Pricing models

Please note: discounts are only applicable at bp sites and do not apply to partner sites.

Tier: Prices are based on the previous week's 5-day (Friday to Thursday) average Platts Diesel PPL prices, plus duty with different price tiers based on volume. Discount applies to Diesel and is available for HGV. Prices are fixed on a weekly basis and include a reduced motorway price. Discount is not applied to Unleaded fuel.

Capped: Protection against price increases over an agreed level for a set volume of regular diesel each month. Discount applies to Diesel and is available for HGV. Prices are fixed on a 12 monthly basis (prices may vary depending on individual partner agreements) and include a reduced motorway price. Discount is not applied to Unleaded fuel.

Fixed: A guaranteed price for a set volume each month over a 12-month period. Discount applies to Diesel and is available for HGV. Prices are fixed on a 12 monthly basis (prices may vary depending on individual partner agreements) and include a reduced motorway price. Discount is not applied to Unleaded fuel.

Pump: Pre-agreed discount off the pump price. Discount applies to Unleaded and Diesel including for HGV. Prices are not fixed and motorway prices are not reduced.

Platts: Provides market related prices based on an independent third-party view of cost of product. Discount applies to Unleaded and Diesel and is available for HGV. Prices are fixed on a weekly basis and include a reduced motorway price.

List: Prices are issued based on the previous week's 5-day (Friday to Thursday) bp network average prices. Discount applies to Unleaded and Diesel and is available for HGV. Prices are fixed on a weekly basis and include a reduced motorway price.

For a more detailed explanation of pricing models, please contact bp customer services or your account manager.

Security

- Cards are protected by a PIN which can be randomly generated or set in the Online Services
- Cards can also be protected with an accompanying 4-digit driver code
- To prevent fraud bp Security Team carry out plausibility checks
- Service levels are pre-set
- Transaction spend limits and limits on the number of transactions per day can be set
- Individual card profiles notify card holders of irregular transactions
- Blocked cards will not be accepted in any European countries (with immediate effect)

Security alerts:

- Location Alert by country, region or specific sites
- Site Type Alert according to parameters set by card holder
- Odometer Readings Alert by individually pre-set distances between fuel pick-ups
- Day and Time Alert by any day of the week and by time
- Card Spend Alert by daily, weekly or monthly spend limit
- Product Alert by products purchased
- Litre Alert by amount of fuel purchased

Fees

- There is a £1,500 weekly spend limit for all businesses, this limit is eligible per business, not per card. bp recommends a maximum number of 10 cards per business to make this limit worthwhile.
- There are no card fees
- Payments are cashless

Online services

- Individual card purchase options with selectable parameters
- Immediate alert via text or email when a card is used not in accordance with the pre-set parameters
- Control over refuelling and payments remotely
- Certified online invoices and invoice details for last 3 months
- Manage, order, replace & block cards online 24/7
- Change PIN numbers at any time
- Prevent card fraud with the Card Management function
- See transactions that have not been invoiced yet with the Transaction overview function

Invoicing

- Invoices can be viewed and managed online
- All invoices are HMRC approved VAT invoices
- Invoices are raised weekly on Monday and available to view from Tuesday
- Invoices must be paid by direct debit within 7 days of being raised

