

**BP ADVANCED MOBILITY LIMITED**

(Registered No.11352422)

**ANNUAL REPORT AND FINANCIAL STATEMENTS 2022**

Board of Directors: R Bartlett  
J R O'Sullivan

The directors present the Strategic Report, their report and the audited financial statements for the year ended 31 December 2022.

**STRATEGIC REPORT****Principal activity**

The company acts as an intermediate holding company in bp Pulse and holds investments in entities that own and operate electric charging businesses.

**Results**

The loss for the year after taxation was £86,879,000 which, when added to the accumulated loss brought forward at 1 January 2022 of £27,262,000, gives a total accumulated loss carried forward at 31 December 2022 of £114,141,000.

**Review of the business**

The key financial and other performance indicators during the year were as follows:

	2022	2021	Variance
	£000	£000	%
Operating loss	(85,360)	(26,273)	225
Loss for the financial year	(86,879)	(26,305)	230
Total assets	462,854	301,189	54
Total equity	223,859	272,738	(18)
	2022	2021	Variance
	%	%	%
Quick ratio*	0.8	6.9	(6)

\*Quick ratio is defined as current assets (excluding stocks, debtors falling due after one year, derivatives and other financial instruments falling due after one year and deferred tax assets) divided by current liabilities.

Operating loss and loss for the financial year are mainly due to increase of head office charges driven by the growth of bp Pulse in addition to the expenses incurred for the development and operation of in-house digital products. The deterioration in quick ratio is due to drawdowns made from BP International Limited as a result of the significant capital injections made in the subsidiaries during the year. The increase in total assets was due to the increase in the digital product development spend capitalised within the bp Pulse group in line with the group's exponential growth.

## STRATEGIC REPORT

### **Section 172 (1) statement**

This section describes how the directors of the company have had regard to the matters set out in section 172(1) (a) to (f) of the Companies Act 2006 (the "Section 172 factors"), and forms the statement required under section 414CZA of the Companies Act 2006.

In performing their duties throughout the year the directors have had regard to the Section 172 factors as follows:

**(a) The likely long-term consequences of the decision**

When setting and delivering on the company's strategy, the directors of the company have regard to the evolving environment in which the company operates and aims to promote the long term success and sustained economic viability of the company.

**(b) The interests of the company's employees**

The company has no employees.

**(c) The need to foster the company's business relationships with suppliers, customers and others**

During 2022, the directors of the company reiterated their focus on engagement and fostering relationships with suppliers and customers, with the need to consider partners, customers and suppliers and how we can help them, specifically addressed in the 'Who we are' belief, 'Care for others'.

**(d) The impact of the company's operations on the community and the environment**

The directors of the company are committed to the bp group's sustainability aims and objectives – 10 aims to get bp to net zero and help the world get there too, 5 aims to improve people's lives and 5 aims to care for our planet. In 2022 each business prepared a sustainability plan, identifying its priority aims and detailing the actions it will take to meet those.

**(e) The desirability to maintain the company's reputation for high standards of business conduct**

In 2022, bp continued to make progress against its sustainability aims which set out the areas where bp believes it can make the biggest difference for bp, its stakeholders and society. bp's commitment to safety, having a positive impact and doing the right thing were further enshrined in the new bp 'Who we are' beliefs which also emphasise the importance of following the bp code of conduct.

bp's code of conduct sets clear expectations for how bp, the company and the board operate. The directors of the company continued to adhere, in good faith, to the bp code of conduct during the year to ensure the board and the company maintain a reputation for high standards of business conduct.

**(f) The need to act fairly between members of the company**

The company is a wholly owned subsidiary with one member and the directors aim to maximise long term shareholder value.

### **Stakeholder engagement**

By understanding the company's key stakeholders, the board can consider and address the needs of these stakeholders and foster good business relationships with them. The board has taken time to identify the key interests of the stakeholders and establish regular engagement methods to help the board to consider and balance stakeholder interests when making decisions.

## **STRATEGIC REPORT**

### **Section 172 (1) statement**

#### **The company's principal decisions**

During the period the directors of the company continued to monitor progress against the company's strategy, as highlighted in the principal activities section of the Strategic Report of the company, and decisions made by the directors of the company were in respect of routine board matters, in furtherance of the bp group's purpose and were not considered to be principal in nature.

#### **Principal risks and uncertainties**

The bp group manages, monitors and reports on the principal risks and uncertainties that can impact the group's ability to deliver its strategy. The group's system of internal control includes policies, processes, management systems, organizational structures, culture and standards of conduct employed to manage bp's business and associated risks.

Throughout the year, bp management, the leadership team, the board and relevant committees provide oversight of how principal risks to bp are identified, assessed and managed. They support appropriate governance of risk management including having relevant policies in place to help manage risks. Such oversight may include internal audit reports, group risk reports and reviews of the outcomes of business processes including strategy, planning and resource and capital allocation. bp's group risk team analyses the group's risk profile and maintains the group's risk management system. bp's internal audit team provides independent assurance to the chief executive and board as to whether the group's system of internal control is adequately designed and operating effectively to respond appropriately to the risks that are significant to bp.

The company aims to deliver sustainable value by identifying and responding successfully to risks in line with the group's risk management process.

The risks listed below, separately or in combination, could have a material adverse effect on the implementation of the company's strategy, business, financial performance, results of operations, cash flows, liquidity, prospects, shareholder value and returns and reputation. Unless stated otherwise, further details on these risks are included within the risk factors in the Strategic Report of the bp group Annual Report and Form 20-F for the year ended 31 December 2022.

#### **Strategic and commercial risks**

##### ***Major project delivery***

Poor investment choice, efficiency or delivery, or operational challenges at any major project that underpins production or production growth, could adversely affect our financial performance.

