Keeping the world’s energy moving
We believe in relationships with long-term value. That’s why we put a lot of energy into our partnerships. These relationships are built on trust, openness and respect.

Being a world leader in energy supply and trading, we have the visibility to manage producer risks both physically and financially. We balance this with our own asset base of refineries and extensive consumer markets, creating partnerships across the marketplace.

Keeping the world’s energy moving

Flexibility is at the heart of what we offer. Our broad range of standard physical and financial products form the basis of creating a “bespoke solution” that meets your specific needs.

We offer a range of integrated services to meet the needs of oil and gas producers through production offtake, hedging price risk and capital raising. BP’s global reach can offer access to a wider market for disposal of production volumes, offering potential to leverage greater market values for products.

**Our producer offer**

**Crude oil offtake and marketing**
- Crude oil purchase or marketing
- Management of lifting programs from upstream assets

**Optimizing logistics**
- Leveraging of asset logistics to provide the maximum value given market conditions

**Co-load and blending**
- Opportunities may exist for co-loading or blending with our own productions
- Management of quality or operational constraints

**Capital structuring solutions**
- Production secured finance, provision of finance against the sale of future production through a BP offtake contract e.g. prepayment
- Reserve secured finance, provision of finance against a field or license area reserve base

**Independent risk management services**
- From swaps, floors and collars to more structured and tailored derivative products

**Financial gas and power products**
- Vanilla financial gas swaps

**Physical indexation products**
- European gas hubs indices
- Crude and products based formulas
- Indices and combination formulas

**In addition to our physical trading and asset optimization capabilities, we may be able to offer financing solutions. We provide innovative energy and financial risk management products, helping to de-risk and hedge exposure whether in the physical molecule or as a standalone derivative.**

These services are provided via Britannic Trading Limited (BTL) and Britannic Energy Trading (BET) these regulated entities that are authorised and regulated by the UK Financial Conduct Authority (FCA).
