^a Comprises BP Europa SE as well as major domestic and international subsidiaries; summarised for a complete presentation of the business activities.

^b Tangible and intangible assets; reporting on the basis of the BP Europa SE Group.

^c Figures determined in accordance with GPD ("Global People Data").

^d The dissolution of the ROG joint venture affects the processing figures as of January 1, 2017.

^e RI, recordable injuries, number of work-related accidents either requiring medical treatment or causing an absence from work of at least one working day, as well as work-related fatalities.

^f DAFWC, days away from work cases, number of work-related accidents with an absence from work of at least one working day.

^g Greater than 1 barrel (=159 litres).

^h Almost exclusively carbon dioxide; the emission figures in 2016 related to the refinery in Lingen and 50 % of the refinery Gelsenkirchen.

Due to the ROG JV dissolution and the corresponding increase in the share in ROG to 100% respective share in emission figures increased in 2017.