The company seeks to manage this risk through the bp group projects organization which includes the centre of expertise for appraisal and optimization, expertise to manage the design and build of projects and programmes to ensure project objectives are met. This process is systematically reviewed and continuously improved.

## **STRATEGIC REPORT**

### **Strategic and commercial risks (continued)**

#### ***Geopolitical***

The company is exposed to a range of political, economic and social developments and consequent changes to the operating and regulatory environment which could cause business disruption. Political instability, changes to the regulatory environment or taxation, international trade disputes and barriers to free trade, international sanctions, expropriation or nationalization of property, civil strife, strikes, insurrections, acts of terrorism, acts of war and public health situations (including the continued impact of the COVID-19 pandemic or any future epidemic or pandemic) may disrupt or curtail our operations, business activities or investments. These may in turn cause production to decline, limit our ability to pursue new opportunities, affect the recoverability of our assets and our related earnings and cash flow or cause us to incur additional costs, particularly due to the long-term nature of many of our projects and significant capital expenditure required.

#### ***Liquidity, financial capacity and financial, including credit, exposure***

Failure to work within the financial framework set by the bp group could impact the bp group as well as the company's ability to operate and result in financial loss. Credit rating downgrades could potentially increase financing costs and limit access to financing or engagement in the company's trading activities on acceptable terms, which could put pressure on the group's liquidity.

Other receivables may not be recovered and unexpected cash call or funding request could disrupt the group's financial framework or overwhelm the company's ability to meet its obligations.

For further details see Note 29 of the bp group Annual Report and Form 20-F for the year ended 31 December 2022.

#### ***Digital infrastructure and cybersecurity***

The energy industry is subject to fast-evolving risks, including ransomware, from cyber threat actors, including nation states, criminals, terrorists, hacktivists and insiders. Current geopolitical factors have increased these risks. There is also growing regulation around data protection and data privacy. A breach or failure of our or third parties' digital infrastructure – including control systems – due to breaches of our cyber defences, or those of third parties, negligence, intentional misconduct or other reasons, could seriously disrupt our operations. This could result in the loss or misuse of data or sensitive information, including employees' and customers' personal data, injury to people, disruption to our business, harm to the environment or our assets, legal or regulatory breaches, legal liability and significant costs including fines, cost of remediation or reputational consequences. Furthermore, the rapid detection of attempts to gain unauthorized access to our digital infrastructure, often through the use of sophisticated and co-ordinated means, is a challenge and any delay or failure to detect could compound these potential harms.

#### ***Climate change and the transition to a lower carbon economy***

Laws, regulations, policies, obligations, government actions, social attitudes and customer preferences relating to climate change and the transition to a lower carbon economy, including the pace of change to any of these factors, and also the pace of the transition itself, could have adverse impacts on our business including on our access to and realization of competitive opportunities in any of our strategic focus areas, a decline in demand for, or constraints on our ability to sell certain products, constraints on production and supply, adverse litigation and regulatory or litigation outcomes, increased costs from compliance and increased provisions for environmental and legal liabilities.

Changes in investor preferences and sentiment could affect our access to capital markets and our attractiveness to potential investors, potentially resulting in reduced access to financing, increased financing costs and impacts upon our business plans and financial performance.

## STRATEGIC REPORT

### **Strategic and commercial risks (continued)**

#### ***Insurance***

The bp group generally purchases insurance only in situations where this is legally and contractually required. Some risks are insured with third parties and reinsured by group insurance companies. Uninsured losses could have a material adverse effect on the bp group financial position which in turn could adversely affect the company.

#### **Compliance and control risks**

##### ***Ethical misconduct and non-compliance***

Incidents of ethical misconduct or non-compliance with applicable laws and regulations, including anti-bribery and corruption, competition and antitrust, and anti-fraud laws, trade restrictions or other sanctions, could damage the company's reputation, and result in litigation, regulatory action, penalties and potentially affect our licence to operate.

In relation to trade restrictions or other sanctions, current geopolitical factors have increased these risks.

##### ***Regulation***

Changes in the law and regulation, including how they are interpreted and enforced, could increase costs, constrain the company's operations and affect its business plans and financial performance.

##### ***Treasury and treasury trading activities***

Ineffective oversight of treasury and trading activities could lead to business disruption, financial loss, regulatory intervention, fines or damage to the company's reputation.

##### ***Reporting***

External reporting of financial and non-financial data relies on the integrity of the control environment, bp group's systems and people operating them. Failure to report data accurately and in compliance with applicable standards could result in regulatory action, legal liability and reputational damage.

### **Financial risk management**

The company is exposed to a number of different financial risks arising from natural business exposures as well as its use of financial instruments including market risks relating to foreign currency exchange rates and interest rates; and liquidity risk. Further details on these financial risks are included within Note 29 of the bp group Annual Report and Form 20-F for the year ended 31 December 2022.

**DIRECTORS' REPORT****BP ADVANCED MOBILITY LIMITED****Directors**

The present directors are listed on page 1.

R Bartlett and S Kashyap served as directors throughout the financial year. Changes since 1 January 2022 are as follows:

	<u>Appointed</u>	<u>Resigned</u>
S Kashyap	—	18 May 2023
J R O'Sullivan	18 May 2023	—

**Directors' indemnity**

The company indemnifies the directors in its Articles of Association to the extent allowed under section 232 of the Companies Act 2006. Such qualifying third party indemnity provisions for the benefit of the company's directors remain in force at the date of this report.

**Dividends**

The company has not declared any dividends during the year (2021 £Nil). The directors do not propose the payment of a dividend (2021 £Nil).

