposures as well as its use of financial instruments including market risks relating to foreign currency exchange rates and interest rates. Further details on these financial risks are included within Note 29 of the bp group Annual Report and Form 20-F for the year ended 31 December 2024.

DIRECTORS' REPORT

BP FINANCE P.L.C

Directors

The present directors are listed on page 1.

J A Hodgson served as a director throughout the financial year. Changes since 1 January 2024 are as follows:

	Appointed	Resigned
N M Staunton	—	1 July 2024
C T De La Peña Bethencourt	3 July 2024	—

Directors' indemnity

The company indemnifies the directors in its Articles of Association to the extent allowed under section 232 of the Companies Act 2006. Such qualifying third party indemnity provisions for the benefit of the company's directors remain in force at the date of this report.

Dividends

During the year the company has declared and paid dividends of $100,000,000 (2023 $250,000,000). The directors do not propose the payment of a final dividend (2023 $Nil).

Strategic and commercial risks

Markets
Recent global developments have caused significant uncertainty and volatility in macroeconomic conditions and commodity markets. The going concern assessment below has been based on bp's current expectations, but actual outcomes and results may be impacted by these evolving macroeconomic and market conditions.

Financial risk management

In accordance with section 414C of the Companies Act 2006 the directors have included information regarding financial instruments as required by Schedule 7 (Part 6.1) of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 in the Strategic Report under Financial risk management.

Going concern

The directors consider it appropriate to adopt the going concern basis of accounting in preparing the financial statements. The current economic and geopolitical environment were considered as part of the going concern assessment.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

Going concern (continued)

Liquidity and financing are managed within the bp group under pooled group-wide arrangements which include the company. As part of the going concern basis of preparation for the company, the ability and intent of the bp group to support the company has also been taken into consideration. The most recent bp group financial statements continue to be prepared on a going concern basis. Forecast liquidity of the bp group has been assessed under a number of stressed scenarios, including a significant decline in oil prices over the 12-month period from the date these financial statements were approved. Reverse stress tests performed indicated that the bp group will continue to operate as a going concern for at least 12 months from the date of approval of the financial statements even if the Brent price fell to zero. In addition, bp group management have confirmed the existing intra-group funding and liquidity arrangements as currently constituted are expected to continue for the foreseeable future, being no less than twelve months from the approval of these financial statements. No material uncertainties over going concern or significant judgements or estimates on the assessment were identified. Accordingly, the company will be able to draw on support from the bp group for the foreseeable future and these financial statements have therefore been prepared on a going concern basis. For further information on financial risk factors, see page 6.

The company has a $5 billion callable long-term deposit with BP p.l.c. in place with a facility limit of $7 billion, which the directors judge is sufficient to cover possible contingent liability claims arising from the guarantees in place.

In assessing the prospects of BP Finance p.l.c, the directors noted that such assessment is subject to a degree of uncertainty that can be expected to increase looking out over time and, accordingly, that future outcomes cannot be guaranteed or predicted with certainty.

Having a reasonable expectation that the company has adequate resources to continue in operational existence for at least the next 12 months from the date these financial statements were approved, the directors consider it appropriate to continue to adopt the going concern basis of accounting in preparing the financial statements.

Future developments

The directors aim to maintain the management policies which have resulted in the company's stability in recent years.

They believe that the company is in a good position to take advantage of any opportunities which may arise in the future.

It is the intention of the directors that the business of the company will continue for the foreseeable future.

Auditors

Pursuant to section 487 of the Companies Act 2006, Deloitte LLP have expressed their willingness to continue in office as auditors and are therefore deemed reappointed as auditors.

DIRECTORS' REPORT

Directors' statement as to the disclosure of information to the auditor

The directors who were members of the board at the time of approving the directors' report, as listed on page 1, confirm that:

- To the best of each director's knowledge and belief, there is no information relevant to the preparation of the auditor's report of which the company's auditor is unaware; and
- Each director has taken all the steps a director might reasonably be expected to have taken to be aware of relevant audit information and to establish that the company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with section 418 of the Companies Act 2006.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE FINANCIAL STATEMENTS

BP FINANCE P.L.C

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable UK law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law) including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the profit or loss for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable United Kingdom accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors confirm that they have complied with these requirements. Details of the directors' assessment of going concern are provided in the Directors' Report.

