BP SHIPPING LIMITED
(Registered No.00140132)

ANNUAL REPORT AND FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2024

Board of directors: I Glennie
L Klaoudatos
H J Carmalt
G B Ferguson
K J Upson
D M Lane

The directors present the Strategic Report, their report and the audited financial statements on BP Shipping Limited (also referred to as the 'company') for the year ended 31 December 2024.

The company is a member of the bp group of companies whose ultimate holding company is BP p.l.c. The term 'bp group', 'bp' or 'group' in this context and where used elsewhere in these reports and financial statements means BP p.l.c. and its subsidiaries. These terms are used in this report for convenience to refer to one or more of the members of the bp group instead of identifying a particular company or companies.

STRATEGIC REPORT

Principal activity

The principal activity of the company is that of shipping and ship management. The company charters, manages and operates oil tankers and liquefied natural gas and petroleum carriers (LNG/LPG) principally on behalf of the bp group.

The company's fleet included 48 international oil, LNG and supply vessels at the end of 2024, which comprised 24 bp and third party operated vessels, 22 time chartered vessels and 2 supply vessels compared to a total of 49 vessels at the end of 2023. All vessels on bp business are subject to bp's requirements.

Results

The profit for the year after taxation was $189,872,000 which, when deducted from the accumulated loss brought forward at 1 January 2024 of $921,135,000, gives a total accumulated loss carried forward at 31 December 2024 of $731,263,000.

Review of the business

The key financial and other performance indicators during the year were as follows:

	2024	2023	Variance
			%
Number of voyages	457	478	(4)
Tonnes of cargo carried (mt)	42,577,369	46,350,673	(8)

	2024	2023	Variance
	$000	$000	%
Turnover	1,432,636	1,408,211	2
Operating profit	136,619	212,305	(36)
Profit for the financial year	189,872	250,339	(24)
Total equity	2,039,206	1,849,334	10

DTT

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Review of the business (continued)

	2024	2023	Variance
	%	%	%
Gross Profit percentage*	14	21	(7)
Return on assets**	7	9	(2)

*Gross profit percentage is defined as gross profit divided by turnover.

**Return on assets is defined as net profit divided by total assets.

The company recorded a reduction in overall gross profit during the current year. This is as a result of disproportionate increase in turnover compared to the increase in cost of sales due to fairly consistent bunker prices throughout 2024 with a higher average bunker price consumed in 2024 as compared to 2023. In the previous year, operating profit and profit for the financial year were higher primarily driven by lower cost of sales of operating lease payments in tanker charterer. The increase in equity is solely attributed to the profit earned during the financial year. The decrease in return on assets is mainly due to lower profit for the financial year.

Section 172 (1) statement

This section describes how the directors have had regard to the matters set out in section 172 (1) (a) - (f) of the Companies Act 2006 (the 'Section 172 factors') and forms the statement required under section 414CZA of the Companies Act 2006. The directors understand their duties under Section 172 and receive training on them upon their appointment, and at regular intervals thereafter.

The board is committed to doing business ethically and transparently, using bp's values and code of conduct to guide them when engaging and working with business partners. The company's activities, and the decisions of the board, affect a wide variety of individuals and organisations. The directors engage with the company's stakeholders, listening to their differing needs and priorities as part of their role as a senior leader at bp and use the feedback received to inform the board's decision-making.

Section 172 factors	
(a) – The likely consequences of any decision in the long term; (e) the desirability of the company maintaining a reputation for high standards of business conduct	When performing their duties, the directors of the company had regard to the bp group strategy and how the long-term success and sustained economic viability of the company supports the bp group's financial frame and sustainability frame. bp's code of conduct, which was updated in 2024, and "Who we are" beliefs set clear expectations for how bp, the company and the board operate to maintain a reputation for high standards of business conduct.

STRATEGIC REPORT

Section 172 (1) statement (continued)

Section 172 factors	
(b) – the interests of the company's employees	The company has no employees.
(c) – The need to foster the company's business relationships with suppliers, customers and others	During 2024, the directors of the company reiterated their focus on engaging and fostering relationships with suppliers and customers. Their actions were aligned with bp's Code of Conduct and 'Who we are' beliefs. Furthermore, the board reviewed and considered the company's prompt payment reporting performance and disclosed its practices in respect of the same on a bi-annual basis.
(d) – The impact of the company's operations on the community and the environment	The directors of the company are committed to the bp group's sustainability frame which includes 10 aims to get bp to net zero and help the world get there too, 5 aims to improve people's lives and 5 aims to care for our planet.
(f) - The need to act fairly as between members of the company	In considering both the short- and long-term consequences of decisions, the directors consider how to best maximize the long-term shareholder value for its member as a wholly-owned subsidiary.

In addition to the section 172 stakeholders set out above, the company considers its key stakeholders groups to include:

Stakeholders	
Government/Regulators	The company recognizes the need to create valued relationships with the government/regulators centered around ethics and transparency, and the need to discuss relevant regulations and guidance where necessary. The board is provided with updates on changes in regulation and /or legislation impacting the company and is committed to keeping the government/regulators informed of any significant changes to the company.
Shareholders	The company is committed to maximizing long term shareholder value in, whatever form, when making decisions.
Banks	The company establishes and opens one or more bank accounts as is deemed necessary or desirable in order to conduct business in the name of the company.

The company's principal decisions

During the period the directors of the company continued to monitor progress against the company's strategy, as highlighted in the principal activities section of the Strategic Report of the company, and decisions made by the directors of the company were in respect of routine board matters, in furtherance of the bp group's purpose and were not considered to be principal in nature.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Principal risks and uncertainties

The bp group manages, monitors and reports on the principal risks and uncertainties that can impact the group's ability to deliver its strategy. The group's system of internal control includes policies, processes, management systems, organizational structures, culture and standards of conduct employed to manage bp's business and associated risks.

Throughout the year, bp management, the leadership team, the board and relevant committees provide oversight of how principal risks to bp are identified, assessed and managed. They support appropriate governance of risk management including having relevant policies in place to help manage risks. Such oversight may include internal audit reports, group risk reports and reviews of the outcomes of business processes including strategy, planning and resource and capital allocation. bp's group risk team analyses the group's risk profile and maintains the group's risk management system. bp's internal audit team provides independent assurance to the chief executive and board as to whether the group's system of internal control is adequately designed and operating effectively to respond appropriately to the risks that are significant to bp.

The company aims to deliver sustainable value by identifying and responding successfully to risks in line with the group's risk management process.

The risks listed below, separately or in combination, could have a material adverse effect on the implementation of the company's strategy, business, financial performance, results of operations, cash flows, liquidity, prospects, shareholder value and returns and reputation. Unless stated otherwise, further details on these risks are included within the risk factors in the Strategic Report of the bp group Annual Report and Form 20-F for the year ended 31 December 2024.

Strategic and commercial risks

Prices and markets

The company's financial performance is impacted by fluctuating prices of oil, gas, technological change, exchange rate fluctuations and the general macroeconomic outlook. Oil, gas and product prices are subject to international supply and demand and margins can be volatile. Political developments, increased supply of oil and gas or alternative low carbon energy sources, technological change, global economic conditions, public health situations, the introduction of new carbon costs and the influence of OPEC+ can impact supply and demand and prices for our products.

Decreases in the price of energy outputs the company produces could have an adverse effect on revenue, margins, profitability and cash flows. If these reductions are significant or for a prolonged period, management may have to write down assets and reassess the viability of certain projects, which may impact future cash flows, profit, capital expenditure, the ability to work within the bp group's financial frame and maintain bp's long-term investment programme. Conversely, an increase in the prices of the energy outputs the company produces may not improve margin performance as there could be increased fiscal take, cost inflation and more onerous terms for access to resources. Recent global developments have also caused significant uncertainty and volatility in macroeconomic conditions and commodity markets. The going concern assessment in the Directors' Report has been based on bp's current expectations, but actual outcomes and results may be impacted by these evolving macroeconomic and market conditions.

Exchange rate fluctuations can create currency exposures and impact underlying costs and revenues.

Major project delivery

Failure to invest in the best opportunities or deliver major projects successfully could adversely affect the company's financial performance.