**Financial instruments**

In accordance with section 414C of the Companies Act 2006 the directors have included information regarding financial instruments as required by Schedule 7 (Part 6.1) of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 in the Strategic Report under Financial risk management.

**Post balance sheet events**

On 20 February 2023, the company incorporated a wholly owned subsidiary, Chengdu BP Advanced Mobility Limited.

On 9 March 2023, the company incorporated a wholly owned subsidiary, Wuhan BP Advanced Mobility Limited.

On 9 March 2023, the company made a capital injection of £29,233,709 in BP (Guangzhou) Advanced Mobility Limited.

On 9 March 2023, the company made a capital injection of £4,210,657 in BP Xiaoju New Energy (Shenzhen) Co., Ltd.

On 13 March 2023, the company incorporated a wholly owned subsidiary, Chongqing BP Advanced Mobility Limited.

On 21 March 2023, 172,000,000 ordinary shares of £1 each for a total nominal value of £172,000,000, were allotted to the immediate parent company at par value.

On 22 March 2023, the company incorporated a wholly owned subsidiary, Changsha BP Advanced Mobility Limited.

On 24 March 2023, the company made a capital injection of £35,000,000 in Chargemaster Limited.

## DIRECTORS' REPORT

### **Post balance sheet events (continued)**

On 7 April 2023, the company incorporated a wholly owned subsidiary, BP (Xi'an) Advanced Mobility Limited.

On 23 April 2023, the company incorporated a wholly owned subsidiary, Tianjin Advanced Mobility Limited.

During May 2023, the company announced the decision to cease operations relating to the sale of the Homecharge units to the general public. The current estimate of the impact is the same as the carrying value and the impairment charge of the intangible assets amounting to £5,645,375.

On 29 May 2023, the company made a capital injection of £4,800,654 in BP Xiaoju New Energy (Shenzhen) Co., Ltd.

On 7 July 2023, the company made a capital injection of £4,530,144 in BP Xiaoju New Energy (Shenzhen) Co., Ltd.

On 28 July 2023, the company made a capital injection of £19,450,485 in BP (Guangzhou) Advanced Mobility Limited.

On 14 August 2023, the company made a capital injection of £35,000,000 in Chargemaster Limited.

On 25 August 2023, the directors of the company had approved a capital injection of £5,326,300 in BP Xiaoju New Energy (Shenzhen) Co., Ltd.

### **Going concern**

The directors consider it appropriate to adopt the going concern basis of accounting in preparing the financial statements. The current economic and geopolitical environment were considered as part of the going concern assessment.

Liquidity and financing is managed within the bp group under pooled group-wide arrangements which include the company. As part of the going concern basis of preparation for the company, the ability and intent of the bp group to support the company has also been taken into consideration. The most recent bp group financial statements continue to be prepared on a going concern basis. Forecast liquidity of the bp group has been assessed under a number of stressed scenarios, including a significant decline in oil prices over the 12-month period from the date these financial statements were approved. Reverse stress tests performed indicated that the bp group will continue to operate as a going concern for at least 12 months from the date of approval of the financial statements even if the Brent price fell to zero. In addition, bp group management have confirmed the existing intra-group funding and liquidity arrangements as currently constituted are expected to be maintained for the foreseeable future, being no less than twelve months from the approval of these financial statements. No material uncertainties over going concern or significant judgements or estimates on the assessment were identified. Accordingly, the company will be able to draw on support from the bp group for the foreseeable future and these financial statements have therefore been prepared on a going concern basis. For further information on financial risk factors, including credit risk and liquidity risk, see pages 3-5.

The company has ongoing funding arrangements with BP International Limited to manage its working capital as well as investing activities. The directors' assessment has taken into account the ability of both the company and BP group to ensure availability of funds at least twelve months from the date of approval of these financial statements.

## **DIRECTORS' REPORT**

### **Going concern (continued)**

In assessing the prospects of BP Advanced Mobility Limited, the directors noted that such assessment is subject to a degree of uncertainty that can be expected to increase looking out over time and, accordingly, that future outcomes cannot be guaranteed or predicted with certainty. However, the activities of subsidiaries in which the company has investments, are sheltered from oil price volatility because they relate to electric vehicle charging.

Having a reasonable expectation that the company has adequate resources to continue in operational existence for at least the next 12 months from the date these financial statements were approved, the directors consider it appropriate to continue to adopt the going concern basis of accounting in preparing the financial statements.

### **Future developments**

The directors consider that, despite the uncertainties deriving from the current economic environment and the loss reported for the year and net current liabilities, the company is in a good position to take advantage of any opportunities which may arise in the future.

It is the intention of the directors that the business of the company will continue for the foreseeable future.

### **Research and development**

The company incurs expenditure on the development of in-house digital products which is capitalized within intangible assets as development costs.

### **Disabled employees**

The company gives full and fair consideration to applications for employment from disabled persons where the requirements of the job can be adequately fulfilled by a handicapped or disabled person.

Where existing employees become disabled, it is the company's policy wherever practicable to provide continuing employment under normal terms and conditions and to provide training and career development and promotion wherever appropriate.

### **Stakeholder statements**

#### **Employee engagement statement**

The directors of the company recognise that employees are vital to the long term success of the company and engage with employees, and keep them informed on matters of concern to them. The company's section 172(1) statement in the Strategic Report demonstrates how the directors have engaged with employees throughout the year, and how the directors of the company have had regard to their interests when making decisions.

#### **Statement of engagement with suppliers, customers and others in a business relationship with the company**

The board recognises the importance of considering and having regard to key stakeholders and their interests when making decisions. By understanding the company's key stakeholders, the board can consider and address the needs of these stakeholders and foster good business relationships with them.

