Mad Dog

eRINs Biomass

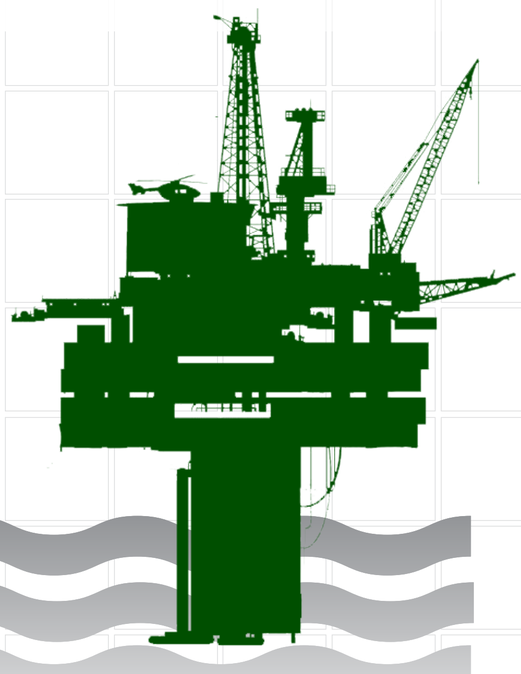

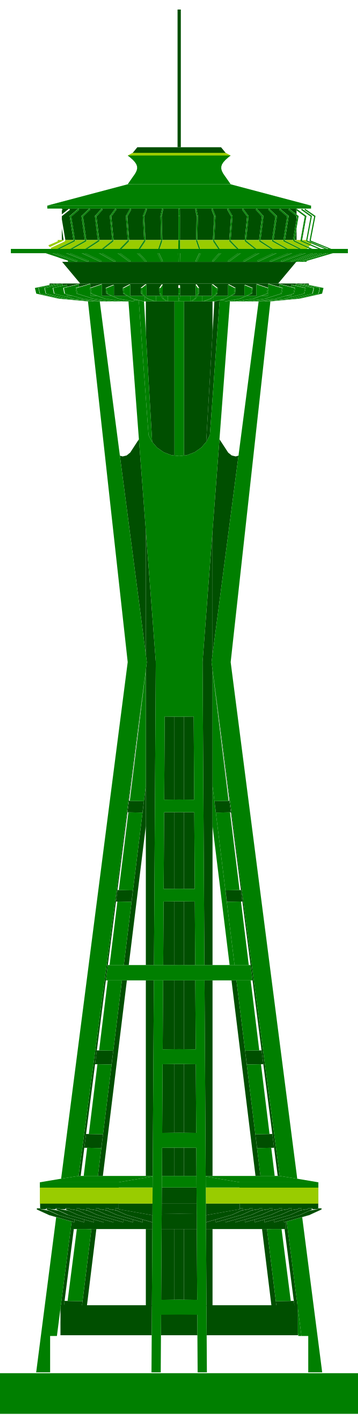

Location
100 miles south of Grand Isle, LA

Operator
bp (60.5%)

Co-owners
Woodside (23.9%), Chevron (15.6%)

The massive Mad Dog is bp's **only floating spar facility** in the Gulf, the bulk of its 550 foot-long single column sits under the water.

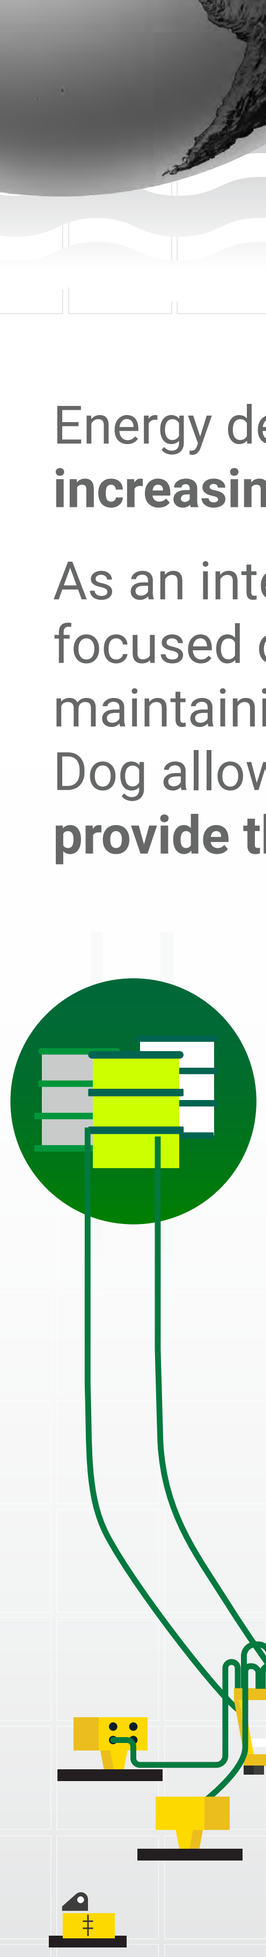

Operates at a water depth of

4,500ft

That's more than **7x** the height of the Seattle Space Needle.

Energy demand continues to grow, and **we are increasing our investments** in oil and gas.

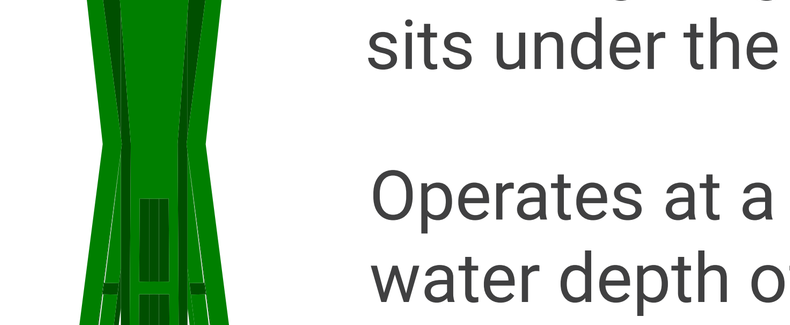

As an integrated energy company, we are focused on growing production – always maintaining strong and safe operations. Mad Dog allows bp to access and deliver barrels that **provide the energy the world needs.**

Can produce up to

100K barrels

of oil per day

96,000sqft

Has main deck area big enough to fit **44** average U.S. homes

That's enough to fuel

every mile

of the U.S. Interstate highways

700 x

It can also produce up to 60 million cubic feet of natural gas per day.