The company faces challenges in developing major projects, particularly in geographically and technically challenging areas. Poor investment choice, efficiency or delivery, inflation, supply chain, or operational challenges at any major project that underpins production or production growth, could adversely affect the company's financial performance.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Strategic and commercial risks (continued)

Geopolitical

The company is exposed to a range of political developments and consequent changes to the operating and regulatory environment could cause business disruption.

Political instability, changes to the regulatory environment or taxation, international trade disputes and barriers to free trade, international sanctions, expropriation or nationalization of property, civil strife, strikes, insurrections, acts of terrorism, acts of war and public health situations (including the outbreak of an epidemic or pandemic) may disrupt or curtail our operations, business activities or investments. These may in turn cause production to decline, limit bp's ability to pursue new opportunities, affect the recoverability of bp's assets and related earnings and cash flow or cause bp to incur additional costs, particularly due to the long-term nature of many of bp's projects and significant capital expenditure required.

Trade restrictions, international sanctions or any other actions taken by governmental authorities or other relevant persons have had and could continue to have an impact on global energy supply and demand, market volatility and the prices of oil, gas and products.

Liquidity, financial capacity and financial, including credit, exposure

Failure to work within the financial framework set by the bp group could impact the bp group as well as the company's ability to operate and result in financial loss. Credit rating downgrades could potentially increase financing costs and limit access to financing or engagement in the company's trading activities on acceptable terms, which could put pressure on the company's liquidity.

Trade and other receivables, including overdue receivables, may not be recovered could disrupt the group's financial frame or overwhelm the company's ability to meet its obligations.

For further details see Note 29 of the bp group Annual Report and Form 20-F for the year ended 31 December 2024.

Joint arrangements and contractors

The company may have varying levels of control over the standards, operations and compliance of its partners, including contractors and sub-contractors which could result in legal liability and reputational damage.

The company's partners and contractors are responsible for the adequacy of their resources and capabilities. If these are found to be lacking, there may be financial, reputational, operational or safety exposures for the company. Should an incident occur in an operation that the company participates in, its partners and contractors may be unable or unwilling to fully compensate the company against costs it may incur on their behalf or on behalf of the arrangement.

Digital infrastructure, cyber security and data protection

The energy industry is subject to fast-evolving risks, including ransomware, from cyber threat actors, including nation states, criminals, terrorists, hacktivists and insiders. Current geopolitical factors have increased these risks. There is also growing regulation around data protection and data privacy, critical national infrastructure and the evolving opportunities and threats from artificial intelligence. A breach or failure of the bp group or third parties' digital infrastructure – including control systems – due to breaches of cyber defences, or those of third parties, negligence, intentional misconduct or other reasons, could seriously disrupt operations. This could result in the loss or misuse of data or sensitive information, including employees' and customers' personal data, injury to people, disruption to bp group's business, harm to the environment or assets, legal or regulatory breaches, legal liability and significant costs including fines, cost of remediation or reputational consequences. Furthermore, the rapid detection of attempts to gain unauthorized access to digital infrastructure, often through the use of sophisticated and co-ordinated means, is a challenge and any delay or failure to detect could compound these potential harms.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Strategic and commercial risks (continued)

Climate change and the transition to a lower carbon economy

Laws, regulations, policies, obligations, government actions, social attitudes and customer preferences relating to climate change and the transition to a lower carbon economy, including the pace of change to any of these factors, and also the pace of the transition itself, could have adverse impacts on our business including on our access to and realization of competitive opportunities, a decline in demand for, or constraints on our ability to sell certain products, constraints on production and supply, adverse litigation and regulatory or litigation outcomes, increased costs from compliance and increased provisions for environmental and legal liabilities.

Investor preferences and sentiment are influenced by environmental, social and governance considerations including climate change and the transition to a lower carbon economy. Changes in those preferences and sentiment could affect bp group's access to capital markets and attractiveness to potential investors, potentially resulting in reduced access to financing, increased financing costs and impacts upon business plans and financial performance.

Depending on the nature and speed of any such changes and our response, these changes could increase costs, reduce the company's profitability, reduce demand for certain products, limit our access to new opportunities, require us to write down certain assets or curtail or cease certain operations, and affect investor sentiment, our access to capital markets, our competitiveness and financial performance.

Policy, legal, regulatory, technological and market developments related to climate change could also affect future price assumptions used in the assessment of recoverability of asset carrying values and the useful economic lives of assets used for the calculation of depreciation and amortisation.

Competition

The bp group's strategic progress and performance could be impeded if the company is unable to control its development and operating costs and margins, fails to scale its businesses at pace, or to sustain, develop and operate a high-quality portfolio of assets efficiently. Furthermore, as an integrated energy company, the bp group faces an expanded and rapidly evolving range of competitors in the sectors in which it operates.

The company could be adversely affected if our innovation in areas such as customer offer lags behind those of our competitors.

Crisis management and business continuity

The bp group's reputation and business activities could be negatively impacted if the management does not respond, or is perceived not to respond, in an appropriate manner to any major crisis.

Insurance

The bp group insures in situations where this is legally and contractually required. Some risks are insured with third parties and reinsured by group insurance companies. Uninsured losses could have a material adverse effect on the company's financial position, particularly if they arise at a time when the company is facing material costs as a result of a significant operational event which could put pressure on liquidity and cash flows.

DTT

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Safety and operational risks

Process safety, personal safety and environmental risks

Technical integrity failure, natural disasters, extreme weather or a change in its frequency or severity, human error and other adverse events or conditions, including breach of digital security, could lead to loss of containment of hazardous materials, including hydrocarbons. This could also lead to fires, explosions or other personal and process safety incidents when drilling wells, constructing and operating facilities; in addition to activities associated with transportation by road, sea or pipeline. There can be no certainty that our operating management system or other policies and procedures will adequately identify all process safety, personal safety and environmental risks or that all our operating activities will be conducted in conformance with these systems.

Such events or conditions could lead to injuries, loss of life or environmental damage. As a result, the company could face regulatory action and legal liability, including penalties and remediation obligations, increased costs and potentially denial of licence to operate.

Security

Acts of terrorism, piracy, sabotage, activism and similar activities directed against the company's operations and transportation could cause harm to people and severely disrupt operations. The company's activities could also be severely affected by conflict, civil strife or political unrest.

Compliance and control risks

Ethical misconduct and non-compliance

Incidents of ethical misconduct or non-compliance with applicable laws and regulations, including anti-bribery and corruption, competition and antitrust, data privacy, and anti-fraud laws, trade restrictions or other sanctions, could damage the company's reputation, and result in litigation, regulatory action, penalties and potentially affect licence to operate. In relation to trade restrictions or other sanctions, current geopolitical factors have increased these risks.

Regulation

Changes in the law and regulation, including how they are interpreted and enforced, could increase costs, constrain the company's operations and affect its business plans and financial performance.

Treasury

Ineffective oversight of treasury and trading activities could lead to business disruption, financial loss, regulatory intervention, fines or damage to the company's reputation.

Reporting

External reporting of financial and non-financial data relies on the integrity of the control environment, bp group's systems and people operating them. Failure to report data accurately and in compliance with applicable standards could result in regulatory action, legal liability and reputational damage.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Financial risk management

The company is exposed to a number of different financial risks arising from natural business exposures as well as its use of financial instruments including market risks relating to foreign currency exchange rates and interest rates; credit risk; and liquidity risk. Further details on these financial risks are included within Note 29 of the bp group Annual Report and Form 20-F for the year ended 31 December 2024.

DIRECTORS' REPORT

BP SHIPPING LIMITED

Directors

The present directors are listed on page 1.

I Glennie, L Klaoudatos, H J Carmalt, G B Ferguson and K J Upson served as directors throughout the financial year. Changes since 1 January 2024 are as follows:

	Appointed	Resigned
S D Kolbush	—	1 March 2024
D M Lane	1 March 2024	—

Directors' indemnity

The company indemnifies the directors in its Articles of Association to the extent allowed under section 232 of the Companies Act 2006. Such qualifying third party indemnity provisions for the benefit of the company's directors remain in force at the date of this report.

Dividends

The company has not declared any dividends during the year (2023 $Nil). The directors do not propose the payment of a dividend (2023 $Nil).

Strategic and commercial risks

Markets
Recent global developments have caused significant uncertainty and volatility in macroeconomic conditions and commodity markets. The going concern assessment below has been based on bp's current expectations, but actual outcomes and results may be impacted by these evolving macroeconomic and market conditions.