Responsibility statement
We confirm that to the best of our knowledge:

a. the financial statements, prepared in accordance with the relevant financial reporting framework, give a true and fair view of the assets, liabilities, financial position and profit or loss of the company;

b. the Strategic Report includes a fair review of the development and performance of the business and the position of the company, together with a description of the principal risks and uncertainties that they face; and

c. the financial statements, are fair, balanced and understandable and provide the information necessary for shareholders to assess the company's position and performance, business model and strategy.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BP FINANCE P.L.C

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of BP Finance p.l.c (the 'company'):

- give a true and fair view of the state of the company's affairs as at 31 December 2024 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the profit and loss account;
- the statement of comprehensive income;
- the balance sheet;
- the statement of changes in equity; and
- the related notes 1 to 15.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

DTT

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the company's industry and its control environment, and reviewed the company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management and the directors about their own identification and assessment of the risks of irregularities, including those that are specific to the company's business sector.

We obtained an understanding of the legal and regulatory frameworks that the company operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included UK Companies Act and tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the company's ability to operate or to avoid a material penalty.

We discussed among the audit engagement team regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management and in-house legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance.

INDEPENDENT AUDITOR'S REPORT

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

1. Authorization of financial statements and statement of compliance with Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101)

The financial statements of BP Finance p.l.c for the year ended 31 December 2024 were approved by the board of directors on 25 June 2025 and the balance sheet was signed on the board's behalf by J A Hodgson. BP Finance p.l.c is a public limited company, limited by shares incorporated, domiciled and registered in England and Wales (registered number 04145621) under the Companies Act 2006. The company's registered office is at Chertsey Road, Sunbury on Thames, Middlesex, TW16 7BP, United Kingdom. These financial statements were prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' (FRS 101) and the provisions of the Companies Act 2006.

2. Material accounting policy information, significant judgements, estimates and assumptions

The material accounting policy information and critical accounting judgements, estimates and assumptions of the company are set out below.

Basis of preparation

These financial statements have been prepared in accordance with FRS 101. The financial statements have been prepared under the historical cost convention. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

The accounting policies that follow have been consistently applied to all years presented, except where otherwise indicated.

The company meets the definition of a qualifying entity under FRS 100 'Application of Financial Reporting Requirements' issued by the FRC. Accordingly, these financial statements were prepared under the historical cost convention in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework and the Companies Act 2006. As permitted by FRS 101, the company has taken advantage of the disclosure exemptions available under that standard in relation to:

(a) the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134 to 136 of IAS 1 Presentation of Financial Statements;
(b) the requirements of IAS 7 Statement of Cash Flows (excluding paragraphs 1 to 44E, 44H(b)(ii) and 45 to 63 which are not applicable);
(c) the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors in relation to standards not yet effective;
(d) the requirements of paragraph 17 and 18A of IAS 24 Related Party Disclosures;
(e) the requirements of IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member;
(f) the requirements of IFRS 7 Financial Instruments: Disclosures;
(g) the requirements of paragraphs 91 – 99 of IFRS 13 Fair Value Measurement;
(h) the requirement of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers; and
(i) the requirements of paragraphs 88C and 88D of IAS 12 Income Taxes.

Where required, equivalent disclosures are given in the consolidated financial statements of BP p.l.c. The consolidated financial statements of BP p.l.c. are available to the public and can be obtained as set out in Note 15.

The financial statements are presented in US dollars and all values are rounded to the nearest thousand dollars ($000), except where otherwise indicated.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Material accounting policy information: use of judgements, estimates and assumptions

Inherent in the application of many of the accounting policies used in preparing the financial statements is the need for management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual outcomes could differ from the estimates and assumptions used.

The accounting judgements and estimates that have a significant impact on the results of the company are set out below, and should be read in conjunction with the information provided in the Notes to the financial statements.

The area requiring the most significant judgement and estimation in the preparation of the financial statements is financial guarantees.

Material accounting policy information

Going concern

The directors consider it appropriate to adopt the going concern basis of accounting in preparing the financial statements. The current economic and geopolitical environment were considered as part of the going concern assessment.

