The directors present the strategic report, their report and the audited financial statements for the year ended 31 December 2019.

**STRATEGIC REPORT**

**Results**

The profit for the year after taxation was AED 13,462,000 which, when added to the retained profit brought forward at 1 January 2019 of AED 140,566,000, gives a total retained profit carried forward at 31 December 2019 of AED 154,028,000.

**Principal activity and review of the business**

The company is primarily engaged in marketing aviation fuels to customers through its associated undertaking at Bahrain International Airport. It also provides technical consultancy services on storage, handling and delivering aviation fuel and provides services to other group undertakings within the BP Group.

The key financial and other performance indicators during the year were as follows:

<table>

</tr>
</tbody>
</table>

*Return on average capital employed is defined as profit for the year after adding back interest, divided by average capital employed. Capital employed is defined as total equity plus gross debt, excluding goodwill and cash.

The decrease in turnover was attributable to lower average oil prices per gallon as compared to prior year (2019 $1.79/usg; 2018 $1.98/usg). Gross profit remained stable as both turnover and cost of sales are largely based on Platts pricing which is reflective of the overall lower oil prices. Profit for the year decreased primarily due to the lower interest income received (2019 AED 4,482,000; 2018 AED 15,033,000) on internal funding account balances which has reduced by AED 658,520,000 primarily due to settlement made with BP Middle East LLC (BPME LLC). During the year, the company also incurred a loss on disposal of fixed assets of AED 609,000 on the sale of hydrant asset.
The Bahrain Aviation Fuelling Company (BAFCO) is a joint venture company formed in 1985 to provide into-plane fuelling (ITP) services at Bahrain International Airport (BIA), including the storage and transport of aviation fuel from the refinery. BAFCO manages this service on behalf of its three shareholders: The Oil Gas Holding Company B.S.C. (60%), Chevron Asia Pacific Holding Ltd (27%) and BPME LLC (13%). The ITP joint venture concession with BAFCO was renewed in April 2017 for a further 4 years, up to April 2021 with a further 3 plus 3 years renewal guaranteed. This is important as the company's marketing license is capped to equity share in BAFCO joint venture. There is a new tank farm being constructed by the airport which is estimated to be completed by the end of 2020. BAFCO has been awarded a contract for operation and maintenance of the tank farm for 2 years and the existing Arad depot will be shut down by the end of 2020. Another fourth marketer and ITP company will be allowed to enter which would impact the company's performance from 2021 onwards.

Section 172 (1) statement

In governing the company on behalf of its shareholders and discharging their duties under section 172, the board has had regard to the factors set out in section 172 (see below) and other factors which the board considers appropriate.

Matters identified that may affect the company’s performance in the long term are set out in the principal risks disclosed in the strategic report below.

The company has engaged with key stakeholders and the outcome from such engagement has been considered by the directors during the decision making process where appropriate. Refer to the directors report on stakeholder engagement.

Section 172 factors

Section 172 requires directors to have regard to the following in performing their duties, and as part of the process are required to consider, where relevant:

a. The likely long-term consequences of the decision.
b. The interests of the company’s employees.
c. The need to foster the company’s business relationships with suppliers, customers and others.
d. The impact of the company’s operations on the community and the environment.
e. The desire to maintain the company’s reputation for high standards of business conduct.
f. The need to act fairly between members of the company.

To support the directors in the discharge of their duties, and whilst making a decision on behalf of the company, the directors have access to functional assurance support to identify matters which may have an impact on the proposed decision including, where relevant, section 172 factors as outlined above.

During the year the directors continued to monitor progress against the company’s strategy, as highlighted in the principal activities section of the strategic report of the company, and decisions made by the directors were in respect of operational matters, in furtherance of the BP group's purpose.

Principal risks and uncertainties

The company aims to deliver sustainable value by identifying and responding successfully to risks. Risk management is integrated into the process of planning and performance management for the BP group.