Financial risk management

In accordance with section 414C of the Companies Act 2006 the directors have included information regarding financial instruments as required by Schedule 7 (Part 6.1) of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 in the Strategic Report under Financial risk management.

Post balance sheet events

In June 2025, the directors approved plans relating to the continuation and restructuring of bareboat charter arrangements for six Mariner Class vessels.

Going concern

The directors consider it appropriate to adopt the going concern basis of accounting in preparing the financial statements. The current economic and geopolitical environment were considered as part of the going concern assessment.

DTT

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Going concern (continued)

Liquidity and financing are managed within the bp group under pooled group-wide arrangements which include the company. As part of the going concern basis of preparation for the company, the ability and intent of the bp group to support the company has also been taken into consideration. The most recent bp group financial statements continue to be prepared on a going concern basis. Forecast liquidity of the bp group has been assessed under a number of stressed scenarios, including a significant decline in oil prices over the 12-month period from the date these financial statements were approved. Reverse stress tests performed indicated that the bp group will continue to operate as a going concern for at least 12 months from the date of approval of the financial statements even if the Brent price fell to zero. In addition, bp group management have confirmed the existing intra-group funding and liquidity arrangements as currently constituted are expected to continue for the foreseeable future, being no less than twelve months from the approval of these financial statements. No material uncertainties over going concern or significant judgements or estimates on the assessment were identified. Accordingly, the company will be able to draw on support from the bp group for the foreseeable future and these financial statements have therefore been prepared on a going concern basis. For further information on financial risk factors, including credit risk and liquidity risk, see page 8.

The company is in a healthy net assets and net current assets position as at 31 December 2024. The company has ongoing funding arrangements with BP International Limited to manage its working capital as well as investing activities. The directors' assessment has taken into account the ability of both the company and the bp group to ensure availability of funds at least 12 months from the date of approval of these financial statements.

In assessing the prospects of BP Shipping Limited, the directors noted that such assessment is subject to a degree of uncertainty that can be expected to increase looking out over time and, accordingly, that future outcomes cannot be guaranteed or predicted with certainty.

Having a reasonable expectation that the company has adequate resources to continue in operational existence for at least the next 12 months from the date these financial statements were approved, the directors consider it appropriate to continue to adopt the going concern basis of accounting in preparing the financial statements.

Future developments

The directors aim to maintain the management policies which have resulted in the company's stability in recent years.

They believe that the company is in a good position to take advantage of any opportunities which may arise in the future.

It is the intention of the directors that the business of the company will continue for the foreseeable future.

Stakeholder statements

Statement of engagement with suppliers, customers and others in a business relationship with the company

The company's section 172(1) statement in the Strategic Report demonstrates how the directors have had regard to the need to foster business relationships with suppliers, customers and other stakeholders when making decisions on behalf of the company.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Streamlined Energy & Carbon Reporting (SECR)

As a UK subsidiary of a UK parent company which prepares a group directors' report, SECR reporting details are included in the Strategic Report of the bp group Annual Report and Form 20-F for the year ended 31 December 2024.

Corporate Governance Statement

In 2024, the bp group continued to operate under the corporate governance framework (the Framework). The Framework closely aligns with bp's purpose - reimagining energy for people and our planet - and strategy. The Framework also defines bp's role, to promote the long-term sustainable success of the company, generating value for its shareholders while having regard to its other stakeholders, the impact of its operations on the communities within which it operates and the environment.

The core of the company's governance arrangements come from bp's System of Internal Control, Global Subsidiary Corporate Governance Policy (the Policy) and Code of Conduct, and 'Who we are' beliefs, details of which are set out below.

System of Internal Control

The System of Internal Control is the holistic set of management systems, organizational structures, processes, standards and behaviours that are employed to conduct the bp group's business. These processes enable the company to achieve its objectives and purpose by ensuring that it responds appropriately to business, operational, financial and other risks and opportunities.

Further, the System of Internal Control requires the maintenance of proper records and processes that generate a flow of timely, relevant and reliable information from within and outside the organization which helps to ensure the quality of internal and external reporting. The System of Internal Control helps to ensure compliance with laws and regulations, bp's Code of Conduct and other internal policies.

The Policy

The Policy has been established by BP p.l.c. and implemented by its subsidiaries, including the company, to establish common standards in corporate governance across the group. These standards cover the role and responsibilities of the board and the directors, its processes and its relationship with executive management, shareholders and other stakeholders.

The Policy underpins the Subsidiary Governance Framework (the Framework) which embodies a comprehensive set of rules and recommendations designed to standardize and promote best practice subsidiary governance across:

i. Legal entity data management;
ii. Legal entity compliance;
iii. Legal entity lifecycle management;
iv. Directors & officers support; and
v. Board governance.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Corporate Governance Statement (continued)

The Policy (continued)

The Policy and the Framework set out the responsibilities of all directors and officers of each of the bp group's subsidiaries and the primary tasks of the board, including consideration and execution of long-term strategy, monitoring of the subsidiary's performance and ensuring that the principal risks to the subsidiary are identified and that appropriate systems of risk management and control are in place. As a result, the company has not considered it necessary to adopt a formal corporate governance code.

The Policy requires directors to:

i. Attend induction training upon appointment and are recommended to refresh their training annually;
ii. Not engage in any activity that is, or could reasonably be perceived to be, in conflict with the interests of the company and are further required to act in the best interests of the company, which may not necessarily coincide with the best interest of the bp group;
iii. Consult in advance of conflicts of duties in order to identify and implement steps to avoid or mitigate such conflicts; and
iv. Retain responsibility for the approval of financial statements.

Decision making rests with the directors of the company and delegation of specific powers or decisions is documented in writing, setting out the reasons for the scope as well as limitation of such delegation, supported by a form of bp group authority. Delegations are monitored and reviewed by the board on a regular basis.

The Code of Conduct

bp's code of conduct was relaunched in January 2023 and is based on bp's values and beliefs, and sets clear expectations for how all employees at bp should work, including directors of the company. The code is designed to be a clear set of expectations to enable all employees to make choices in a consistent way.

The code of conduct includes sections covering:

i. Our responsibility and how we speak up, including our channels for speaking up and how concerns are managed;
ii. Safety and sustainability, including operating safely and securely and delivering bp's sustainability frame;
iii. People, including diversity, equity and inclusion;
iv. Business partners, including building and maintaining strong relationships and proactively managing conflicts of interest;
v. Governments and communities, including human rights, community engagement and public communications; and
vi. Assets and financial integrity, including the need to record and maintain accurate and complete information.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Corporate Governance Statement (continued)

Application of the system of governance

The directors have applied this system of governance by:

a. Regularly reviewing board composition to ensure that it has an appropriately diverse balance of skills, backgrounds, experience and knowledge and ensuring that individual directors have sufficient capacity to make valuable contributions. The board, where appropriate, and in accordance with the Policy, retains a minimum of three directors, promotes independent and objective challenge through the appointment of directors who are not directly or indirectly responsible for the management function of the company and may nominate a designated Chair to provide leadership of the board.
b. Undertaking training on a regular basis to ensure that they have a clear understanding of their responsibilities and accountabilities. To support effective decision-making in their capacity as directors, the board considers the System of Internal Control, the bp Code of Conduct and the company's purpose and how it furthers the bp group's purpose, aims and ambitions.
c. In accordance with the Policy, the board is supported by the System of Internal Control to identify opportunities to create and preserve value. Refer to the principal risks and uncertainties in the Strategic Report.
d. Having regard to and fostering good stakeholder relationships. Refer to the company's section 172 statement in the Strategic Report for further information.