Liquidity and financing are managed within the bp group under pooled group-wide arrangements which include the company. As part of the going concern basis of preparation for the company, the ability and intent of the bp group to support the company has also been taken into consideration. The most recent bp group financial statements continue to be prepared on a going concern basis. Forecast liquidity of the bp group has been assessed under a number of stressed scenarios, including a significant decline in oil prices over the 12-month period from the date these financial statements were approved. Reverse stress tests performed indicated that the bp group will continue to operate as a going concern for at least 12 months from the date of approval of the financial statements even if the Brent price fell to zero. In addition, bp group management have confirmed the existing intra-group funding and liquidity arrangements as currently constituted are expected to continue for the foreseeable future, being no less than twelve months from the approval of these financial statements. No material uncertainties over going concern or significant judgements or estimates on the assessment were identified. Accordingly, the company will be able to draw on support from the bp group for the foreseeable future and these financial statements have therefore been prepared on a going concern basis. For further information on financial risk factors, see page 6.

The company has a $5 billion callable long-term deposit with BP p.l.c. in place with a facility limit of $7 billion, which the directors judge is sufficient to cover possible contingent liability claims arising from the guarantees in place.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Going concern (continued)

In assessing the prospects of BP Finance p.l.c, the directors noted that such assessment is subject to a degree of uncertainty that can be expected to increase looking out over time and, accordingly, that future outcomes cannot be guaranteed or predicted with certainty.

Having a reasonable expectation that the company has adequate resources to continue in operational existence for at least the next 12 months from the date these financial statements were approved, the directors consider it appropriate to continue to adopt the going concern basis of accounting in preparing the financial statements.

Foreign currency

The functional and presentation currency of the financial statements is US dollars. The functional currency is the currency of the primary economic environment in which the company operates and is normally the currency in which the company primarily generates and expends cash.

Transactions in foreign currencies are initially recorded in the functional currency by applying the rate of exchange ruling at the date of the transaction. Where this is not practical and exchange rates do not fluctuate materially the average rate has been used. Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot exchange on the balance sheet date. Any resulting exchange differences are included in the profit and loss account, unless hedge accounting is applied. Non-monetary assets and liabilities, other than those measured at fair value, are not retranslated subsequent to initial recognition.

Financial assets

Financial assets are recognized initially at fair value, normally being the transaction price. In the case of financial assets not measured at fair value through profit or loss, directly attributable transaction costs are also included. The subsequent measurement of financial assets depends on their classification, as set out below. The company derecognizes financial assets when the contractual rights to the cash flows expire or the rights to receive cash flows have been transferred to a third party and either substantially all of the risks and rewards of the asset have been transferred, or substantially all the risks and rewards of the asset have neither been retained nor transferred but control of the asset has been transferred.

The company classifies its financial assets as measured at amortized cost or fair value through profit or loss. The classification depends on the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

Financial assets are classified as measured at amortized cost when they are held in a business model the objective of which is to collect contractual cash flows and the contractual cash flows represent solely payments of principal and interest. Such assets are carried at amortized cost using the effective interest method if the time value of money is significant. Gains and losses are recognized in profit or loss when the assets are derecognized or impaired and when interest income is recognized using the effective interest method. This category of financial assets includes amounts owed from group undertakings.

Financial assets measured at fair value through profit or loss

Financial assets are classified as measured at fair value through profit or loss when the asset does not meet the criteria to be measured at amortized cost. Such assets are carried on the balance sheet at fair value with gains or losses recognized in the profit and loss account. Derivatives, other than those designated as effective hedging instruments, are included in this category.

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Impairment of financial assets measured at amortized cost

The company assesses on a forward-looking basis the expected credit losses associated with financial assets measured at amortized cost at each balance sheet date. Expected credit losses are measured based on the maximum contractual period over which the company is exposed to credit risk. As lifetime expected credit losses are recognized for trade receivables and the tenor of substantially all other in-scope financial assets is less than 12 months there is no significant difference between the measurement of 12-month and lifetime expected credit losses for the company. The measurement of expected credit losses is a function of the probability of default, loss given default and exposure at default. The expected credit loss is estimated as the difference between the asset's carrying amount and the present value of the future cash flows the company expects to receive, discounted at the financial asset's original effective interest rate. The carrying amount of the asset is adjusted, with the amount of the impairment gain or loss recognized in the profit and loss account.

A financial asset or group of financial assets classified as measured at amortized cost is considered to be credit-impaired if there is reasonable and supportable evidence that one or more events that have a detrimental impact on the estimated future cash flows of the financial asset (or group of financial assets) have occurred. Financial assets are written off where the company has no reasonable expectation of recovering amounts due.