The risks listed below, separately or in combination, could have a material adverse effect on the implementation of the company’s strategy, business, financial performance, results of operations, cash flows, liquidity, prospects, shareholder value and returns and reputation. Unless stated otherwise, further details on these risks are included within the risk factors in the strategic report of the BP group Annual Report and Form 20-F for the year ended 31 December 2019.
STRATEGIC REPORT

Strategic and commercial risks

Prices and markets
The company’s financial performance is subject to fluctuating prices of oil, gas, refined products, technological change, exchange rate fluctuations and the general macroeconomic outlook. Political developments, increased supply of oil and gas or low carbon energy sources, technological change, global economic conditions, public health situations and the influence of OPEC can impact supply and demand and prices for our products.

Geopolitical
The company is exposed to a range of political developments and consequent changes to the operating and regulatory environment may disrupt or curtail the company's operations or development activities. These may in turn cause production to decline, limit the company's ability to pursue new opportunities, affect the recoverability of our assets or cause us to incur additional costs. Political developments may include international sanctions, expropriation or nationalization of property, civil strife, strikes, insurrections, acts of terrorism or war and public health situations (including an outbreak of an epidemic or pandemic).

The impact of the UK's exit from the EU
BP have been assessing the potential impact on the group of Brexit and the UK’s future global relationships. BP have been considering different outcomes but do not believe any of these outcomes pose a significant risk to the business. The BP board’s geopolitical committee continues to monitor these developments.

Liquidity, financial capacity and financial, including credit, exposure
Failure to work within the financial framework set by the BP group could impact the company’s ability to operate and result in financial loss.

Joint arrangements and contractors
The company may have varying levels of control over the standards, operations and compliance of its partners, contractors and sub-contractors which could result in legal liability and reputational damage.

Climate change and the transition to a lower carbon economy
Policy, legal, regulatory, technology and market developments related to the issue of climate change could increase costs, reduce demand for our products, reduce revenue and limit certain growth opportunities.

Insurance
The BP group’s insurance strategy could expose the BP group to material uninsured losses which in turn could adversely affect the company.

Safety and operational risks

Process safety, personal safety and environmental risks
The company is exposed to a wide range of health, safety, security and environmental risks that could cause harm to people, the environment, the company’s assets and result in regulatory action, legal liability, business interruption, increased costs, damage to its reputation and potentially denial of its licence to operate.

Product quality
Supplying customers with off-specification products could damage the company’s reputation, lead to regulatory action and legal liability, and potentially impact its financial performance.

Compliance and control risks

Ethical misconduct and non-compliance
Ethical misconduct or breaches of applicable laws by the company’s businesses or its employees could be damaging to its reputation, and could result in litigation, regulatory action and penalties.

Regulation
Changes in the regulatory and legislative environment could increase the cost of compliance and limit the company's access to new growth opportunities.
Compliance and control risks (continued)

Reporting
Failure to accurately report the company’s data could lead to regulatory action, legal liability and reputational damage.

Financial risk management

The company is exposed to a number of different financial risks arising from natural business exposures as well as its use of financial instruments including market risks relating to commodity prices, foreign currency exchange rates and interest rates; credit risk; and liquidity risk. Further details on these financial risks are included within Note 29 of the BP group Annual Report and Form 20-F for the year ended 31 December 2019.

</tbody>
</table>

Directors' indemnity

The company indemnifies the directors in its Articles of Association to the extent allowed under section 232 of the Companies Act 2006. Such qualifying third party indemnity provisions for the benefit of the company’s directors remain in force at the date of this report.

Dividends

The company has not declared any dividends during the year (2018 AED Nil). The directors do not propose the payment of a dividend.

Financial instruments

In accordance with section 414C of the Companies Act 2006 the directors have included information regarding financial instruments as required by Schedule 7 (Part 1.6) of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 in the strategic report under Financial risk management.

Post balance sheet event

Since 31 December 2019, oil and gas prices have fallen sharply in large part due to the impact of the international spread of COVID-19 (Coronavirus) and geopolitical factors. The impact of COVID-19 and the current economic environment on the basis of preparation of these financial statements has been considered. The directors continue to consider it appropriate to adopt the going concern basis of accounting in preparing the financial statements. Further details are provided under Going Concern below. This is a non-adjusting event for the financial statements for the period ending 31 December 2019.

