Khazzan gas field

It took less than 4 years to build the Khazzan project with a workforce of 13,500 at peak times and over 90 million man-hours logged.

Khazzan and Ghazeer fields combined 2,550km²

Block 61 concession
Total block size 3,950km²

BP has trained 86 Omani technicians to work on the start-up of the Khazzan project.

Over 400 km of pipelines will be laid over the lifetime of the project.

BP is supporting sustainable, socio-economic development in Oman, including enhancing education, enterprise and energy sustainability. More than 33,000 people benefited from the Social Investment Programme since its launch in 2014.

Khazzan Phase 1 will deliver a billion cubic feet of gas per day, this is equivalent to the amount of gas that Azerbaijan consumes on a daily basis*

*BP Statistical Review of World Energy

The 10.5 trillion cubic feet of recoverable gas reserves are located in extremely old, dense and hard rocks some 5 kilometres beneath the surface.

OMAN

One of the BIGGEST tight gas projects in the Middle East