Financial liabilities

Financial liabilities are recognized when the company becomes party to the contractual provisions of the instrument. The company derecognizes financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. The measurement of financial liabilities depends on their classification, as follows:

Financial liabilities measured at fair value through profit or loss
Financial liabilities that meet the definition of held for trading are classified as measured at fair value through profit or loss. Such liabilities are carried on the balance sheet at fair value with gains or losses recognized in the profit and loss account.

Financial liabilities measured at amortized cost
All other financial liabilities are initially recognized at fair value, net of directly attributable transaction costs.

After initial recognition, these financial liabilities are subsequently measured at amortized cost. This category of financial liabilities includes other creditors.

Financial guarantees

The company issues financial guarantee contracts to make specified payments to reimburse holders for losses incurred if certain group undertakings or third-party entities fail to make payments when due in accordance with the original or modified terms of a debt instrument such as a loan. The liability for a financial guarantee contract is initially measured at fair value and subsequently measured at the higher of the contract's estimated expected credit loss and the amount initially recognized less, where appropriate, cumulative amortization.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Financial liabilities (continued)

Financial guarantees (continued)

Significant judgements: financial guarantees

The discounted value of future fees to be received from beneficiary entities over the life of the contact is recognized as a financial asset at fair value. As fees are received, the asset is subsequently measured at fair value through profit or loss. The liability for a financial guarantee contract is recognized at an amount equal to the financial asset as the fair value of the guarantee contract and subsequently measured at the higher of this initial amount, less the cumulative income recognized in accordance with the principles of IFRS 15 Revenue from Contracts with Customers, and the contract's estimated expected credit loss. This is considered to be an area with significant judgement as management is required to identify and assess any significant increases in credit risk, such as credit events associated with counterparties. This may give rise to changes and complexities in determining the expected credit loss. The current economic environment and future credit risk outlook have been considered in calculating expected credit loss. Management does not consider the calculation to be a significant accounting estimate.

Offsetting of financial assets and liabilities

Financial assets and liabilities are presented gross in the balance sheet unless both of the following criteria are met: the company currently has a legally enforceable right to set off the recognized amounts; and the company intends to either settle on a net basis or realize the asset and settle the liability simultaneously. If both of the criteria are met, the amounts are set off and presented net. A right of set off is the company's legal right to settle an amount payable to a creditor by applying against it an amount receivable from the same counterparty. The relevant legal jurisdiction and laws applicable to the relationships between the parties are considered when assessing whether a current legally enforceable right to set off exists.

Taxation

Income tax expense represents the current tax.

Income tax is recognized in the profit and loss account, except to the extent that it relates to items recognized in other comprehensive income or directly in equity, in which case the related tax is recognized in other comprehensive income or directly in equity.

Current tax is based on the taxable profit for the period. Taxable profit differs from net profit as reported in the profit and loss account because it is determined in accordance with the rules established by the applicable taxation authorities. It therefore excludes items of income or expense that are taxable or deductible in other periods as well as items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Where tax treatments are uncertain, if it is considered probable that a taxation authority will accept the company's proposed tax treatment, income taxes are recognized consistent with the company's income tax filings. If it is not considered probable, the uncertainty is reflected within the carrying amount of the applicable tax asset or liability using either the most likely amount or an expected value, depending on which method better predicts the resolution of the uncertainty.

In July 2023, the UK government enacted legislation to implement the Pillar Two Model rules. The legislation is effective for bp from 1 January 2024 and includes an income inclusion rule and a domestic minimum tax, which together are designed to ensure a minimum effective tax rate of 15% in each country in which bp operates. In line with the amendments to IAS 12, the exception from recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes has been applied.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Guarantee fee income

Guarantee fee income is recognised through changes in the carrying value of the guarantee liability and the measurement of the financial asset at fair value through profit and loss.

Interest income

Interest income is recognized as the interest accrues.

Dividends payable

Final dividends are recorded in the financial statements in the year in which they are approved by the company's shareholders. Interim dividends are recorded in the year in which they are approved and paid.

Updates to material accounting policy information

There are no new IFRS Accounting Standards or other amended standards or interpretations adopted from 1 January 2024 onwards, that have a significant impact on the financial statements.

