## 5. Prices and pricing models for electricity in Europe

### 5.1 Pricing model for bp Fuel & Charge Cards in Europe until the introduction of the bp Charging List Price:

Charging station	Charging speed	Surcharge on the charging turnover
Normal	<23 kW	7 %
Fast	23 kW - 150 kW	12 %
Ultra-fast	>150 kW	12 %

### 5.2 bp Charging List Prices in accordance with Section 2.3 of the Terms & Conditions from introduction

#### a) bp Charging List Prices:

The available charging network is divided into three categories (Economy, Economy Plus and bp/Aral Pulse), which have different fixed prices depending on the speed. The bp Charging List Prices are announced on Mondays at 00:00 a.m. as a net price (plus VAT) and are then valid for one week.

Charging station	Charging speed	Network Category
Normal charging (AC)	<23 kW	Economy
		Economy Plus
Fast charging (DC)	23 kW - 150 kW	Economy
		Economy Plus
Ultra-fast charging (HPC)	>150 kW	Economy
		Economy Plus
		bp/Aral Pulse

#### b) Blocking fee for charging stations:

Charging station	Charging speed	Fee per minute
Normal charging (AC)	<23 kW	0,10 €/min after 240 minutes
Fast charging (DC)	23 kW - 150 kW	0,20 €/min after 30 minutes
Ultra-fast charging (HPC) (not at bp/Aral Pulse chargers)	>150 kW	0,20 €/min after 30 minutes

#### c) Pricing model for electricity charging in other European countries:

The following surcharges apply to electricity charges in other European countries.

Charging station	Charging speed	Surcharge on the charging turnover
Normal	<23 kW	10 %
Fast	23 kW - 150 kW	10 %
Ultra-fast	>150 kW	10 %

As soon as a bp Charging List Price is published for other countries, it is automatically switched over.

<sup>1</sup> The prices and fees from section 4 apply exclusively to the bp Fuel & Charge Card

<sup>2</sup> Also applies when using a virtual bp Fuel Card