**DIRECTORS' REPORT****Stakeholder statements (continued)****Statement of engagement with suppliers, customers and others in a business relationship with the company (continued)**

The board is committed to doing business ethically and transparently, using bp's values and code of conduct to guide them when engaging and working with business partners. The company's activities, and the decisions of the board, affect a wide variety of individuals and organisations. The directors engage with the company's stakeholders, listening to their differing needs and priorities as part of their role as a senior leader at bp and use the feedback received to inform the board's decision-making.

The company's section 172(1) statement in the Strategic Report demonstrates how the directors have had regard to the need to foster business relationships with suppliers, customers and other stakeholders when making decisions on behalf of the company.

**Streamlined Energy & Carbon Reporting (SECR)**

As a UK subsidiary of a UK parent company which prepares a group directors' report, SECR reporting details are included in the strategic report of the bp group Annual Report and Form 20-F for the year ended 31 December 2022.

**Auditors**

Pursuant to section 487 of the Companies Act 2006, Deloitte LLP have expressed their willingness to continue in office as auditors and are therefore deemed reappointed as auditors.

**Directors' statement as to the disclosure of information to the auditor**

The directors who were members of the board at the time of approving the directors' report are listed on page 1. Having made enquiries of fellow directors and of the company's auditor, each of these directors confirms that:

- To the best of each director's knowledge and belief, there is no information relevant to the preparation of the auditor's report of which the company's auditor is unaware; and
- Each director has taken all the steps a director might reasonably be expected to have taken to be aware of relevant audit information and to establish that the company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with section 418 of the Companies Act 2006.

Approved by the board of directors and signed on behalf of the board by:

**STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT  
OF THE FINANCIAL STATEMENTS  
BP ADVANCED MOBILITY LIMITED**

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable UK law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law) including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the profit or loss for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable United Kingdom accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors confirm that they have complied with these requirements. Details of the directors' assessment of going concern are provided in the directors' report.

**INDEPENDENT AUDITOR'S REPORT****TO THE MEMBERS OF BP ADVANCED MOBILITY LIMITED****Report on the audit of the financial statements****Opinion**

In our opinion the financial statements of BP Advanced Mobility Limited (the 'company'):

- give a true and fair view of the state of the company's affairs as at 31 December 2022 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the profit and loss account;
- the statement of comprehensive income;
- the balance sheet;
- the statement of changes in equity; and
- the related notes 1 to 19.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

**Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Conclusions relating to going concern**

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

**Other information**

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

DTT

## INDEPENDENT AUDITOR'S REPORT

### **Responsibilities of directors**

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditor's report.

### **Extent to which the audit was considered capable of detecting irregularities, including fraud**

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the company's industry and its control environment, and reviewed the company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management and the directors about their own identification and assessment of the risks of irregularities, including those that are specific to the company's business sector.

We obtained an understanding of the legal and regulatory framework(s) that the company operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included UK Companies Act, pensions legislation and tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the company's ability to operate or to avoid a material penalty. These included the company's operating licence and environmental regulations when they are applicable.

We discussed among the audit engagement team including relevant internal specialists regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management, and in-house legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance.

## **INDEPENDENT AUDITOR'S REPORT**

### **Report on other legal and regulatory requirements**

#### **Opinion on other matters prescribed by the Companies Act 2006**

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

#### **Matters on which we are required to report by exception**

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

#### **Use of our report**

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**BP ADVANCED MOBILITY LIMITED**

**1. Authorization of financial statements and statement of compliance with Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101)**

The financial statements of BP Advanced Mobility Limited for the year ended 31 December 2022 were approved by the board of directors on 28 September 2023 and the balance sheet was signed on the board's behalf by R Bartlett. BP Advanced Mobility Limited is a private company, limited by shares incorporated, domiciled and registered in England and Wales (registered number 11352422) under the Companies Act 2006. The company's registered office is at Chertsey Road, Sunbury on Thames, Middlesex, TW16 7BP. These financial statements were prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' (FRS 101) and the provisions of the Companies Act 2006.

**2. Significant accounting policies, judgements, estimates and assumptions**

The significant accounting policies and critical accounting judgements, estimates and assumptions of the company are set out below.

**Basis of preparation**

These financial statements have been prepared in accordance with FRS 101. The financial statements have been prepared under the historical cost convention. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

The accounting policies that follow have been consistently applied to all years presented, except where otherwise indicated.

These financial statements are separate financial statements. The company has taken advantage of the exemption under s400 of the Companies Act 2006 not to prepare consolidated financial statements, because it is included in the group financial statements of BP p.l.c. Details of the parent in whose consolidated financial statements the company is included are shown in Note 19 to the financial statements.

The company meets the definition of a qualifying entity under FRS 100 'Application of Financial Reporting Requirements' issued by the FRC. Accordingly, these financial statements were prepared under the historical cost convention in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework and the Companies Act 2006. As permitted by FRS 101, the company has taken advantage of the disclosure exemptions available under that standard in relation to:

- (a) the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134 to 136 of IAS 1 Presentation of Financial Statements;
- (b) the requirement in paragraph 38 of IAS 1 Presentation of Financial Statements to present comparative information in respect of:
  - (i) paragraph 79(a)(iv) of IAS 1;
  - (ii) paragraph 118(e) of IAS 38 Intangible Assets;
- (c) the requirements of IAS 7 Statement of Cash Flows;
- (d) the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors in relation to standards not yet effective;
- (e) the requirements of paragraph 17 and 18A of IAS 24 Related Party Disclosures;
- (f) the requirements of IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member;
- (g) the requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d) to 134(f) and 135(c)-135(e) of IAS 36, Impairment of Assets;

## NOTES TO THE FINANCIAL STATEMENTS

### 2. Significant accounting policies, judgements, estimates and assumptions (continued)

#### **Basis of preparation (continued)**

- (h) the requirements of IFRS 7 Financial Instruments: Disclosures;
- (i) the requirements of paragraphs 91 – 99 of IFRS 13 Fair Value Measurement.