Impact of new International Financial Reporting Standards

The following pronouncements from the IASB have not been adopted by the company in these financial statements as they will only become effective for future financial reporting periods. There are no other standards, amendments or interpretations in issue but not yet adopted that the directors anticipate will have a material effect on the reported income or net assets of the company.

Amendment to IFRS 9 Financial Instruments

Amendments to IFRS 9 Financial Instruments relating to the settlement of liabilities through electronic payment systems are effective for annual periods beginning on or after 1 January 2026 subject to endorsement by the UK Endorsement Board. The potential impact on cash and banking operations and amounts reported on adoption of the amendments is currently being assessed.

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 Presentation and Disclosure in Financial Statements will supersede IAS 1 Presentation of Financial Statements and is effective for annual periods beginning on or after 1 January 2027 subject to endorsement by the UK Endorsement Board. IFRS 18 (and consequential amendments made to IAS 7 Statement of Cash Flows, IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, IAS 33 Earnings per share and IFRS 7 Financial Instruments: Disclosures) introduces several new requirements that are expected to impact the presentation and disclosure of the company's financial statements. These new requirements include:

- Requirements to classify all income and expenses included in the statement of profit or loss into one of five categories and to present two new mandatory subtotals.
- Required disclosures about certain non-GAAP measures ('management defined performance measures') in a single note to the financial statements.
- Enhanced guidance on the aggregation of information across all the primary financial statements and the notes.

The company's evaluation of the effect of adopting IFRS 18 is ongoing.

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

3. Turnover

An analysis of the company's turnover is as follows:

	2024	2023
	$000	$000
Guarantee fee income	3,337	3,542

All turnover is generated from one class of business and the country of origin and destination is substantially the UK geographic area.

4. Operating profit

This is stated after charging / (crediting):

	2024	2023
	$000	$000
Net foreign exchange losses / (gains)*	12	(12)

*Amount is included in Administrative expenses.

5. Auditor's remuneration

	2024	2023
	$000	$000
Fees for the audit of the company's financial statements	41	43

Fees paid to the company's auditor, Deloitte LLP and its associates for services other than the statutory audit of the company are not disclosed in these financial statements since the consolidated financial statements of BP Finance p.l.c's ultimate parent, BP p.l.c., are required to disclose non-audit fees on a consolidated basis.

The audit fees were borne by another group company.

6. Interest receivable and similar income

	2024	2023
	$000	$000
Interest income from amounts owed from group undertakings	279,345	267,900

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

7. Taxation

The company is a member of a group for the purposes of relief within Part 5, Corporation Tax Act 2010.

In May 2023, the IASB issued International Tax Reform – Pillar Two Model Rules - Amendments to IAS 12 Income Taxes to clarify the application of IAS 12 to tax legislation enacted or substantively enacted to implement Pillar Two of the Organisation for Economic Co-operation and Development's Base Erosion and Profit Shifting project, which aims to address the tax challenges arising from the digitalisation of the economy. The amendments include a mandatory temporary exception from accounting for deferred tax on such tax law. In July 2023, the UK government enacted legislation to implement the Pillar Two rules. The legislation is effective for the company from 1 January 2024 and includes an income inclusion rule and a domestic minimum tax. The Pillar Two rules apply at a country level across legal entities in the same group. The rules also include a transitional safe harbour (TCSH) based on Country-by-Country reporting which is applicable for the first three years of the Pillar Two rules. The TCSH provides for three tests which simplify the application of the Pillar Two rules, and where at least one of these tests is met, the top-up tax is deemed to be zero. No provision has been made for Pillar Two current tax for the company for the year ended 31 December 2024 as the company is expected to qualify for the TCSH. In line with the amendments to IAS 12, the exception from accounting for deferred tax for the Pillar Two rules has been applied.

The company has no current or deferred tax charge or credit in the profit and loss account for the year.

Reconciliation of the effective tax rate

The tax assessed on the profit for the year is lower than the standard rate of corporation tax in the UK of 25.0% for the year ended 31 December 2024 (2023 23.5%). The differences are reconciled below:

	2024	2023
	$000	$000
Profit before taxation	282,670	271,454
Tax charge / (credit)	—	—
Effective tax rate	— %	— %

	2024	2023
	%	%
UK statutory corporation tax rate:	25.0	23.5
Decrease resulting from:		
Free group relief	(25.0)	(23.5)
Effective tax rate	—	—

Change in corporation tax rate

The UK corporation tax rate is 25%, effective from 1 April 2023, which applies for the year ended 31 December 2024. The company had no deferred tax balances, recognized or unrecognized, at the balance sheet date.