Going concern

The directors have assessed the prospects of the company over a period of at least 12 months. The directors have considered expectations of the position and performance of the company over this period, taking account of its short-term and longer-range plans. Taking into account the company’s current position and its principal risks on pages 2–4, the directors have a reasonable expectation that the company will be able to continue in operation and meet its liabilities as they fall due at least the next 12 months.

Since 31 December 2019, the oil price has fallen sharply in large part due to the impact of the international spread of COVID-19 (Coronavirus) and geopolitical factors. The impact of COVID-19 and the current economic environment on the basis of preparation of these financial statements has been considered.
Going concern (continued)

The company is engaged in marketing aviation fuels to customers through its associated undertaking at Bahrain International Airport. It also provides technical consultancy services on storage, handling and delivering aviation fuel and provides services to other group undertakings within the BP Group. Based on the annual forecast, the company expects sales volume at Bahrain International Airport to be lower throughout 2020 and be back at pre-COVID-19 levels by 2022. Whilst it is expected that there will be a near-term reduction in activity levels, the company has ongoing funding arrangements with BP International Limited to manage its working capital. The directors’ assessment has taken into account the ability of both the company and BP group to ensure availability of funds at least twelve months from date of approval of these financial statements.

Liquidity and financing is managed within BP under pooled group-wide arrangements which include the company. As part of assuring the going concern basis of preparation for the company, the ability and intent of the BP group to support the company has been taken into consideration. The BP group financial statements continue to be prepared on a going concern basis. Forecast liquidity extending at least twelve months from the date of approval of these financial statements has been assessed at a group level under a number of scenarios and a reverse stress test performed to support the group’s going concern assertion. In addition, group management of BP have confirmed that the existing intra-group funding and liquidity arrangements as currently constituted are expected to continue for the foreseeable future, being no less than twelve months from the approval of these financial statements.

In assessing the prospects of BP Middle East Limited, the directors noted that such assessment is subject to a degree of uncertainty that can be expected to increase looking out over time and, accordingly, that future outcomes cannot be guaranteed or predicted with certainty.

Having a reasonable expectation that the company has adequate resources to continue in operational existence for at least the next 12 months from the date these financial statements were approved, the directors consider it appropriate to continue to adopt the going concern basis of accounting in preparing the financial statements.

Future developments

The directors aim to maintain the management policies which have resulted in the company’s stability in recent years. They believe that the company is in a good position to take advantage of any opportunities which may arise in the future.

It is the intention of the directors that the business of the company will continue for the foreseeable future.

Stakeholder statement

Engagement with other stakeholders

The company aims to build enduring relationships with governments, customers, partners, suppliers and communities in the countries where it operates. The company works with its business partners in an honest, respectful and responsible way and seeks to work with others who share the company’s commitments to safety and ethics and compliance.

The company’s activities affect a wide variety of individuals and organizations. The company engages with these stakeholders and listens to their differing needs and priorities as an everyday part of its business and uses the input and feedback to inform its decision making process.

On behalf of the company, the BP group participates in industry associations that offer opportunities to share good practices and collaborate on issues of importance. Additionally, the BP group works with governments on a range of issues that are relevant to its business, from regulatory compliance, to understanding tax liabilities, to collaborating on community initiatives.
Stakeholder statement (continued)

Engagement with other stakeholders (continued)

During the year the directors continued with the implementation of the company’s strategy, as highlighted in the strategic report in respect of the principal activities of the company, and decisions made by the directors were in respect of operational matters, in furtherance of the BP group purpose.

Directors’ statement as to the disclosure of information to the auditor

The directors who were members of the board at the time of approving the directors’ report are listed on page 1. Having made enquiries of fellow directors and of the company’s auditor, each of these directors confirms that:

• To the best of each director’s knowledge and belief, there is no information relevant to the preparation of the auditor’s report of which the company’s auditor is unaware; and

• Each director has taken all the steps a director might reasonably be expected to have taken to be aware of relevant audit information and to establish that the company’s auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with s418 of the Companies Act 2006.