Auditors

Pursuant to section 487 of the Companies Act 2006, Deloitte LLP have expressed their willingness to continue in office as auditors and are therefore deemed reappointed as auditors.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

DIRECTORS' REPORT

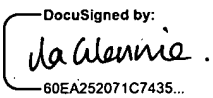

Directors' statement as to the disclosure of information to the auditor

The directors who were members of the board at the time of approving the directors' report, as listed on page 1, confirm that:

- To the best of each director's knowledge and belief, there is no information relevant to the preparation of the auditor's report of which the company's auditor is unaware; and
- Each director has taken all the steps a director might reasonably be expected to have taken to be aware of relevant audit information and to establish that the company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with section 418 of the Companies Act 2006.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE FINANCIAL STATEMENTS

BP SHIPPING LIMITED

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable UK law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law) including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the profit or loss for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable United Kingdom accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors confirm that they have complied with these requirements. Details of the directors' assessment of going concern are provided in the Directors' Report.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BP SHIPPING LIMITED

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of BP Shipping Limited (the 'company'):

- give a true and fair view of the state of the company's affairs as at 31 December 2024 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the profit and loss account;
- the statement of comprehensive income;
- the balance sheet;
- the statement of changes in equity; and
- the related notes 1 to 23.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

- An assessment of whether material uncertainties existed that could cast significant doubt on the entity's ability to continue as a going concern for least 12 months after the date of approval of the financial statements;
- An assessment of the funds that can be made available to the company through bp group treasury channels;
- An assessment of the management's identified potential mitigating actions and the appropriateness of the inclusion of these in the going concern assessment; and
- An assessment of the disclosures made within the financial statements.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

Other information
The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of directors
As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud
Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the company's industry and its control environment, and reviewed the company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management and the directors about their own identification and assessment of the risks of irregularities, including those that are specific to the company's business sector.

Extent to which the audit was considered capable of detecting irregularities, including fraud (continued)
We obtained an understanding of the legal and regulatory frameworks that the company operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included UK Companies Act and relevant tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the company's ability to operate or to avoid a material penalty.

We discussed among the audit engagement team regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

As a result of performing the above, we identified the greatest potential for fraud in the following area and our procedures performed to address it are described below:

- Occurrence, accuracy and cut-off of accrued revenue recognised for freight income due to significant increase close to balance sheet date:
  - We obtained an understanding of management process related to the recording of accruals to freight income;
  - We performed inquiries with management for the reasons of year on year movement in the accruals of the freight income; and
  - We selected a sample of accruals that were raised at year end and corroborated by tracing through to the relevant supporting documentation.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management and in-house legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance.

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006
In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

INDEPENDENT AUDITOR'S REPORT

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

1. Authorisation of financial statements and statement of compliance with Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101)

The financial statements of BP Shipping Limited for the year ended 31 December 2024 were approved by the board of directors on 18 August 2025 and the balance sheet was signed on the board's behalf by I Glennie. BP Shipping Limited is a private company, limited by shares incorporated, domiciled and registered in England and Wales (registered number 00140132) under the Companies Act 2006. The company's registered office is at Chertsey Road, Sunbury on Thames, Middlesex, TW16 7BP, United Kingdom. These financial statements were prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' (FRS 101) and the provisions of the Companies Act 2006.

2. Material accounting policy information, significant judgements, estimates and assumptions

The material accounting policy information and critical accounting judgements, estimates and assumptions of the company are set out below.

Basis of preparation

These financial statements have been prepared in accordance with FRS 101. The financial statements have been prepared under the historical cost convention. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

The accounting policies that follow have been consistently applied to all years presented, except where otherwise indicated.

The company meets the definition of a qualifying entity under FRS 100 'Application of Financial Reporting Requirements' issued by the FRC. Accordingly, these financial statements were prepared under the historical cost convention in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework and the Companies Act 2006. As permitted by FRS 101, the company has taken advantage of the disclosure exemptions available under that standard in relation to:

(a) the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134 to 136 of IAS 1 Presentation of Financial Statements;
(b) the requirement in paragraph 38 of IAS 1 Presentation of Financial Statements to present comparative information in respect of:
    (i) paragraph 73(e) of IAS 16 Property, Plant and Equipment;
    (ii) paragraph 74A(b) of IAS 16 Property, Plant and Equipment; and
    (iii) paragraph 118(e) of IAS 38 Intangible Assets.
(c) the requirements of IAS 7 Statement of Cash Flows (excluding paragraphs 1 to 44E, 44H(b)(ii) and 45 to 63 which are not applicable);
(d) the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors in relation to standards not yet effective;
(e) the requirements of paragraph 17 and 18A of IAS 24 Related Party Disclosures;
(f) the requirements of IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member;
(g) the requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d) to 134(f) and 135(c)-135(e) of IAS 36, Impairment of Assets;
(h) the requirements of IFRS 7 Financial Instruments: Disclosures;

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Basis of preparation (continued)

(i) the requirement of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers;
(j) the requirements of paragraph 52, the second sentence of paragraph 89, and paragraphs 90, 91 and 93 of IFRS 16 Leases;
(k) the requirements of paragraph 58 of IFRS 16 Leases, provided that the disclosure of details of indebtedness required by paragraph 61(1) of Schedule 1 to the Regulations is presented separately for lease liabilities and other liabilities, and in total;
(l) the requirements of paragraphs 88C and 88D of IAS 12 Income Taxes.

Where required, equivalent disclosures are given in the consolidated financial statements of BP p.l.c. The consolidated financial statements of BP p.l.c. are available to the public and can be obtained as set out in Note 23.

The financial statements are presented in US dollars and all values are rounded to the nearest thousand dollars ($000), except where otherwise indicated.

Material accounting policy information: use of judgements, estimates and assumptions

Inherent in the application of many of the accounting policies used in preparing the financial statements is the need for management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual outcomes could differ from the estimates and assumptions used.

The accounting judgements and estimates that have a significant impact on the results of the company are set out below, and should be read in conjunction with the information provided in the Notes to the financial statements.

The areas requiring the most significant judgement and estimation in the preparation of the financial statements are: the recoverability of asset carrying values and classification of lease agreements.

Material accounting policy information

Going concern

The directors consider it appropriate to adopt the going concern basis of accounting in preparing the financial statements. The current economic and geopolitical environment were considered as part of the going concern assessment.

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Material accounting policy information (continued)

Going concern (continued)

Liquidity and financing are managed within the bp group under pooled group-wide arrangements which include the company. As part of the going concern basis of preparation for the company, the ability and intent of the bp group to support the company has also been taken into consideration. The most recent bp group financial statements continue to be prepared on a going concern basis. Forecast liquidity of the bp group has been assessed under a number of stressed scenarios, including a significant decline in oil prices over the 12-month period from the date these financial statements were approved. Reverse stress tests performed indicated that the bp group will continue to operate as a going concern for at least 12 months from the date of approval of the financial statements even if the Brent price fell to zero. In addition, bp group management have confirmed the existing intra-group funding and liquidity arrangements as currently constituted are expected to continue for the foreseeable future, being no less than twelve months from the approval of these financial statements. No material uncertainties over going concern or significant judgements or estimates on the assessment were identified. Accordingly, the company will be able to draw on support from the bp group for the foreseeable future and these financial statements have therefore been prepared on a going concern basis. For further information on financial risk factors, including credit risk and liquidity risk, see page 8.

The company is in a healthy net assets and net current assets position as at 31 December 2024. The company has ongoing funding arrangements with BP International Limited to manage its working capital as well as investing activities. The directors' assessment has taken into account the ability of both the company and the bp group to ensure availability of funds at least 12 months from the date of approval of these financial statements.

In assessing the prospects of BP Shipping Limited, the directors noted that such assessment is subject to a degree of uncertainty that can be expected to increase looking out over time and, accordingly, that future outcomes cannot be guaranteed or predicted with certainty.

Having a reasonable expectation that the company has adequate resources to continue in operational existence for at least the next 12 months from the date these financial statements were approved, the directors consider it appropriate to continue to adopt the going concern basis of accounting in preparing the financial statements.

Foreign currency

The functional and presentation currency of the financial statements is US dollars. The functional currency is the currency of the primary economic environment in which the company operates and is normally the currency in which the company primarily generates and expends cash.

Transactions in foreign currencies are initially recorded in the functional currency by applying the rate of exchange ruling at the date of the transaction. Where this is not practical and exchange rates do not fluctuate materially the average rate has been used. Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot exchange on the balance sheet date. Any resulting exchange differences are included in the profit and loss account, unless hedge accounting is applied. Non-monetary assets and liabilities, other than those measured at fair value, are not retranslated subsequent to initial recognition.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Intangible assets

Intangible assets include digital assets and are stated at the amount initially recognized, less accumulated amortization and accumulated impairment losses.

Intangible assets are carried initially at cost unless acquired as part of a business combination. Any such asset is measured at fair value at the date of the business combination

Intangible assets with a finite life are amortized on a straight-line basis over their expected useful lives. Digital asset costs generally have a useful life of three to five years.

