

### 5-minute talk for **We respect hazards**

Process Safety Fundamental (PSF)

**Use this 5-minute talk in team discussions, like start of shift, morning, or pre-tower meetings, to help bring the SLP, LSR & PSF to life.** First, review the fundamental briefly with the team, then use the prompts to engage the group and start a discussion, or share a personal example of how you've experienced the fundamental.

## WE RESPECT HAZARDS

**PROCESS SAFETY  
FUNDAMENTALS**  
■■■■■■■■■■

- We improve our understanding of process safety hazards at our location and our roles in controlling them.
- We are vigilant about the potential impacts of uncontrolled process safety hazards.
- We discuss process safety hazards before starting a task.
- We bring forward process safety hazards to be included in activity risk assessments.

9

### Discussion prompts

**PS Hazards** – It's important to understand the process safety hazards at our facilities and be aware of the harm they could cause if we lose control of them – **can you think of examples?**

**Avoiding risk normalization** – When we routinely work close to process safety hazards, it is easy to become desensitized to them – **what are some hazards that we don't always think about?**

**Alert** – Teams are encouraged to be alert for risk assessments that do not cover all the process safety risks associated with an activity – **how can we make sure we think of these hazards during our day-to-day work?**
