Non-Technical Summary

Units and Abbreviations

1. Introduction

1.1	Introduction.....	1-2
1.1.1	Overview of 3D Seismic Survey.....	1-2
1.1.2	Other BP Exploration and Production Activities in the SWAP Contract Area Vicinity	1-3
1.2	Scope of the 3D Seismic Survey ESIA	1-5
1.3	ESIA Team and Structure	1-5

2. Policy, Regulatory and Administrative Framework

2.1	Introduction.....	2-2
2.2	Regulatory Agencies	2-3
2.3	The Constitution	2-3
2.4	Production Sharing Agreement.....	2-4
2.5	International and Regional Environmental Conventions	2-4
2.6	National Environmental Legislation.....	2-7
2.6.1	National EIA Guidance	2-11
2.7	Regional Processes	2-12
2.7.1	European Union.....	2-12
2.7.2	Environment for Europe.....	2-12
2.8	International Petroleum Industry Standards and Practices.....	2-12

3. Impact Assessment Methodology

3.1	Introduction	3-2
3.2	ESIA Process.....	3-2
3.2.1	Screening and Scoping.....	3-3
3.2.2	Impact Significance Assessment.....	3-3
3.2.3	Environmental Impacts	3-4
3.2.4	Socio- Economic Impacts	3-7
3.2.5	Environmental and Socio-Economic Impact Significance	3-8
3.3	Accidental, Transboundary and Cumulative Impacts	3-9
3.4	Mitigation and Monitoring.....	3-9

4. Project Description

4.1	Introduction.....	4-3
4.2	Project Overview	4-3
4.3	Overview of Seismic Survey Methods.....	4-7
4.3.1	Introduction	4-7
4.3.2	Independent Simultaneous Sources (ISS) Methodology.....	4-9
4.4	3D SWAP Survey Activities.....	4-9
4.5	Survey Equipment.....	4-11
4.5.1	Offshore.....	4-11
4.5.2	Onshore.....	4-18
4.6	Logistics and Support Activities.....	4-23
4.6.1	Support Facilities	4-23
4.6.2	Workforce	4-24
4.6.3	Accommodation	4-25
4.6.4	Provision of Supplies	4-25
4.6.5	Re-fuelling.....	4-25

4.6.6	Transport Coordination	4-25
4.7	Summary of Emissions, Discharges and Waste	4-26
4.7.1	Emissions to Atmosphere	4-26
4.7.2	Discharges to Sea	4-27
4.7.3	Hazardous and Non-Hazardous Waste	4-27
4.8	Operational and Design Controls	4-29
4.8.1	Operational Controls	4-29
4.8.2	Communications	4-31
4.8.3	Soft Start Procedure	4-31

5. Environmental Description

5.1	Introduction	5-4
5.2	Data Sources	5-6
5.3	Physical Setting	5-8
5.3.1	Geology and Seismicity	5-8
5.3.2	Meteorology and Climate	5-10
5.4	Terrestrial Environment	5-10
5.4.1	Setting	5-10
5.4.2	Ground Conditions, Soils and Contamination	5-13
5.4.3	Groundwater and Surface Water	5-15
5.4.4	Air Quality	5-16
5.4.5	Terrestrial Noise	5-16
5.4.6	Terrestrial Ecology	5-19
5.4.7	Protected Areas and Sites of Ornithological Importance	5-29
5.5	Marine Environment	5-33
5.5.1	Bathymetry and Oceanography	5-33
5.5.2	Marine Environment Survey Data	5-37
5.5.3	Seabed Physical and Chemical Environment	5-41
5.5.4	Seabed Biological Environment	5-48
5.5.5	Water Column Physical and Chemical Environment	5-53
5.5.6	Water Column Biological Environment	5-58
5.6	Cultural Heritage	5-73
5.6.1	Terrestrial Archaeology and Cultural Heritage	5-73
5.6.2	Marine Cultural Heritage	5-76

6. Socio-Economic Description

6.1	Introduction	6-3
6.2	Data Sources	6-5
6.3	National Context	6-6
6.3.1	Economy	6-6
6.3.2	Poverty	6-6
6.3.3	Population, Demographic Structure and Ethnicity	6-6
6.3.4	Public Infrastructure and Utilities	6-7
6.4	Regional Context	6-8
6.5	Land Ownership and Use	6-9
6.5.1	Land Ownership	6-9
6.5.2	Land Use	6-9
6.6	Commercial Fishing	6-24
6.6.1	Fisheries Regulation	6-24
6.6.2	Overview of Commercial Fishing Relevant to the 3D Seismic Survey Area	6-27
6.6.3	Offshore Commercial Fishing	6-29
6.6.4	Small Scale Coastal Fishing	6-29
6.6.5	Economic Value of Fishing	6-31
6.6.6	Seasonality and Alternative Activities	6-32
6.6.7	Fisheries Organisation	6-33
6.6.8	Fishing Trends	6-33
6.7	Tourism and Recreation	6-33
6.7.1	Tourism and Recreational Business	6-33

6.7.2	Recreation, Water Sports and Diving	6-34
6.8	Shipping, Ports and Existing Offshore Infrastructure	6-35
6.9	Vulnerable Groups	6-37