8. Directors and employees

(a) Remuneration of directors

None of the directors received any fees or remuneration for qualifying services as a director of the company during the financial year (2023 $Nil).

(b) Employee costs

The company had no employees during the year (2023 None).

DTT

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

9. Debtors

Amounts falling due within one year:

	2024	2023
	$000	$000
Amounts owed from group undertakings	253,669	72,163

Amounts falling due after one year:

	2024	2023
	$000	$000
Amounts owed from group undertakings	5,031,927	5,031,927
Total debtors	5,285,596	5,104,090

Included within the amounts owed from group undertakings falling due within one year is an Internal Funding Account (IFA) of $210,876,000 receivable from BP International Limited (2023 $20,077,000).

This balance forms a key part of the bp group's liquidity and funding arrangements under its centralized treasury funding model and it can be accessed by BP International Limited at short notice. Whilst IFA balances are legally repayable on demand, in practice they have no termination date.

Interest is accrued on a monthly basis based on overnight SOFR plus 4 basis points.

Amounts owed from group undertakings falling due after one year comprise a variable rate long term deposit of $5,031,927,000 (2023 $5,031,927,000) with interest being charged based on a 3-month SOFR rate plus 12 basis points. The long term deposit has a maturity date of 30 April 2030 but is repayable on demand.

10. Creditors

Amounts falling due within one year:

	2024	2023
	$000	$000
Other creditors	2,075	3,239

Other creditors relate to the fair value of liabilities associated with financial guarantees issued by the company in respect of obligations of fellow bp group companies.

11. Called up share capital

	2024	2023
	$000	$000
Issued and fully paid:		
4,999,927,000 ordinary shares of $1 each for a total nominal value of $4,999,927,000	4,999,927	4,999,927
50,000 ordinary shares of £1 each for a total nominal value of £50,000	73	73
	5,000,000	5,000,000

Docusign Envelope ID: 6FC59F10-0DB2-415C-A6D6-7B19A480537B

12. Reserves

Called up share capital
The balance on the called up share capital account represents the aggregate nominal value of all ordinary shares in issue.

Profit and loss account
The balance held on this reserve is the retained profits of the company.

In 2024, the company paid interim ordinary dividends of $100,000,000 (2023 $250,000,000). The dividend per share was $0.02 (2023 $0.05).

13. Guarantees and other financial commitments

The company has issued guarantees to third parties in case of the failure, on part of certain bp subsidiaries, to pay current liabilities and obligations pertaining to business operations. The amounts guaranteed by the company, at 31 December 2024, for these arrangements is $990,053,000 (2023 $1,015,492,000).

The company guarantees lease obligations of certain bp group subsidiaries. Maturity dates vary and guarantees will terminate on full payment and/or cancellation of the obligation. At 31 December 2024, maximum guaranteed amounts pertaining to lease arrangements were $747,000,000 (2023 $747,000,000). These maximum amounts are significantly more than the actual guaranteed exposure due at the balance sheet date as well as significantly more than remaining obligations under the guaranteed contract.

Performance under all the above guarantees would be triggered by a financial default of the guaranteed entity and as such are currently not expected to have any material effect.

As part of normal ongoing business operations and consistent with generally accepted industry practices, the company also executes contracts involving standard indemnities for the respective businesses in which it operates. The company regularly evaluates the probability of having to incur costs associated with these indemnities and does not believe such matters will have a material effect on its financial position, income and expenses, liquidity, investments or financial resources.

14. Related party transactions

The company has taken advantage of the exemption contained within paragraphs 8(k) and (j) of FRS 101, and has not disclosed transactions entered into with wholly-owned group companies or key management personnel. There were no other related party transactions in the year.

15. Immediate and ultimate controlling parent undertaking

The immediate parent undertaking is BP International Limited, a company registered in England and Wales. The ultimate controlling parent undertaking is BP p.l.c., a company registered in England and Wales, which is the smallest and largest group to consolidate these financial statements. Copies of the consolidated financial statements of BP p.l.c. can be obtained from its registered address: 1 St James's Square, London, SW1Y 4PD, United Kingdom.