Where required, equivalent disclosures are given in the group financial statements of BP p.l.c. The group financial statements of BP p.l.c. are available to the public and can be obtained as set out in Note 19.

The financial statements are presented in Pound Sterling and all values are rounded to the nearest thousand pounds (£000).

#### **Significant accounting policies: use of judgements, estimates and assumptions**

Inherent in the application of many of the accounting policies used in preparing the financial statements is the need for management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual outcomes could differ from the estimates and assumptions used.

The accounting judgements and estimates that have a significant impact on the results of the company are set out within the boxed text below, and should be read in conjunction with the information provided in the Notes to the financial statements.

The area requiring the most significant judgement and estimation in the preparation of the financial statements is impairment of investments.

#### **Significant accounting policies**

##### **Going concern**

The directors consider it appropriate to adopt the going concern basis of accounting in preparing the financial statements. The current economic and geopolitical environment were considered as part of the going concern assessment.

Liquidity and financing is managed within the bp group under pooled group-wide arrangements which include the company. As part of the going concern basis of preparation for the company, the ability and intent of the bp group to support the company has also been taken into consideration. The most recent bp group financial statements continue to be prepared on a going concern basis. Forecast liquidity of the bp group has been assessed under a number of stressed scenarios, including a significant decline in oil prices over the 12-month period from the date these financial statements were approved. Reverse stress tests performed indicated that the bp group will continue to operate as a going concern for at least 12 months from the date of approval of the financial statements even if the Brent price fell to zero. In addition, bp group management have confirmed the existing intra-group funding and liquidity arrangements as currently constituted are expected to be maintained for the foreseeable future, being no less than twelve months from the approval of these financial statements. No material uncertainties over going concern or significant judgements or estimates on the assessment were identified. Accordingly, the company will be able to draw on support from the bp group for the foreseeable future and these financial statements have therefore been prepared on a going concern basis. For further information on financial risk factors, including credit risk and liquidity risk, see pages 3-5.

## NOTES TO THE FINANCIAL STATEMENTS

### **2. Significant accounting policies, judgements, estimates and assumptions (continued)**

#### **Going concern (continued)**

The company has ongoing funding arrangements with BP International Limited to manage its working capital as well as investing activities. The directors' assessment has taken into account the ability of both the company and BP group to ensure availability of funds at least twelve months from the date of approval of these financial statements.

In assessing the prospects of BP Advanced Mobility Limited, the directors noted that such assessment is subject to a degree of uncertainty that can be expected to increase looking out over time and, accordingly, that future outcomes cannot be guaranteed or predicted with certainty. However, the activities of subsidiaries in which the company has investments, are sheltered from oil price volatility because they relate to electric vehicle charging.

Having a reasonable expectation that the company has adequate resources to continue in operational existence for at least the next 12 months from the date these financial statements were approved, the directors consider it appropriate to continue to adopt the going concern basis of accounting in preparing the financial statements.

#### **Foreign currency**

The functional and presentation currency of the financial statements is Pound Sterling. The functional currency is the currency of the primary economic environment in which an entity operates and is normally the currency in which the entity primarily generates and expends cash.

As the company is considered to be an intermediate holding company, and therefore an extension of its parent company, its functional currency is the same as its parent company.

Transactions in foreign currencies are initially recorded in the functional currency by applying the rate of exchange ruling at the date of the transaction. Where this is not practical and exchange rates do not fluctuate materially the average rate has been used. Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot exchange on the balance sheet date. Any resulting exchange differences are included in the profit and loss account, unless hedge accounting is applied. Non-monetary assets and liabilities, other than those measured at fair value, are not retranslated subsequent to initial recognition.

#### **Investments**

Fixed asset investments in subsidiaries and associates are held at cost. The company assesses investments for an impairment indicator annually. If any such indication of possible impairment exists, the company makes an estimate of the investment's recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount.

Where these circumstances have reversed, the impairment previously made is reversed to the extent of the original cost of the investment.

#### ***Interests in associates***

An associate is an entity over which the company has significant influence, through the power to participate in the financial and operating policy decisions of the investee, but which is not a subsidiary or a joint arrangement.

**NOTES TO THE FINANCIAL STATEMENTS****2. Significant accounting policies, judgements, estimates and assumptions (continued)****Investments (continued)*****Significant judgements and estimates: impairment of investments***

Determination as to whether, and how much, an investment is impaired involves management estimates on highly uncertain matters such as the effects of inflation and deflation on operating expenses, discount rates, growth of electric vehicles and utilization of assets.

Management judgement is required to determine whether an indicator of potential impairment exists in relation to the company's investments. No such indicators have been identified during the current year and therefore no impairment test has needed to be performed. Accordingly, the recoverable amount of the investment has not needed to be estimated, nor any assumptions made, and no sensitivity analysis has been required. Details of the carrying value of the investments are provided in Note 10.

**Intangible assets**

Intangible assets, other than goodwill, are stated at the amount initially recognized, less accumulated amortization and accumulated impairment losses.

Intangible assets are carried initially at cost unless acquired as part of a business combination. Any such asset is measured at fair value at the date of the business combination and is recognized separately from goodwill if the asset is separable or arises from contractual or other legal rights.

Intangible assets with a finite life are amortized on a straight-line basis over their expected useful lives. Digital asset costs generally have a useful life of three to five years.

The expected useful lives of assets and the amortization method are reviewed on an annual basis and, if necessary, changes in useful lives or the amortization method are accounted for prospectively.