STATEMENT OF DIRECTORS’ RESPONSIBILITIES IN RESPECT
OF THE FINANCIAL STATEMENTS

BP MIDDLE EAST LIMITED

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable UK law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law) including Financial Reporting Standard 101 ‘Reduced Disclosure Framework’. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the profit or loss for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable United Kingdom accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company’s transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors confirm that they have complied with these requirements. Details of the directors' assessment of going concern are provided in the directors' report.
INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BP MIDDLE EAST LIMITED

Report on the audit of the financial statements

Opinion
In our opinion the financial statements of BP Middle East Limited (the company):

• give a true and fair view of the state of the company’s affairs as at 31 December 2019 and of its profit for the year then ended;
• have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 “Reduced Disclosure Framework”; and
• have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

• the profit and loss account;
• the statement of comprehensive income;
• the balance sheet;
• the statement of changes in equity; and
• the related notes 1 to 19.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 “Reduced Disclosure Framework” (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion
We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor’s responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council’s (the ‘FRC’s’) Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern
We are required by ISAs (UK) to report in respect of the following matters where:

• the directors’ use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
• the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company’s ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorized for issue.

We have nothing to report in respect of these matters.

Other information
The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor’s report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.
Responsibilities of directors
As explained more fully in the statement of directors’ responsibilities, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor’s responsibilities for the audit of the financial statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC’s website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor’s report.

Report on other legal and regulatory requirements
Opinions on other matters prescribed by the Companies Act 2006
In our opinion, based on the work undertaken in the course of the audit:
• the information given in the strategic report and the directors’ report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
• the strategic report and the directors’ report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors’ report.

Matters on which we are required to report by exception
Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:
• adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
• the financial statements are not in agreement with the accounting records and returns; or
• certain disclosures of directors’ remuneration specified by law are not made; or
• we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Use of our report
This report is made solely to the company’s members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company’s members those matters we are required to state to them in an auditor’s report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company’s members as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2019

BP MIDDLE EAST LIMITED

The financial statements of BP Middle East Limited for the year ended 31 December 2019 were approved by the board of directors on 22 September 2020 and the balance sheet was signed on the board’s behalf by N J C Evans. BP Middle East Limited is a private company, limited by shares incorporated, domiciled and registered in England and Wales (registered number 00591214). The company's registered office is at Chertsey Road, Sunbury on Thames, Middlesex, TW16 7BP. These financial statements were prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' (FRS 101) and the provisions of the Companies Act 2006.

2. Significant accounting policies, judgements, estimates and assumptions

The significant accounting policies and critical accounting judgements, estimates and assumptions of the company are set out below:

Basis of preparation

These financial statements have been prepared in accordance with FRS 101. The financial statements have been prepared under the historical cost convention. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

The accounting policies that follow have been consistently applied to all years presented, except where otherwise indicated.

As permitted by FRS 101, the company has taken advantage of the disclosure exemptions available under that standard in relation to:

(a) the requirements of IFRS 7 Financial Instruments: Disclosures
(b) the requirements of paragraphs 91 – 99 of IFRS 13 Fair Value Measurement
(c) the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134 to 136 of IAS 1 Presentation of Financial Statements
(d) the requirement in paragraph 38 of IAS 1 Presentation of Financial Statements to present comparative information in respect of
   (i) paragraph 79(a)(iv) of IAS 1
   (ii) paragraph 73(c) of IAS 16 Property, Plant and Equipment
(e) the requirements of IAS 7 Statement of Cash Flows
(f) the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors in relation to standards not yet effective
(g) the requirements of paragraph 17 and 18A of IAS 24 Related Party Disclosures
(h) the requirements of IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member
(i) the requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d) to 134(f) and 135(c)-135(e) of IAS 36, Impairment of Assets
(j) the requirement of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers

Where required, equivalent disclosures are given in the group financial statements of BP p.l.c. The group financial statements of BP p.l.c. are available to the public and can be obtained as set out in Note 19.
2. Significant accounting policies, judgements, estimates and assumptions (continued)

Basis of preparation (continued)

The financial statements are presented in Emirati Dirham and all values are rounded to the nearest thousand Emirati Dirham (AED000), except where otherwise indicated.