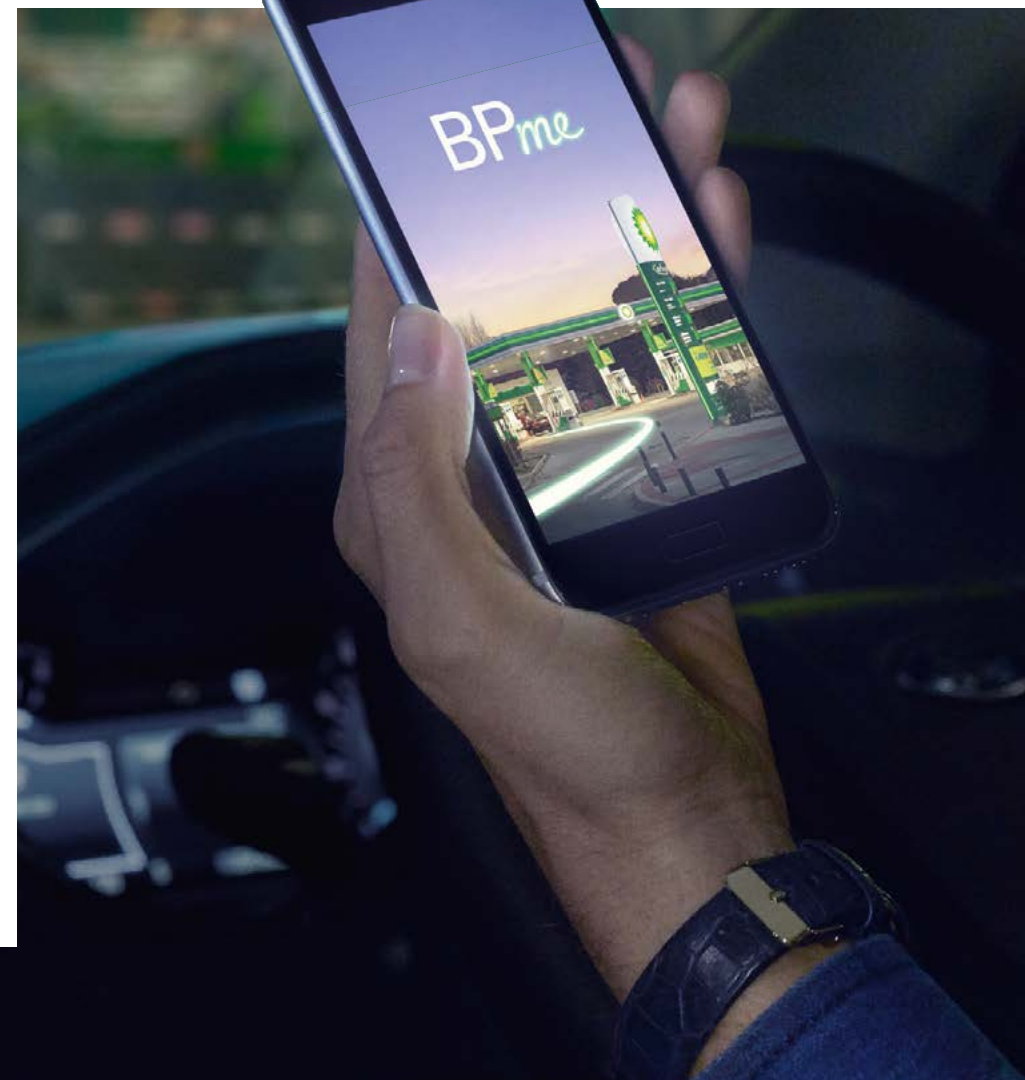

BPme app

The bp Fuel & Charge card can be linked to the BPme app

- BPme is the first mobile fuel payment app in the UK that connects to a fuel card
- Drivers can buy fuel through the app if they have forgotten their card, or if they would prefer to pay from their vehicle rather than going into store
- The app contains an online log of every fuel transaction
- Drivers can record their mileage in the app
- The app includes a fuel station finder
- The app is secured by a passcode or fingerprint recognition

BPme Rewards

If a driver has a BPme Rewards card account, they can start earning points with the bp Fuel & Charge card. Points can be earned digitally through the BPme app or with a physical Rewards card.

Points can be redeemed that have been earned on the Fuel & Charge card, however these must be redeemed as part of a personal transaction either in cash or on an alternative card (non-fuel card payment).

Regular fuel – 1 litre = 1 point

Ultimate fuel – 1 litre = 2 points

Shop purchase – £1 = 1 point

Car wash – £1 = 1 point

Points can be redeemed against fuel purchases, products in the gift catalogue or against gift vouchers at bp's partners.

Partners include:

Electric vehicles

- Each Fuel & Charge card includes an RFID chip which can be scanned at public charging points
- As of January 2023, bp has one of the largest EV public charging networks with bp Pulse on the go charging points
- All energy on the bp pulse network is certified as renewable through the redemption or purchase of Renewable Energy Guarantees of Origin (REGOs). This includes bp pulse points – our network of 9,000 charging points across the UK which all bp pulse Corporate and BP Fuel & Charge customers have access to

6 different public charger types are available

7 kW | 22 kW | 50 kW | 120 kW | 150 kW | 300 kW

24/7 charge point customer support is available

bp Fuel & Charge app

- Find the nearest fuel stations & charging points
- Search based on EV connector type and power
- Check live availability
- Confirm opening hours
- Confirm charge point operator name
- Filter by car model