The carrying value of intangible assets is reviewed for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable.

**Financial assets**

Financial assets are recognized initially at fair value, normally being the transaction price. In the case of financial assets not at fair value through profit or loss, directly attributable transaction costs are also included. The subsequent measurement of financial assets depends on their classification, as set out below. The company derecognizes financial assets when the contractual rights to the cash flows expire or the rights to receive cash flows have been transferred to a third party along with either substantially all of the risks and rewards or control of the asset. This includes the derecognition of receivables for which discounting arrangements are entered into.

The company classifies its financial assets as measured at amortized cost or fair value through profit or loss. The classification depends on the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

***Financial assets measured at amortized cost***

Financial assets are classified as measured at amortized cost when they are held in a business model the objective of which is to collect contractual cash flows and the contractual cash flows represent solely payments of principal and interest. Such assets are carried at amortized cost. This category of financial assets includes other receivables and cash at bank and in hand.

## NOTES TO THE FINANCIAL STATEMENTS

### 2. Significant accounting policies, judgements, estimates and assumptions (continued)

#### **Financial assets (continued)**

##### ***Financial assets measured at fair value through profit or loss***

Financial assets are classified as measured at fair value through profit or loss when the asset does not meet the criteria to be measured at amortized cost. Such assets are carried on the balance sheet at fair value with gains or losses recognized in the profit and loss account. Derivatives, other than those designated as effective hedging instruments, are included in this category.

##### **Impairment of financial assets measured at amortized cost**

The company assesses on a forward-looking basis the expected credit losses associated with financial assets measured at amortized cost at each balance sheet date. Expected credit losses are measured based on the maximum contractual period over which the company is exposed to credit risk. As lifetime expected credit losses are recognized for trade receivables and the tenor of substantially all other in-scope financial assets is less than 12 months there is no significant difference between the measurement of 12-month and lifetime expected credit losses for the company. The measurement of expected credit losses is a function of the probability of default, loss given default and exposure at default. The expected credit loss is estimated as the difference between the asset's carrying amount and the present value of the future cash flows the company expects to receive, discounted at the financial asset's original effective interest rate. The carrying amount of the asset is adjusted, with the amount of the impairment gain or loss recognized in the profit and loss account.

A financial asset or group of financial assets classified as measured at amortized cost is considered to be credit-impaired if there is reasonable and supportable evidence that one or more events that have a detrimental impact on the estimated future cash flows of the financial asset (or group of financial assets) have occurred. Financial assets are written off where the company has no reasonable expectation of recovering amounts due.

#### **Financial liabilities**

The measurement of financial liabilities is as follows:

##### ***Financial liabilities measured at amortized cost***

Financial liabilities are initially recognized at fair value, net of directly attributable transaction costs. For interest-bearing loans and borrowings this is typically equivalent to the fair value of the proceeds received net of issue costs associated with the borrowing.

After initial recognition, these financial liabilities are subsequently measured at amortized cost. This category of financial liabilities includes amounts owed to group undertakings and other payables.

#### **Derivative financial instruments**

The company is exempt from the disclosure requirements of IFRS 7 "Financial Instruments: Disclosures" and IFRS 13 "Fair value measurement" as the company is included in the consolidated financial statements of the ultimate parent undertaking, BP p.l.c., which include the disclosures on a group basis that comply with these standards. Relevant disclosures as required by the Companies Act 2006 in relation to instruments held at fair value have been included in these financial statements.

The derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

## NOTES TO THE FINANCIAL STATEMENTS

### 2. Significant accounting policies, judgements, estimates and assumptions (continued)

#### **Derivative financial instruments (continued)**

Contracts to buy or sell a non-financial item (for example oil, oil products, gas and power) that can be settled net in cash or another financial instrument, or by exchanging financial instruments as if the contracts were financial instruments, with the exception of contracts that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the company's expected purchase, sale or usage requirements, are accounted for as financial instruments. Contracts to buy or sell equity investments, including investments in associates, are also financial instruments. Gains or losses arising from changes in the fair value of derivatives that are not designated as effective hedging instruments are recognized in the profit and loss account.

If, at inception of a contract, the valuation cannot be supported by observable market data, any gain or loss determined by the valuation methodology is not recognized in the profit and loss account but is deferred on the balance sheet and is commonly known as 'day-one profit or loss'. This deferred gain or loss is recognized in the profit and loss account over the life of the contract until substantially all the remaining contractual cash flows can be valued using observable market data at which point any remaining deferred gain or loss is recognized in the profit and loss account. Changes in valuation from the initial valuation at inception of a contract are recognized immediately through the profit and loss account.

#### **Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The company categorizes assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs that are observable, either directly or indirectly, other than quoted prices included within level 1 for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or bp's assumptions about pricing by market participants.

#### **Offsetting of financial assets and liabilities**

Financial assets and liabilities are presented gross in the balance sheet unless both of the following criteria are met: the company currently has a legally enforceable right to set off the recognized amounts; and the company intends to either settle on a net basis or realize the asset and settle the liability simultaneously. If both of the criteria are met, the amounts are set off and presented net. A right of set off is the company's legal right to settle an amount payable to a creditor by applying against it an amount receivable from the same counterparty. The relevant legal jurisdiction and laws applicable to the relationships between the parties are considered when assessing whether a current legally enforceable right to set off exists.

#### **Taxation**

Income tax expense represents the sum of current tax and deferred tax.

Income tax is recognized in the profit and loss account, except to the extent that it relates to items recognized in other comprehensive income or directly in equity, in which case the related tax is recognized in other comprehensive income or directly in equity.