Significant accounting policies: use of judgements, estimates and assumptions

Inherent in the application of many of the accounting policies used in preparing the financial statements is the need for management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual outcomes could differ from the estimates and assumptions used. The accounting judgements and estimates that have a significant impact on the results of the company are set out within the boxed text below, and should be read in conjunction with the information provided in the Notes to the financial statements.

Significant accounting policies

Going concern

The directors have a reasonable expectation that the company has adequate resources to continue in operational existence for at least the next 12 months from the date these financial statements were approved and the financial statements have therefore been prepared under the going concern basis.

For further detail on the directors' going concern assessment, please refer to the directors' report.

Foreign currency

The functional and presentation currency of the financial statements is Emirati Dirham. The functional currency is the currency of the primary economic environment in which an entity operates and is normally the currency in which the entity primarily generates and expends cash.

Transactions in foreign currencies are initially recorded in the functional currency by applying the rate of exchange ruling at the date of the transaction. Where this is not practical and exchange rates do not fluctuate materially the average rate has been used. Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot exchange on the balance sheet date. Any resulting exchange differences are included in the profit and loss account, unless hedge accounting is applied. Non-monetary assets and liabilities, other than those measured at fair value, are not retranslated subsequent to initial recognition.

Investments

Fixed asset investments in associates are held at cost. The company assesses investments for an impairment indicator annually. If any such indication of possible impairment exists, the company makes an estimate of the investment’s recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount.

Where these circumstances have reversed, the impairment previously made is reversed to the extent of the original cost of the investment.

Interests in associates

An associate is an entity over which the company has significant influence, through the power to participate in the financial and operating policy decisions of the investee, but which is not a subsidiary or a joint arrangement.
2. Significant accounting policies, judgements, estimates and assumptions (continued)

Tangible assets

Tangible assets owned by the company are stated at cost, less accumulated depreciation and accumulated impairment losses. The initial cost of an asset comprises its purchase price or construction cost, any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management and, for assets that necessarily take a substantial period of time to get ready for their intended use, directly-attributable finance costs. The purchase price or construction cost is the aggregate amount paid and the fair value of any other consideration given to acquire the asset.

Expenditure on major maintenance refits or repairs comprises the cost of replacement assets or parts of assets, inspection costs and overhaul costs. Where an asset or part of an asset that was separately depreciated is replaced and it is probable that future economic benefits associated with the item will flow to the company, the expenditure is capitalized and the carrying amount of the replaced asset is derecognized. Inspection costs associated with major maintenance programmes are capitalized and amortized over the period to the next inspection. Overhaul costs for major maintenance programmes, and all other maintenance costs are expensed as incurred.

Tangible assets are depreciated on a straight-line basis over their expected useful lives. The typical useful lives of the company’s tangible assets are as follows:
- Land & buildings: 10 to 20 years
- Plant & machinery: 4 to 40 years

The expected useful lives and depreciation method of tangible assets are reviewed on an annual basis and, if necessary, changes in useful lives or the depreciation method are accounted for prospectively.

The carrying amounts of tangible assets are reviewed for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable.

An item of tangible assets is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the profit and loss account in the period in which the item is derecognized.