The expected useful lives of assets and the amortization method are reviewed on an annual basis and, if necessary, changes in useful lives or the amortization method are accounted for prospectively.

The carrying value of intangible assets is reviewed for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable.

Tangible assets

Tangible assets owned by the company are stated at cost, less accumulated depreciation and accumulated impairment losses. The initial cost of an asset comprises its purchase price or construction cost, any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management and, for assets that necessarily take a substantial period of time to get ready for their intended use, directly attributable finance costs. The purchase price or construction cost is the aggregate amount paid and the fair value of any other consideration given to acquire the asset.

Expenditure on major maintenance refits or repairs comprises the cost of replacement assets or parts of assets, inspection costs and overhaul costs. Where an asset or part of an asset that was separately depreciated is replaced and it is probable that future economic benefits associated with the item will flow to the company, the expenditure is capitalized and the carrying amount of the replaced asset is derecognized. Inspection costs associated with major maintenance programmes are capitalized and amortized over the period to the next inspection. Overhaul costs for major maintenance programmes, and all other maintenance costs are expensed as incurred.

Tangible assets (excluding right-of-use assets) are depreciated on a straight-line basis over their expected useful lives. The typical useful lives of the company's tangible assets are as follows:

Vessels	
Oil tankers (leasehold improvements)	up to 15 years (6.7%)
Gas carriers (leasehold improvements)	up to 15 years (6.7%)
Platform supply vessels	up to 30 years (3.3%)
Other equipment	
Furniture	up to 3 years (33.3%)
Computer equipment	up to 3 years (33.3%)

The expected useful lives and depreciation method of tangible assets are reviewed on an annual basis and, if necessary, changes in useful lives or the depreciation method are accounted for prospectively.

The carrying amounts of tangible assets are reviewed for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Tangible assets (continued)

An item of tangible assets is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the profit and loss account in the period in which the item is derecognized.

Impairment of intangible and tangible assets

The company assesses assets or groups of assets, called cash-generating units (CGUs), for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or CGU may not be recoverable, for example, changes in the company's business plans, changes in freight rates leading to sustained unprofitable performance, low vessel utilisation, evidence of physical damage or, increases in estimated future expenditure. If any such indication of impairment exists, the company makes an estimate of the asset's or CGU's recoverable amount. Individual assets are grouped into CGUs for impairment assessment purposes at the lowest level at which there are identifiable cash inflows that are largely independent of the cash inflows of other groups of assets. A CGU's recoverable amount is the higher of its fair value less costs of disposal and its value in use. If it is probable that the value of the CGU will be primarily recovered through a disposal transaction, the expected disposal proceeds are considered in determining the recoverable amount. Where the carrying amount of a CGU exceeds its recoverable amount, the CGU is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are adjusted for the risks specific to the asset group to the extent that they are not already reflected in the discount rate and are discounted to their present value typically using a pre-tax discount rate that reflects current market assessments of the time value of money.

Fair value less costs of disposal is the price that would be received to sell the asset in an orderly transaction between market participants and does not reflect the effects of factors that may be specific to the entity and not applicable to entities in general. Fair value may be determined by reference to agreed or expected sales proceeds, recent market transactions for similar assets or using discounted cash flow analyses. Where discounted cash flow analyses are used to calculate fair value less costs of disposal, estimates are made about the assumptions market participants would use when pricing the asset, CGU or group of CGUs.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's or CGU's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset or CGU is increased to the lower of its recoverable amount and the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset or CGU in prior years. Impairment reversal is recognized in profit or loss. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's or CGU's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Impairment of intangible and tangible assets (continued)

Significant judgements and estimates: recoverability of asset carrying values

Judgement is required when determining the appropriate grouping of Right-of-Use assets and owned vessels into cash-generating units (CGUs) for impairment testing purposes. Alternate groupings of assets or CGUs may result in a different outcome from impairment testing. The company has assessed the entire fleet of vessels to constitute a single CGU on the basis that cash flows are not considered to be generated independently by individual vessels, as they are managed within a wider integrated business model involving production assets, storage facilities and a range of transportation options including the BP Shipping fleet.

Determination as to whether, and how much, an asset is impaired involves management estimates on highly uncertain matters such as future freight rates, utilization, the effects of inflation on operating expenses and discount rates.

The recoverable amount of an asset is the higher of its value in use and its fair value less costs of disposal. Fair value less costs of disposal may be determined based on expected sales proceeds or similar recent market transaction data.

Details of the carrying amounts of assets are shown in Note 11.

Discount rates

For discounted cash flow calculations, future cash flows are adjusted for risks specific to the CGU. Value-in-use calculations are typically discounted using a pre-tax discount rate based upon the cost of funding the bp group derived from an established model, adjusted to a pre-tax basis and incorporating a market participant capital structure. Fair value less costs of disposal calculations use the post-tax discount rate.

The discount rates applied in impairment tests are reassessed each year. In 2024 the post-tax discount rate used was 7% and the pre-tax discount rate was 10%.

The change in discount rates is not expected to materially impact the recoverable amount of tangible assets.

Freight rates

The freight rates are uncertain and impact accounting estimates and financial results. The assumptions below represent management's best estimate of future freight rates; they do not reflect a specific scenario and sit within the range of the external forecasts considered.

The freight rate assumptions for 2025-2029 are based on forecasts published by reputable third party shipping industry experts in March 2025, consolidated and averaged for each vessel class, which are the best approximation of the facts and circumstances existing as at 31 December 2024.

Management tested the impact of a reduction in freight rates of 10% against the best estimate for all vessel classes in all future years. These freight rate reductions in isolation do not lead to a reduction in the carrying amount of tangible assets as at 31 December 2024.

These sensitivity analyses do not, however, represent management's best estimate of any impairments that might be recognized as they do not fully incorporate consequential changes that may arise, such as reductions in costs and changes to business plans. As the extent of a freight rate reduction increases, the more likely it is that costs would decrease across the industry. The above sensitivity analyses therefore do not reflect a linear relationship between freight rates and value that can be extrapolated.

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Stock

Stocks are stated at the lower of cost and net realizable value. Cost is typically determined by the first-in first-out method and comprises direct purchase costs, cost of production, transportation and manufacturing expenses. Net realizable value is based on estimated selling price less any further costs expected to be incurred to completion and disposal. Net realizable value is determined by reference to prices existing at the balance sheet date, adjusted where the sale of inventories after the reporting period gives evidence about their net realizable value at the end of the period.

Leases

The company as lessee

Agreements that convey the right to control the use of an identified asset for a period of time in exchange for consideration are accounted for as leases. The right to control is conveyed if bp has both the right to obtain substantially all of the economic benefits from, and the right to direct the use of, the identified asset throughout the period of use. An asset is identified if it is explicitly or implicitly specified by the agreement and any substitution rights held by the lessor over the asset are not considered substantive.

A lease liability is recognized on the balance sheet on the lease commencement date at the present value of future lease payments over the lease term. The discount rate applied is the rate implicit in the lease if readily determinable, otherwise an incremental borrowing rate is used. For the majority of the leases in the company, there is not sufficient information available to readily determine the rate implicit in the lease, and therefore the incremental borrowing rate is used. The incremental borrowing rate is determined based on factors such as the company's cost of borrowing, lessee legal entity credit risk, currency and lease term. The lease term is the non-cancellable period of a lease together with any periods covered by an extension option that bp is reasonably certain to exercise, or periods covered by a termination option that bp is reasonably certain not to exercise. The future lease payments included in the present value calculation are any fixed payments, payments that vary depending on an index or rate, payments due for the reasonably certain exercise of options and expected residual value guarantee payments.

Payments that vary based on factors other than an index or a rate such as usage, sales volumes or revenues are not included in the present value calculation and are recognized in the profit and loss account. The lease liability is recognized on an amortized cost basis with interest expense recognized in the profit and loss account over the lease term.

The right-of-use asset is recognized on the balance sheet as tangible assets at a value equivalent to the initial measurement of the lease liability adjusted for lease prepayments, lease incentives, initial direct costs and any restoration obligations. The right-of-use asset is depreciated typically on a straight-line basis over the lease term. The depreciation charge is recognized in the profit and loss account. Right-of-use assets are assessed for impairment in line with the accounting policy for impairment of tangible assets.