Current tax is based on the taxable profit for the period. Taxable profit differs from net profit as reported in the profit and loss account because it is determined in accordance with the rules established by the applicable taxation authorities. It therefore excludes items of income or expense that are taxable or deductible in other periods as well as items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**NOTES TO THE FINANCIAL STATEMENTS****2. Significant accounting policies, judgements, estimates and assumptions (continued)****Taxation (continued)**

Deferred tax is provided, using the balance sheet method, on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences except:

- Where the deferred tax liability arises on the initial recognition of an asset or liability in a transaction that is not a business combination, at the time of the transaction, affects neither accounting profit nor taxable profit or loss and, at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.
- In respect of taxable temporary differences associated with investments in group undertakings and associates and interests in joint arrangements, where the company is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilized. An exception is where the deferred tax asset relates to the deductible temporary difference arising from the initial recognition of an asset or liability in a transaction that is not a business combination, at the time of the transaction, affects neither accounting profit nor taxable profit or loss and, at the time of the transaction, does not give rise to equal taxable and deductive temporary differences.

In respect of deductible temporary differences associated with investments in group undertakings and associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable or increased to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date. Deferred tax assets and liabilities are not discounted.

Deferred tax assets and liabilities are offset only when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the current tax assets and liabilities on a net basis or to realize the assets and settle the liabilities simultaneously.

Where tax treatments are uncertain, if it is considered probable that a taxation authority will accept the company's proposed tax treatment, income taxes are recognized consistent with the company's income tax filings. If it is not considered probable, the uncertainty is reflected within the carrying amount of the applicable tax asset or liability using either the most likely amount or an expected value, depending on which method better predicts the resolution of the uncertainty.

**Interest income**

Interest income is recognized as the interest accrues.

**NOTES TO THE FINANCIAL STATEMENTS****2. Significant accounting policies, judgements, estimates and assumptions (continued)****Development costs**

Development costs for internally developed intangible assets are expensed as incurred unless all of the following criteria are met:

- It is technically feasible to complete the intangible asset so that it will be available for use or sale.
- There is an intention and the ability to complete, and use or sell, the intangible asset.
- It can be demonstrated how the intangible asset will generate probable future economic benefits.
- Adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available.
- The expenditure attributable to the intangible asset during its development can be reliably measured.

These costs are capitalized as an intangible asset and amortised over three to five years.

**Finance costs**

All finance costs are recognized in the profit and loss account in the period in which they are incurred.

**Updates to significant accounting policies**

In the current year, the company has applied a number of amendments to IFRS Accounting Standards issued by the International Accounting Standards Board (IASB) that are mandatorily effective for an accounting period that begins on or after 1 January 2022.

Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements.

**Impact of new International Financial Reporting Standards**

There are no IASB standards, amendments or interpretations in issue but not yet adopted that the directors anticipate will have a material effect on the reported income or net assets of the company.

**3. Operating loss**

This is stated after (charging) / crediting:

	2022	2021
	£000	£000
Net foreign exchange (gains) / losses <sup>a</sup>	(56)	58
Research and development costs expensed <sup>a</sup>	1,747	—
Amortization of intangible assets - internally generated <sup>a</sup>	4,086	1,920
Depreciation of tangible assets <sup>a</sup>	98	—
Impairment of intangible assets	2,642	—

<sup>a</sup> Amount is included in Administrative expenses.

**NOTES TO THE FINANCIAL STATEMENTS****4. Auditor's remuneration**

	<u>2022</u>	<u>2021</u>
	£000	£000
Fees for the audit of the company	<u>15</u>	<u>18</u>

Fees paid to the company's auditor, Deloitte LLP and its associates for services other than the statutory audit of the company are not disclosed in these financial statements since the consolidated financial statements of BP Advanced Mobility Limited's ultimate parent, BP p.l.c., are required to disclose non-audit fees on a consolidated basis.

The audit fees were borne by another group company.

**5. Interest receivable and similar income**

	<u>2022</u>	<u>2021</u>
	£000	£000
Bank interest receivable	—	1
Interest income from amounts owed by group undertakings	—	9
Total interest receivable and similar income	<u>—</u>	<u>10</u>

**6. Interest payable and similar expenses**

	<u>2022</u>	<u>2021</u>
	£000	£000
Interest expense on:		
Overdrafts from group undertakings, associates and joint ventures	1,519	—
Guarantee fee paid to group undertakings	—	42
Total interest payable and similar expenses	<u>1,519</u>	<u>42</u>

**7. Taxation**

The company is a member of a group for the purposes of relief within Part 5, Corporation Tax Act 2010.

**Reconciliation of the effective tax rate**

The tax assessed on the loss for the year is lower than the standard rate of corporation tax in the UK of 19% for the year ended 31 December 2022 (2021 19%). The differences are reconciled below:

	<u>2022</u>	<u>2021</u>
	£000	£000
Loss before taxation	(86,685)	(26,305)
Tax charge	—	—
Effective tax rate	— %	— %

**NOTES TO THE FINANCIAL STATEMENTS**

	<u>2022</u>	<u>2021</u>
	%	%
UK statutory corporation tax rate:	19	19
Decrease resulting from:		
Non-deductible expenditure	(1)	(1)
Free group relief	(17)	(18)
Movements in unrecognised deferred tax	(1)	—
Effective tax rate	<u>—</u>	<u>—</u>

**7. Taxation (continued)****Change in corporation tax rate**

On 3 March 2021, the UK Government announced an increase to the UK's main corporation tax rate from 19% to 25%, effective from 1 April 2023. This will increase the company's future current tax charge accordingly. The rate change was substantively enacted on 24 May 2021. As the company has not recognised a deferred tax asset at the balance sheet date, the impact of this rate change has not been calculated.