Impairment of tangible assets

The company assesses assets or groups of assets, called cash-generating units (CGUs) for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable, for example, changes in the company’s business plans, changes in commodity prices, low plant utilization, evidence of physical damage or, for oil and gas assets, significant downward revisions of estimated reserves or increases in estimated future development expenditure or decommissioning costs. If any such indication of impairment exists, the company makes an estimate of the asset’s recoverable amount. Individual assets are grouped for impairment assessment purposes at the lowest level at which there are identifiable cash flows that are largely independent of the cash flows of other groups of assets. An asset group’s recoverable amount is the higher of its fair value less costs to sell and its value in use. If it is probable that the value of the CGU will primarily be recovered through a disposal transaction, the expected disposal proceeds are considered in determining the recoverable amount. Where the carrying amount of an asset group exceeds its recoverable amount, the asset group is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are adjusted for the risks specific to the asset group that are not reflected in the discount rate and are discounted to their present value typically using a pre-tax discount rate that reflects current market assessments of the time value of money. Fair value less costs to sell is identified as the price that would be received to sell the asset in an orderly transaction between market participants and does not reflect the effects of factors that may be specific to the entity and not applicable to entities in general.
2. Significant accounting policies, judgements, estimates and assumptions (continued)

Impairment of tangible assets (continued)

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset’s recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss. After such a reversal, the depreciation charge is adjusted in future years to allocate the asset’s revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Stock

Stocks are stated at the lower of cost and net realizable value. Cost is determined by the first-in first-out method and comprises direct purchase costs, cost of production, transportation and manufacturing expenses. Net realizable value is based on estimated selling price less any further costs expected to be incurred to completion and disposal. Net realizable value is determined by reference to prices existing at the balance sheet date, adjusted where the sale of inventories after the reporting period gives evidence about their net realizable value at the end of the period.

Financial assets

Financial assets are recognized initially at fair value, normally being the transaction price. In the case of financial assets not at fair value through profit or loss, directly attributable transaction costs are also included. The subsequent measurement of financial assets depends on their classification, as set out below. The company derecognizes financial assets when the contractual rights to the cash flows expire or the rights to receive cash flows have been transferred to a third party along with either substantially all of the risks and rewards or control of the asset. This includes the derecognition of receivables for which discounting arrangements are entered into.

The company classifies its financial assets as measured at amortized cost or fair value through profit or loss. The classification depends on the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

Financial assets are classified as measured at amortized cost when they are held in a business model the objective of which is to collect contractual cash flows and the contractual cash flows represent solely payments of principal and interest. Such assets are carried at amortized cost. This category of financial assets includes trade and other receivables.

Impairment of financial assets measured at amortized cost

The company assesses on a forward-looking basis the expected credit losses associated with financial assets classified as measured at amortized cost at each balance sheet date. Expected credit losses are measured based on the maximum contractual period over which the company is exposed to credit risk. As lifetime expected credit losses are recognized for trade receivables and the tenor of substantially all of other in-scope financial assets is less than 12 months there is no significant difference between the measurement of 12-month and lifetime expected credit losses for the company. The measurement of expected credit losses is a function of the probability of default, loss given default and exposure at default. The expected credit loss is estimated as the difference between the asset's carrying amount and the present value of the future cash flows the company expects to receive, discounted at the financial asset's original effective interest rate. The carrying amount of the asset is adjusted, with the amount of the impairment gain or loss recognized in the profit and loss account.
2. Significant accounting policies, judgements, estimates and assumptions (continued)

Impairment of financial assets measured at amortized cost (continued)

A financial asset or group of financial assets classified as measured at amortized cost is considered to be credit-
impaired if there is reasonable and supportable evidence that one or more events that have a detrimental impact
on the estimated future cash flows of the financial asset (or group of financial assets) have occurred. Financial
assets are written off where the company has no reasonable expectation of recovering amounts due.

Financial liabilities

The measurement of financial liabilities is as follows:

Financial liabilities measured at amortized cost

Financial liabilities are initially recognized at fair value, net of directly attributable transaction costs. For interest-
bearing loans and borrowings this is typically equivalent to the fair value of the proceeds received net of issue
costs associated with the borrowing.

After initial recognition, these financial liabilities are subsequently measured at amortized cost. This category
of financial liabilities includes trade and other payables and finance debt.