Agreements may include both lease and non-lease components. Payments for lease and non-lease components are allocated on a relative stand-alone selling price basis where the group has elected not to separate non-lease payments from the calculation of the lease liability and right-of-use asset.

If the lease term at commencement of the agreement is less than 12 months, a lease liability and right-of-use asset are not recognized, and a lease expense is recognized in the profit and loss account on a straight-line basis.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Leases (continued)

The company as lessee (continued)

If a significant event or change in circumstances, within the control of bp, arises that affects the reasonably certain lease term or there are changes to the lease payments, the present value of the lease liability is remeasured using the revised term and payments, with the right-of-use asset adjusted by an equivalent amount.

Modifications to a lease agreement beyond the original terms and conditions are accounted for as a re-measurement of the lease liability with a corresponding adjustment to the right-of-use asset. Any gain or loss on modification is recognized in the profit and loss account. Modifications that increase the scope of the lease at a price commensurate with the stand-alone selling price are accounted for as a separate new lease.

The company as lessor

The company enters into lease agreements as a lessor to other companies in the bp group with respect to certain of its vessels. Leases for which the company is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease.

Finance leases are capitalized at the commencement of the lease term at the fair value of the leased item or, if lower, at the present value of the minimum lease payments. Finance charges are allocated to each period so as to achieve a constant rate of interest on the remaining balance of the liability and are charged directly against income. Capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term. Operating lease payments are recognized as an expense on a straight-line basis over the lease term.

All other leases are classified as operating leases. As an intermediate lessor, the company accounts for the head lease and the sub-lease as two separate contracts. Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term. When a contract includes both lease and non-lease components, the company applies the accounting policy for turnover as disclosed below.

Significant judgements: Classification of lease agreements

Judgement is required when determining the appropriate accounting for sub-bareboat and time charter back agreements. For example, if these arrangements are considered in isolation, the accounting outcome may result in a recognition of gain. The company has assessed that the agreements should be viewed as a single combined transaction as they were negotiated as a single agreement and were executed in contemplation of each other.

Judgement is required when determining the appropriate accounting for sub-lease agreements. For example, the determination of whether these agreements are operating or finance lease arrangements will result in a different gain/loss recognized in equity. The company has assessed that some of the sub-lease agreements qualify as finance lease arrangements on the basis that the term of the sub-lease agreements comprises the entire useful life of the right-of-use assets and by reference to the risk and rewards of the underlying right of use asset.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Financial assets

Financial assets are recognized initially at fair value, normally being the transaction price. In the case of financial assets not measured at fair value through profit or loss, directly attributable transaction costs are also included. The subsequent measurement of financial assets depends on their classification, as set out below. The company derecognizes financial assets when the contractual rights to the cash flows expire or the rights to receive cash flows have been transferred to a third party and either substantially all of the risks and rewards of the asset have been transferred, or substantially all the risks and rewards of the asset have neither been retained nor transferred but control of the asset has been transferred.

The company classifies its financial assets as measured at amortized cost or fair value through profit or loss. The classification depends on the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

Financial assets are classified as measured at amortized cost when they are held in a business model the objective of which is to collect contractual cash flows and the contractual cash flows represent solely payments of principal and interest. Such assets are carried at amortized cost. This category of financial assets includes trade and other receivables, amounts owed from group undertakings and prepayments.

Impairment of financial assets measured at amortized cost

The company assesses on a forward-looking basis the expected credit losses associated with financial assets measured at amortized cost at each balance sheet date. Expected credit losses are measured based on the maximum contractual period over which the company is exposed to credit risk. As lifetime expected credit losses are recognized for trade receivables and the tenor of substantially all other in-scope financial assets is less than 12 months there is no significant difference between the measurement of 12-month and lifetime expected credit losses for the company. The measurement of expected credit losses is a function of the probability of default, loss given default and exposure at default. The expected credit loss is estimated as the difference between the asset's carrying amount and the present value of the future cash flows the company expects to receive, discounted at the financial asset's original effective interest rate. The carrying amount of the asset is adjusted, with the amount of the impairment gain or loss recognized in the profit and loss account.

A financial asset or group of financial assets classified as measured at amortized cost is considered to be credit-impaired if there is reasonable and supportable evidence that one or more events that have a detrimental impact on the estimated future cash flows of the financial asset (or group of financial assets) have occurred. Financial assets are written off where the company has no reasonable expectation of recovering amounts due.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Financial liabilities

Financial liabilities are recognized when the company becomes party to the contractual provisions of the instrument. The company derecognizes financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. The measurement of financial liabilities depends on their classification, as follows:

Financial liabilities measured at amortized cost
Financial liabilities are initially recognized at fair value, net of directly attributable transaction costs.

After initial recognition, these financial liabilities are subsequently measured at amortized cost. This category of financial liabilities includes trade and other payables, amounts owed to group undertakings and accruals.

Offsetting of financial assets and liabilities

Financial assets and liabilities are presented gross in the balance sheet unless both of the following criteria are met: the company currently has a legally enforceable right to set off the recognized amounts; and the company intends to either settle on a net basis or realize the asset and settle the liability simultaneously. If both of the criteria are met, the amounts are set off and presented net. A right of set off is the company's legal right to settle an amount payable to a creditor by applying against it an amount receivable from the same counterparty. The relevant legal jurisdiction and laws applicable to the relationships between the parties are considered when assessing whether a current legally enforceable right to set off exists.

Provisions and contingent liabilities

Provisions are recognized when the company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where appropriate, the future cash flow estimates are adjusted to reflect risks specific to the liability.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax risk-free rate that reflects current market assessments of the time value of money. Where discounting is used, the increase in the provision due to the passage of time is recognized in the profit and loss account. Provisions are discounted using a nominal discount rate of 4.5% (2023 4.0%).

Contingent liabilities are possible obligations whose existence will only be confirmed by future events not wholly within the control of the company, or present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability. Contingent liabilities are not recognized in the financial statements but are disclosed, if material, unless the possibility of an outflow of economic resources is considered remote.

Taxation

Income tax expense represents the sum of current tax and deferred tax.

Income tax is recognized in the profit and loss account, except to the extent that it relates to items recognized in other comprehensive income or directly in equity, in which case the related tax is recognized in other comprehensive income or directly in equity.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Taxation (continued)

Current tax is based on the taxable profit for the period. Taxable profit differs from net profit as reported in the profit and loss account because it is determined in accordance with the rules established by the applicable taxation authorities. It therefore excludes items of income or expense that are taxable or deductible in other periods as well as items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is provided, using the balance sheet method, on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences except:

- Where the deferred tax liability arises on the initial recognition of an asset or liability in a transaction that is not a business combination, at the time of the transaction, affects neither accounting profit nor taxable profit or loss and, at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.

Deferred tax assets are recognized for deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilized, except where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination, at the time of the transaction, affects neither accounting profit nor taxable profit or loss and, at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable or increased to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date. Deferred tax assets and liabilities are not discounted.

Deferred tax assets and liabilities are offset only when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the current tax assets and liabilities on a net basis or to realize the assets and settle the liabilities simultaneously.

Where tax treatments are uncertain, if it is considered probable that a taxation authority will accept the company's proposed tax treatment, income taxes are recognized consistent with the company's income tax filings. If it is not considered probable, the uncertainty is reflected within the carrying amount of the applicable tax asset or liability using either the most likely amount or an expected value, depending on which method better predicts the resolution of the uncertainty.

In July 2023, the UK government enacted legislation to implement the Pillar Two Model rules. The legislation is effective for bp from 1 January 2024 and includes an income inclusion rule and a domestic minimum tax, which together are designed to ensure a minimum effective tax rate of 15% in each country in which bp operates. In line with the amendments to IAS 12, the exception from recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes has been applied.

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Turnover

Revenue from contracts with customers is recognized when or as the company satisfies a performance obligation by transferring control of a promised good or service to a customer. Revenue is recognized when the service is performed, in accordance with the terms of the contractual arrangements and in the accounting period in which the services are rendered.

When, or as, a performance obligation is satisfied, the company recognizes as revenue the amount of the transaction price that is allocated to that performance obligation. The transaction price is the amount of consideration to which the company expects to be entitled. The transaction price is allocated to the performance obligations in the contract based on standalone selling prices of the goods or services promised.

Revenue comprises freight income, bareboat and time charter income, demurrage, services and recoveries.