**(b) Provision for deferred tax**

Deferred tax has not been recognized on deductible temporary differences in relation to fixed assets of £24,504 and tax losses of £831,553 with no fixed expiry date on the basis that they are UK tax attributes that are not expected to give rise to any future tax benefit.

**8. Directors and employees****(a) Remuneration of directors**

None of the directors received any fees or remuneration for qualifying services as a director of the company during the financial year (2021 £Nil).

**(b) Employee costs**

The company had no employees during the year (2021 None).

**NOTES TO THE FINANCIAL STATEMENTS****9. Intangible assets**

	<b>Digital assets</b>
<b>Cost</b>	<u>£000</u>
At 1 January 2022	19,188
Additions	50,683
At 31 December 2022	<u>69,871</u>
<b>Amortization</b>	
At 1 January 2022	(2,359)
Charge for the year	(4,086)

For a full list of significant related undertakings, please see Note 20.

**12. Debtors**

Amounts falling due within one year:

	2022	2021
	£000	£000
Other debtors	1,694	1,839
Prepayments	111	111
	<u>1,805</u>	<u>1,950</u>

Amounts falling due after one year:

	2022	2021
	£000	£000
Prepayments	166	277
	<u>1,971</u>	<u>2,227</u>

Other receivables are predominantly non-interest bearing.

**NOTES TO THE FINANCIAL STATEMENTS****13. Derivatives and other financial instruments**

In the prior year, the company entered into an agreement with Guangzhou Aulton New Energy Technology Co., Ltd (GANET) to acquire a 20% of shareholding of GANET with an option to further acquire another 29% of shareholdings at 90% of the fair value of GANET. The company has a contractual right to exercise the equity call option. A derivative asset has been recognised to reflect the fair value of the equity call option and classified as fair value through profit or loss.

Given that there is no market data for the price and volatility of the underlying equity, the approach to identify the fair value of the equity call option was by multiplying the discount with a percentage of the cost of investment, which is deemed the best information available at the measurement date.

The fair value of the equity call option amounted to £1,915,000 as at 31 December 2022 (2021 £1,884,000) and £31,000 (2021 £Nil) foreign exchange differences has been recognised as a fair value gains/loss in the profit or loss account.

*Derivatives held for trading*

Contract is classified as held for trading, regardless of its original business objective, and is recognized at fair value with changes in fair value recognized in the profit and loss account.

The fair values of derivative financial instruments at 31 December are set out below:

	2022	2021
	Fair value asset £000	Fair value asset £000
Derivatives held for trading		
- Other derivatives	1,915	1,884
	<u>1,915</u>	<u>1,884</u>
Of which:		
– non-current derivatives with third parties	1,915	1,884
	<u>1,915</u>	<u>1,884</u>
2022	Over 5 years £000	Total £000
Fair value of derivative assets		
Level 3	1,915	1,915
	<u>1,915</u>	<u>1,915</u>
2021	Over 5 years £000	Total £000
Fair value of derivative assets		
Level 3	1,884	1,884
	<u>1,884</u>	<u>1,884</u>

**NOTES TO THE FINANCIAL STATEMENTS****13. Derivatives and other financial instruments (continued)***Level 3 derivatives*

The following table shows the changes during the year in the net fair value of derivatives held for trading purposes within level 3 of the fair value hierarchy.

	Equity call option £000
Net fair value of contracts as at 1 January 2022	1,884
Gains recognized in the profit and loss account	31
Net fair value of contracts as at 31 December 2022	<u>1,915</u>

**14. Creditors**

Amounts falling due within one year:

	<u>2022</u>	<u>2021</u>
	£000	£000
Amounts owed to group undertakings	237,869	27,821
Other creditors	1,069	545
Accruals and deferred income	57	85
	<u>238,995</u>	<u>28,451</u>

Materially all of the company's trade payables have payment terms in the range of 30 to 60 days and give rise to operating cash flows.

The amounts owed to group undertakings comprise an Internal Funding Account (IFA) of £171,420,000 payable to BP International Limited (2021 £5,108,000).

This balance forms a key part of the bp group's liquidity and funding arrangements under its centralised treasury funding model. Whilst IFA credit balances are legally repayable on demand, in practice they have no termination date.

Interest is accrued on a monthly basis based on GBP LIBOR.

From 31 December 2021 some USD LIBOR tenors, and all EUR, GBP and CHF LIBOR tenors ceased to be published. The remaining USD LIBOR tenors, including 3 month USD LIBOR, will continue to be published until June 2023. For further information in relation to LIBOR transition see Note 29 of the bp group Annual Report and Form 20-F for the year ended 31 December 2022.

**15. Called up share capital**

	<u>2022</u>	<u>2021</u>
	£000	£000
Issued and fully paid:		
338,000,000 (2021 300,000,000) ordinary shares of £1 each for a total nominal value of £338,000,000 (2021 £300,000,000)	<u>338,000</u>	<u>300,000</u>

On 6 July 2022, 38,000,000 ordinary shares of £1 each for a total nominal value of £38,000,000 were allotted to the immediate parent company at par value.

**NOTES TO THE FINANCIAL STATEMENTS****16. Reserves***Called up share capital*

The balance on the called up share capital account represents the aggregate nominal value of all ordinary shares in issue.

*Profit and loss account*

The balance held on this reserve is the accumulated losses of the company.

**17. Related party transactions**

The company has taken advantage of the exemption contained within paragraphs 8(k) and (j) of FRS 101, and has not disclosed transactions entered into with wholly-owned group companies or key management personnel. There were no other related party transactions in the year.

**18. Post balance sheet events**

On 20 February 2023, the company incorporated a wholly owned subsidiary, Chengdu BP Advanced Mobility Limited.