Offsetting of financial assets and liabilities

Financial assets and liabilities are presented gross in the balance sheet unless both of the following criteria are
met: the company currently has a legally enforceable right to set off the recognized amounts; and the company
intends to either settle on a net basis or realize the asset and settle the liability simultaneously. If both of the
criteria are met, the amounts are set off and presented net. A right of set off is the company’s legal right to settle
an amount payable to a creditor by applying against it an amount receivable from the same counterparty. The
relevant legal jurisdiction and laws applicable to the relationships between the parties are considered when
assessing whether a current legally enforceable right to set off exists.

Taxation

Income tax expense represents the sum of current tax and deferred tax.

Income tax is recognized in the profit and loss account, except to the extent that it relates to items recognized
in other comprehensive income or directly in equity, in which case the related tax is recognized in other
comprehensive income or directly in equity.

Current tax is based on the taxable profit for the period. Taxable profit differs from net profit as reported in the
profit and loss account because it is determined in accordance with the rules established by the applicable
taxation authorities. It therefore excludes items of income or expense that are taxable or deductible in other
periods as well as items that are never taxable or deductible. The company’s liability for current tax is calculated
using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.
NOTES TO THE FINANCIAL STATEMENTS

2. Significant accounting policies, judgements, estimates and assumptions (continued)

Taxation (continued)

Deferred tax is provided, using the balance sheet method, on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences except:

- Where the deferred tax liability arises on the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries and associates and interests in joint arrangements, where the company is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilized. An exception is where the deferred tax asset relates to the deductible temporary difference arising from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither accounting profit nor taxable profit or loss.

In respect of deductible temporary differences associated with investments in subsidiaries and associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable or increased to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date. Deferred tax assets and liabilities are not discounted.

Deferred tax assets and liabilities are offset only when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the current tax assets and liabilities on a net basis or to realize the assets and settle the liabilities simultaneously.

Where tax treatments are uncertain, if it is considered probable that a taxation authority will accept the company's proposed tax treatment, income taxes are recognized consistent with the company's income tax filings. If it is not considered probable, the uncertainty is reflected within the carrying amount of the applicable tax asset or liability using either the most likely amount or an expected value, depending on which method better predicts the resolution of the uncertainty.

Judgement is required when determining whether a particular tax is an income tax or another type of tax (for example a production tax). Accounting for deferred tax is applied to income taxes as described above, but is not applied to other types of taxes; rather such taxes are recognized in the profit and loss account in accordance with the applicable accounting policy such as Provisions and contingent liabilities.
2. Significant accounting policies, judgements, estimates and assumptions (continued)

Turnover

Revenue from contracts with customers is recognized when or as the company satisfies a performance obligation by transferring control of a promised good or service to a customer. The transfer of control of petroleum and chemical products usually coincides with title passing to the customer and the customer taking physical possession. The company principally satisfies its performance obligations at a point in time; the amounts of revenue recognized relating to performance obligations satisfied over time are not significant.

When, or as, a performance obligation is satisfied, the company recognizes as revenue the amount of the transaction price that is allocated to that performance obligation. The transaction price is the amount of consideration to which the company expects to be entitled. The transaction price is allocated to the performance obligations in the contract based on standalone selling prices of the goods or services promised.

Significant judgements and estimates: revenue recognition

A key judgement made by management in the preparation of the financial statements relates to the recognition of revenue, and specifically whether BP Middle East Limited assumes control of the fuel products it supplies to customers and acts as principal in its sales transactions, or whether it acts as selling agent for BAFCO. BP Middle East Limited does have the primary responsibility for fulfilling orders and bears credit risk on its receivables. In addition, BAFCO is jointly controlled by BP and does not set the price of fuel which is sold, as that is priced by reference to industry benchmarks per the contract terms. Accordingly, management judges that BP Middle East Limited is principal in its sales and therefore recognises these in the gross amount of consideration to which it expects to be entitled, with a corresponding cost of sale also recognised gross, rather than the net commission which would be presented were the company to act as agent.

Interest income

Interest income is recognized as the interest accrues.