Freight income is measured based on the contractual rates and the duration of the voyage, and revenue is recognised upon delivery of the service. For voyages in progress at the end of the reporting period, the company recognises income following the "load to discharge" method to measure progress towards completion of the contracted voyage, whereby freight income and related voyage expenses are recognised on a straight–line basis from the first load date of the voyage to the discharge date of the cargo.

Bareboat and time charter income is measured based on the contractual rates and durations as specified in the agreements with the charter parties.

Demurrage income is measured in accordance with the terms and conditions in the freight contracts which contain conditions regarding the amount of time available for the loading and discharging of a cargo on a vessel. Demurrage income is recognised if it is considered probable.

Revenue from services is measured based on the contractual rates and durations as specified in the agreements with the customers.

Recoveries are measured based on the contractual agreements with the customers where the company is entitled to recover costs incurred. Where the company acts as an agent on behalf of a customer to purchase bunkers and settle ancillary costs, any associated fee income is recognized but no purchase or sale is recorded.

Contract asset balances are included within amounts presented for trade receivables.

Interest income

Interest income is recognized as the interest accrues.

Finance costs

Finance costs are recognized in the profit and loss account in the period in which they are incurred.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

2. Material accounting policy information, significant judgements, estimates and assumptions (continued)

Updates to material accounting policy information

There are no new IFRS Accounting Standards or other amended standards or interpretations adopted from 1 January 2024 onwards, that have a significant impact on the financial statements.

Impact of new International Financial Reporting Standards

The following pronouncements from the IASB have not been adopted by the company in these financial statements as they will only become effective for future financial reporting periods. There are no other standards, amendments or interpretations in issue but not yet adopted that the directors anticipate will have a material effect on the reported income or net assets of the company.

Amendment to IFRS 9 Financial Instruments

Amendments to IFRS 9 Financial Instruments relating to the settlement of liabilities through electronic payment systems are effective for annual periods beginning on or after 1 January 2026 subject to endorsement by the UK Endorsement Board. The potential impact on cash and banking operations and amounts reported on adoption of the amendments is currently being assessed.

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 Presentation and Disclosure in Financial Statements will supersede IAS 1 Presentation of Financial Statements and is effective for annual periods beginning on or after 1 January 2027 subject to endorsement by the UK Endorsement Board. IFRS 18 (and consequential amendments made to IAS 7 Statement of Cash Flows, IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, IAS 33 Earnings per share and IFRS 7 Financial Instruments: Disclosures) introduces several new requirements that are expected to impact the presentation and disclosure of the company's financial statements. These new requirements include:

- Requirements to classify all income and expenses included in the statement of profit or loss into one of five categories and to present two new mandatory subtotals.
- Required disclosures about certain non-GAAP measures ('management defined performance measures') in a single note to the financial statements.
- Enhanced guidance on the aggregation of information across all the primary financial statements and the notes.

The company's evaluation of the effect of adopting IFRS 18 is ongoing.

3. Turnover

An analysis of the company's turnover is as follows:

	2024	2023
	$000	$000
Freight income	849,848	831,696
Revenue on services	55,769	58,470
Bareboat and time charter income	399,934	321,482
Demurrage	120,623	190,497
Recoveries	6,462	6,066
Turnover	1,432,636	1,408,211

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

3. Turnover (continued)

An analysis of turnover by class of business is set out below:

	2024	2023
	$000	$000
Class of business:		
Other businesses and corporate	1,432,636	1,408,211

The country of origin and destination is substantially the rest of the world.

4. Operating profit / (loss)

This is stated after charging / (crediting):

	2024	2023
	$000	$000
Operating lease payment:		
Tanker charters[a]	380,707	292,281
Net foreign exchange losses[b]	363	749
Amortisation of intangible assets	5,984	4,791
Depreciation of tangible assets	6,080	6,790
Depreciation of right-of-use assets	265,893	227,918
Cost of stock recognised as an expense	259,012	252,421
(Profit)/ loss on disposal of leased assets	(1,186)	11,882
Government grant	(110)	(120)

[a] Current period amount relates to short–term leases and service components of the operating leases agreements.
[b] Amount is included in Administrative expenses.

5. Auditor's remuneration

	2024	2023
	$000	$000
Fees for the audit of the company's financial statements	282	355

Fees paid to the company's auditor, Deloitte LLP and its associates for services other than the statutory audit of the company are not disclosed in these financial statements since the consolidated financial statements of BP Shipping Limited's ultimate parent, BP p.l.c., are required to disclose non-audit fees on a consolidated basis.

The audit fees were borne by another group company.

6. Interest receivable and similar income

	2024	2023
	$000	$000
Interest income from amounts owed from group undertakings	76,282	62,426
Income earned on finance lease receivable	22,323	26,077
Total interest receivable and similar income	98,605	88,503

7. Interest payable and similar expenses

	2024	2023
	$000	$000
Interest expense on lease liabilities	33,492	35,527
Guarantee fees paid to group undertakings	11,860	14,942
Total interest payable and similar expenses	45,352	50,469

8. Taxation

The company is a member of a group for the purposes of relief within Part 5, Corporation Tax Act 2010.

In May 2023, the IASB issued International Tax Reform – Pillar Two Model Rules - Amendments to IAS 12 Income Taxes to clarify the application of IAS 12 to tax legislation enacted or substantively enacted to implement Pillar Two of the Organisation for Economic Co-operation and Development's Base Erosion and Profit Shifting project, which aims to address the tax challenges arising from the digitalisation of the economy. The amendments include a mandatory temporary exception from accounting for deferred tax on such tax law. In July 2023, the UK government enacted legislation to implement the Pillar Two rules. The legislation is effective for the company from 1 January 2024 and includes an income inclusion rule and a domestic minimum tax. The Pillar Two rules apply at a country level across legal entities in the same group. The rules also include a transitional safe harbour (TCSH) based on Country-by-Country reporting which is applicable for the first three years of the Pillar Two rules. The TCSH provides for three tests which simplify the application of the Pillar Two rules, and where at least one of these tests is met, the top-up tax is deemed to be zero. No provision has been made for Pillar Two current tax for the company for the year ended 31 December 2024 as the company is expected to qualify for the TCSH. In line with the amendments to IAS 12, the exception from accounting for deferred tax for the Pillar Two rules has been applied.

The company has no current or deferred tax charge or credit in the profit and loss account for the year.

(a) Reconciliation of the effective tax rate

The tax assessed on the profit for the year is lower than the standard rate of corporation tax in the UK of 25.0% for the year ended 31 December 2024 (2023 23.5%). The differences are reconciled below:

	2024	2023
	$000	$000
Profit before taxation	189,872	250,339
Tax charge	—	—
Effective tax rate	—	—

	2024	2023
	%	%
UK statutory corporation tax rate:	25.0	23.5
Decrease resulting from:		
Non-deductible expenditure	—	0.1
Non-taxable income	(0.4)	(0.2)
Free group relief	(26.3)	(24.6)
Movements in unrecognised deferred tax	1.7	1.2
Effective tax rate	—	—

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

8. Taxation (continued)

Change in corporation tax rate

The UK corporation tax rate is 25%, effective from 1 April 2023, which applies for the year ended 31 December 2024. The company has not recognized a deferred tax asset at the balance sheet date.

(b) Provision for deferred tax

Deferred tax has not been recognised on deductible temporary differences relating to fixed assets of $135,099,000 (2023 $140,205,000) with no fixed expiry date on the basis that they are UK tax attributes that are not expected to give rise to any future tax benefit.

9. Directors and employees

(a) Remuneration of directors

A number of directors are senior executives of the bp group and received no remuneration for qualifying services to this company.

The following details relate to the directors who received remuneration for their qualifying services to the company and so are in scope for this disclosure.

The total remuneration for these qualifying directors for their period of directorship to the company amounted to $556,000 (2023 $658,000). Included within the total remuneration is $18,000 in respect of company contributions to money purchase pension schemes (2023 $16,000). These qualifying directors also received $102,000 in respect of amounts receivable under long-term incentive schemes (other than shares and share options) (2023 $144,000). These costs were borne by other undertakings within the group.

None of the qualifying directors received a compensation for loss of office (2023 None).

Of these qualifying directors, the highest paid director received $556,000 (2023 $658,000). The accrued pension of the highest paid director at 31 December 2024 was $2,000 (2023 $2,000). The highest paid director received a contributions to a money purchase pension scheme during the year for $18,000 (2023 $16,000). The highest paid director had awards receivable in the form of BP p.l.c. shares under a long-term incentive scheme (2023 One).

