

5-minute talk for **We maintain safe isolation**

Process Safety Fundamental (PSF)

Use this 5-minute talk in team discussions, like start of shift, morning, or pre-tower meetings, to help bring the SLP, LSR & PSF to life. First, review the fundamental briefly with the team, then use the prompts to engage the group and start a discussion, or share a personal example of how you've experienced the fundamental.

WE MAINTAIN SAFE ISOLATION

**PROCESS SAFETY
FUNDAMENTALS**
■■■■■■■■■■

- We use isolation plans for the specific task, based on up -to-date information.
- We raise isolation concerns before the task starts and challenge when isolation plans cannot be executed.
- We check for residual pressure or process material before breaking containment.
- We monitor the integrity of isolations regularly and stop to reassess when change could affect an isolation integrity.
- We confirm leak-tightness before, during, and after reinstating equipment.

Discussion prompts

How do we know our isolation practice is effectiveness?

Are there improvement opportunities where issues are identified?

Who should you raise isolation concerns to?