Exceptional items

The company discloses as exceptional items those material items impacting the profit and loss account which, because of the nature and expected infrequency of the events giving rise to them, merit separate disclosure to allow shareholders to understand better the elements of financial performance in the year, so as to facilitate comparison with prior periods and to assess better trends in financial performance.

Impact of new International Financial Reporting Standards

The company adopted IFRS 16 ‘Leases’, which replaced IAS 17 ‘Leases’ and IFRIC 4 ‘Determining whether an arrangement contains a lease’, with effect from 1 January 2019. There are no other new or amended standards or interpretations adopted during the year that have a significant impact on the financial statements.

The adoption of IFRS 16 has had no material impact on the company’s financial statements.

3. Turnover

An analysis of the company’s turnover is as follows:

<table>
<thead>
<tr>
<th></th>
<th>2019</th>
<th>2018</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sales of goods</td>
<td>158,980</td>
<td>182,964</td>
</tr>
<tr>
<td>Other operating income</td>
<td>388</td>
<td>765</td>
</tr>
<tr>
<td>Interest receivable and similar income (Note 7)</td>
<td>4,482</td>
<td>15,033</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>163,850</strong></td>
<td><strong>198,762</strong></td>
</tr>
</tbody>
</table>
3. **Turnover (continued)**

An analysis of turnover by class of business is set out below:

<table>
<thead>
<tr>
<th>Class of business:</th>
<th>2019</th>
<th>2018</th>
</tr>
</thead>
<tbody>
<tr>
<td>Downstream</td>
<td>158,980</td>
<td>182,964</td>
</tr>
</tbody>
</table>

The country of origin and destination is the Bahrain geographic area.

4. **Operating profit**

This is stated after charging / (crediting):

<table>
<thead>
<tr>
<th></th>
<th>2019</th>
<th>2018</th>
</tr>
</thead>
<tbody>
<tr>
<td>Net foreign exchange gain</td>
<td>—</td>
<td>(59)</td>
</tr>
<tr>

<tr>
<td>Effective tax rate</td>
<td>—</td>
<td>—</td>
</tr>
</tbody>
</table>

Change in corporation tax rate

A reduction in the UK corporation tax rate from 19% to 17% (effective 1 April 2020) was substantively enacted on 6 September 2016, and the UK deferred tax asset/(liability) as at 31 December 2019 has been calculated based on this rate. The March 2020 Budget announced that a rate of 19% would continue to apply with effect from 1 April 2020, and this change was substantively enacted on 17 March 2020.

(b) Provision for deferred tax

Deferred tax has not been recognised on deductible temporary differences of AED 1,294,000 (2018 AED 335,000) relating to fixed assets and AED 9,000,000 (2018 AED 9,000,000) relating to connected party capital losses with no fixed expiry date on the basis that they are UK tax attributes that are not expected to give rise to any future tax benefit.

9. Directors and employees

(a) Remuneration of directors

None of the directors received any fees or remuneration for qualifying services as a director of the company during the financial year (2018 AED Nil).

(b) The company had no employees during the year (2018 None).
10. **Tangible assets**

</table>

18. Post balance sheet event

Since 31 December 2019, oil and gas prices have fallen sharply in large part due to the impact of the international spread of COVID-19 (Coronavirus) and geopolitical factors. The impact of COVID-19 and the current economic environment on the basis of preparation of these financial statements has been considered. The directors continue to consider it appropriate to adopt the going concern basis of accounting in preparing the financial statements. This is a non-adjusting event for the financial statements for the period ending 31 December 2019.
NOTES TO THE FINANCIAL STATEMENTS

19. Immediate and ultimate controlling parent undertaking

The immediate parent undertaking is BP p.l.c., a company registered in England and Wales. The ultimate controlling parent undertaking is BP p.l.c., a company registered in England and Wales, which is the parent undertaking of the smallest and largest group to consolidate these financial statements. Copies of the consolidated financial statements of BP p.l.c. can be obtained from its registered address: 1 St James’s Square, London, SW1Y 4PD.