7. Consultation and Disclosure

7.1	Introduction.....	7-2
7.2	Overview of Consultation and Disclosure Process	7-2
7.3	Previous ESIA and Ongoing Related Stakeholder Consultation.....	7-3
7.4	Scoping Consultation and Disclosure	7-4
7.4.1	Initial SWAP Desktop Consultation	7-4
7.4.2	MENR Scoping Consultation	7-4
7.5	ESIA Consultation	7-5
7.5.1	Socio-Economic Survey.....	7-5
7.5.2	Cultural Heritage Walkover Survey	7-5
7.5.3	Project Information Leaflets	7-6
7.6	Draft Final ESIA Report Public Consultation and Disclosure.....	7-6
7.7	Post-ESIA Project Consultation.....	7-6
7.8	Consultation Under the Espoo Convention	7-6

8. Environmental Impact Assessment, Mitigation and Management

8.1	Introduction.....	8-3
8.2	Scoping.....	8-3
8.3	Impacts to the Marine Environment (Water Column) Due to Seismic Operations.....	8-11
8.3.1	Mitigation	8-11
8.3.2	Event Magnitude.....	8-12
8.3.3	Receptor Sensitivity	8-24
8.3.4	Impact Significance.....	8-26
8.4	Impacts to the Terrestrial Environment (Birds and Protected Areas) Due to Offshore Survey Activities	8-27
8.4.1	Mitigation	8-27
8.4.2	Event Magnitude.....	8-27
8.4.3	Receptor Sensitivity	8-30
8.4.4	Impact Significance.....	8-34
8.5	Impacts to the Terrestrial Environment (In Air Sound) Due to Onshore Survey Activities.....	8-34
8.5.1	Mitigation	8-34
8.5.2	Event Magnitude.....	8-35
8.5.3	Receptor Sensitivity	8-36
8.5.4	Impact Significance.....	8-37
8.6	Impacts to the Terrestrial Environment (Groundborne Vibration) Due to Onshore Survey Activities	8-37
8.6.1	Mitigation	8-38
8.6.2	Event Magnitude.....	8-38
8.6.3	Receptor Sensitivity	8-39
8.6.4	Impact Significance.....	8-40
8.7	Impacts to the Terrestrial Environment (Ecology) Due to Onshore Survey Activities.....	8-41
8.7.1	Mitigation	8-41
8.7.2	Event Magnitude.....	8-41
8.7.3	Receptor Sensitivity	8-42
8.7.4	Impact Significance.....	8-44
8.8	Impacts to the Cultural Heritage Due to Onshore Survey Activities	8-44
8.8.1	Mitigation	8-44
8.8.2	Event Magnitude.....	8-45
8.8.3	Receptor Sensitivity	8-46
8.8.4	Impact Significance.....	8-47
8.9	Summary of Residual Environmental Impacts	8-48
8.10	Additional Recommendations	8-48

9. Socio-Economic Impact Assessment, Mitigation and Management

9.1	Introduction.....	9-2
9.2	Scoping.....	9-3
9.3	Socio Economic Impacts	9-9
9.3.1	Onshore Impacts Associated with Physical Presence of Seismic Vehicles and Support Vehicles, Equipment and Crew.....	9-9
9.3.2	Offshore Impacts Associated with Physical Presence of Seismic Vessels, Support Vessels and Equipment.....	9-13
9.3.3	Offshore Impacts Associated with Operation of Offshore Energy Source	9-18
9.4	Summary of Residual Socio-Economic Impacts	9-21

10. Cumulative, Transboundary and Accidental Events

10.1	Introduction.....	10-2
10.2	Cumulative Impacts.....	10-2
10.2.1	Cumulative Impact Between Separate Project Impacts.....	10-2
10.2.2	Cumulative Impacts with Other Projects	10-2
10.3	Transboundary Impacts	10-7
10.3.1	Greenhouse Gas Atmospheric Emissions	10-7
10.4	Accidental Events.....	10-8
10.4.1	Offshore.....	10-8
10.4.2	Onshore.....	10-31

11. Environmental and Socio-Economic Management

11.1	Introduction.....	11-2
11.1.1	Overview of AGT Region Operating Management System	11-2
11.2	SWAP 3D Seismic Survey Roles and Responsibilities.....	11-3
11.3	BP SWAP 3D Seismic Survey Environmental and Social Management System	11-3
11.3.1	BP SWAP 3D Seismic Survey Environmental and Social Management and Monitoring Plan	11-3
11.3.2	Monitoring, Inspections, Reporting, Audits and Corrective Actions	11-5
11.4	Briefings, Planning and Training	11-5
11.4.1	Marine Mammal Observation Training.....	11-5
11.5	Waste Management	11-6
11.5.1	Waste Management Processes and Procedures.....	11-6
11.5.2	Waste Segregation and Transfer	11-6
11.6	Summary of SWAP 3D Seismic Survey ESIA Design Controls, Mitigation Measures, Monitoring and Reporting Requirements	11-7

12. Residual Impacts and Conclusion

12.1	Introduction	12-2
12.2	Environmental and Socio-Economic Impacts	12-2
12.3	Cumulative, Transboundary and Accidental Events.....	12-6
12.4	Environmental and Socio-Economic Management.....	12-7
12.5	Conclusions	12-8

List of Figures

Figure 1.1:	Location of the SWAP, ACG, Bahar Gum Deniz & SD Contract Areas, the SWAP 3D Seismic Survey Area and Previous Seismic Survey Lines within the Vicinity of the SWAP 3D Seismic Survey Area	1-4
