

General terms and conditions for the £30 cashback paid back into your bank account when you spend £60 with your new bp plus fuel & charge card:

Campaign effective period: 3 May 2022 until midnight 3 July 2022

General conditions:

- This offer is only applicable for new customers who have applied through the SME digital acquisition channel and have had that account successfully opened.
- Card holder to spend min of £60 on the account before being eligible for the cash back.
- The £60 spend can be on any purchasable item via the bp plus fuel and charge card on a bp forecourt.
- Gross calculations exclude fees paid on Target Neutral.
- Cashback will only be transferred once the invoice has been paid in full and on time and there are no outstanding accounts issues with regards to payment, fraud, outstanding compliance requests or security on account.
- £30 Cashback will be transferred to the bank account that is registered with bp.
- Cashback will be transferred within 14 days of paid invoice and all conditions as listed are met.
- This offer is only applicable once per customer account.
- This offer is only valid from 3/5/2022 until the 3/7/2022.
- Transactions made before or after the 3/7/2022 are not eligible for this offer.

Examples

Fuel only:

£60 plus 20% / £12 VAT – gross invoiced amount = £72

Cash back is therefore £30 + £6 VAT = £36

Charging only:

VAT registered - £60 (no VAT currently charged)

Cash back is £30

Not VAT registered - £60 plus 20% VAT

Cash back is therefore £30 + £6 VAT = £36

Fuel and charging blended:

Fuel & charging blended on a card to make up £60 spend then apply ratio of tax that was applied per above examples

Attractive Pricing

* For savings of up to 20p per litre with a bp plus fuel and charge card are compared to the average pump pricing for bp motorway service stations for the year 2021. On average using data collected at bp sites a user can typically expect up to 8ppl saving vs the national average (2021).

** Average Savings are calculated using data collected from 2021 when comparing offer versus the national average pricing and when using standard grade fuel types.