One of these qualifying directors were members of the defined benefit section of the bp Pension Fund at 31 December 2024 (2023 One).

One of these qualifying directors received a contribution to a money purchase pension scheme during the year (2023 One).

None of the qualifying directors exercised share options over BP p.l.c. shares during the year (2023 One).

One of the qualifying directors had awards receivable in the form of BP p.l.c. shares under a long-term incentive scheme (2023 One).

(b) Employee costs

The company had no employees during the year (2023 None).

[a] AUC = assets under construction. Assets under construction are not depreciated.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

12. Stocks

	2024	2023
	$000	$000
Raw materials and consumables	23,809	32,149

The difference between the carrying value of stocks and their replacement cost is not material.

13. Debtors

Amounts falling due within one year:

	2024	2023
	$000	$000
Trade debtors	100,834	139,414
Amounts owed from group undertakings	1,685,139	1,458,262
Other debtors	17,722	8,992
Prepayments	815	97
Finance lease receivable	97,752	94,285
Accrued income	18,001	21,595
	1,920,263	1,722,645

Amounts falling due after one year:

	2024	2023
	$000	$000
Other debtors	41,459	41,459
Finance lease receivable	420,167	517,919
	461,626	559,378
Total debtors	2,381,889	2,282,023

Included in the amounts owed from group undertakings is an Internal Funding Account (IFA) of $1,597,574,000 receivable from BP International Limited (2023 $1,311,564,000).

This balance forms a key part of the bp group's liquidity and funding arrangements under its centralized treasury funding model and it can be accessed by BP International Limited at short notice. Whilst IFA balances are legally repayable on demand, in practice they have no termination date.

Interest is accrued on a monthly basis based on overnight SOFR plus 4 basis points.

Included in the amounts owed from group undertakings and accrued income is $48,676,000 (2023 $69,572,000) accrued for voyages in progress.

Trade and other receivables are predominantly non-interest bearing.

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

14. Creditors

Amounts falling due within one year:

	2024	2023
	$000	$000
Trade creditors	16,131	22,406
Amounts owed to group undertakings	19,602	7,925
Accruals and deferred income	9,520	22,509
	45,253	52,840

Amounts falling due after one year:

	2024	2023
	$000	$000
Accruals and deferred income	—	110
Total creditors	45,253	52,950

Materially all of the company's trade payables have payment terms of less than 60 days and give rise to operating cash flows.

Amount owed to group undertakings are pre-dominantly non-interest bearing and have repayment terms in the range of 30 to 60 days.

15. Obligations under leases

Obligations under leases are analysed as follows:

Within 5 years

	2024	2023
	$000	$000
Due within		
1 year	265,557	288,825
1 to 2 years	178,642	182,914
2 to 5 years	223,576	306,991
	667,775	778,730

After 5 years

	2024	2023
	$000	$000
Not wholly repayable	58,628	94,695
	58,628	94,695

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

16. Leases

The company leases a number of assets as part of its activities. Time charter leases are negotiated for an average term of 52 months (2023 45 months). Bareboat leases are negotiated for an average term of 10 years (2023 10 years), some at variable rates based on market interest rates. In certain bareboat leases, the company has option to purchase the assets or guarantees the residual value of the leased assets at the end of the contract term. Bareboat leases are also guaranteed by other bp group companies.

The company initially estimates and recognises amounts expected to be payable under residual value guarantees as part of the lease liability. The amounts are reviewed, and adjusted if appropriate, at the end of each reporting period. As at 31 December 2024, there are no amounts expected to be payable under residual value guarantees as part of the lease liability.

Certain leases contain options to extend the lease period at the company's discretion. The payments for these future periods are only included in the measurement of the lease liability and right-of-use asset if the company is reasonably certain to exercise the option. The total undiscounted amounts payable for periods subject to extension options not currently reasonably certain to be exercised and therefore not in the reported lease liability at 31 December 2024 is $283 million (2023 $137 million). The leases do not contain options to terminate the lease period at the company's discretion.

The company may enter into lease arrangements a number of years before taking control of the underlying asset due to construction lead times or to secure future operational requirements. The total undiscounted amount for future commitments for leases not yet commenced as at 31 December 2024 is $Nil.

	2024	2023
	$000	$000
Income from sub-leasing right-of-use assets	20,308	44,722
Short-term lease expense[a]	20,119	43,852
Additions to right-of-use assets in the period	202,059	182,588
Total cash outflow for amounts included in lease liabilities[b]	382,573	372,295

[a]A short-term lease is a lease that, at the commencement date, has a lease term of 12 months or less.

[b] The cash outflows for amounts not included in lease liabilities approximate the profit and loss expenses disclosed above.

An analysis of right-of-use assets and depreciation is provided in Note 11. An analysis of lease interest expense is provided in Note 7.

16. Leases (continued)

Operating lease arrangements as a lessor

Operating leases, in which the company is the lessor, relate to two platform supply vessel ("PSV") with lease terms of 7 years.

Operating lease payments receivable, included within debtors, are analysed as follows:

	2024	2023
	$000	$000
Year 1	12,757	12,792
Year 2	12,757	12,757
Year 3	12,757	12,757
Year 4	12,792	12,757
Year 5	2,447	12,792
Year 6 and onwards	—	2,447
Total	53,510	66.302

Finance lease arrangements as a lessor

BP Shipping Limited subleases six leased LNG vessels to bp group entities with lease term of between 9 to 13 years.

Finance lease payments receivable, included within debtors, are analysed as follows:

	2024	2023
	$000	$000
Year 1	116,289	116,608
Year 2	116,289	116,289
Year 3	116,289	116,289
Year 4	101,474	116,289
Year 5	48,109	101,474
Year 6 and onwards	76,092	124,201
Total undiscounted lease payments receivable	574,542	691,150
Unearned finance income	(56,623)	(78,946)
Finance lease receivable	517,919	612,204

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

17. Provisions

	Litigations and claims
	$000
At 1 January 2024	547
New or increased provisions:	
Charged to profit and loss account	1,794
Write-back of unused provisions	(1,801)
Utilization	(60)
At 31 December 2024	480
At 31 December 2024	
Current	480
At 31 December 2023	
Current	547

For information on the nature, significant judgements and estimates made in relation to provisions, see Provisions within Note 2.

18. Called up share capital

	2024	2023
	$000	$000
Issued and fully paid:		
1,276,000,000 ordinary shares of £1 each for a total nominal value of £1,276,000,000	2,030,469	2,030,469
740,000,000 ordinary shares of $1 each for a total nominal value of $740,000,000	740,000	740,000
	2,770,469	2,770,469

19. Reserves

Called up share capital
The balance on the called up share capital account represents the aggregate nominal value of all ordinary shares in issue.

Profit and loss account
The balance held on this reserve is the accumulated losses of the company.

20. Other contractual commitments

Other contractual commitments relate to the committed service components of the lease agreements as at 31 December 2024. These commitments fall due as follows:

	2024	2023
	$000	$000
Within 1 year	88,993	90,592
In 2 to 5 years	52,656	69,025
	141,649	159,617

Docusign Envelope ID: AB7A3464-D4EA-406A-8FC8-E6864B25E317

21. Related party transactions

The company has taken advantage of the exemption contained within paragraphs 8(k) and (j) of FRS 101, and has not disclosed transactions entered into with wholly-owned group companies or key management personnel.

During the year the company entered into transactions, in the ordinary course of business, with other related parties. Transactions entered into, and trading balances outstanding at 31 December, are as follows:

Related party	Sales to related party
	$000
BP Southern Africa (Proprietary) Limited	
Shipping	
2024	208
2023	1,330

22. Post balance sheet event

In June 2025, the directors approved plans relating to the continuation and restructuring of bareboat charter arrangements for six Mariner Class vessels.

23. Immediate and ultimate controlling parent undertaking

The immediate parent undertaking is BP International Limited, a company registered in England and Wales. The ultimate controlling parent undertaking is BP p.l.c., a company registered in England and Wales, which is the smallest and largest group to consolidate these financial statements. Copies of the consolidated financial statements of BP p.l.c. can be obtained from its registered address: 1 St James's Square, London, SW1Y 4PD, United Kingdom.
