

# Simplicity is a decision

Choose simple operations, transactions, time-saving solutions and risk reduction **across Europe** with the **bp Tollbox for EETS**.

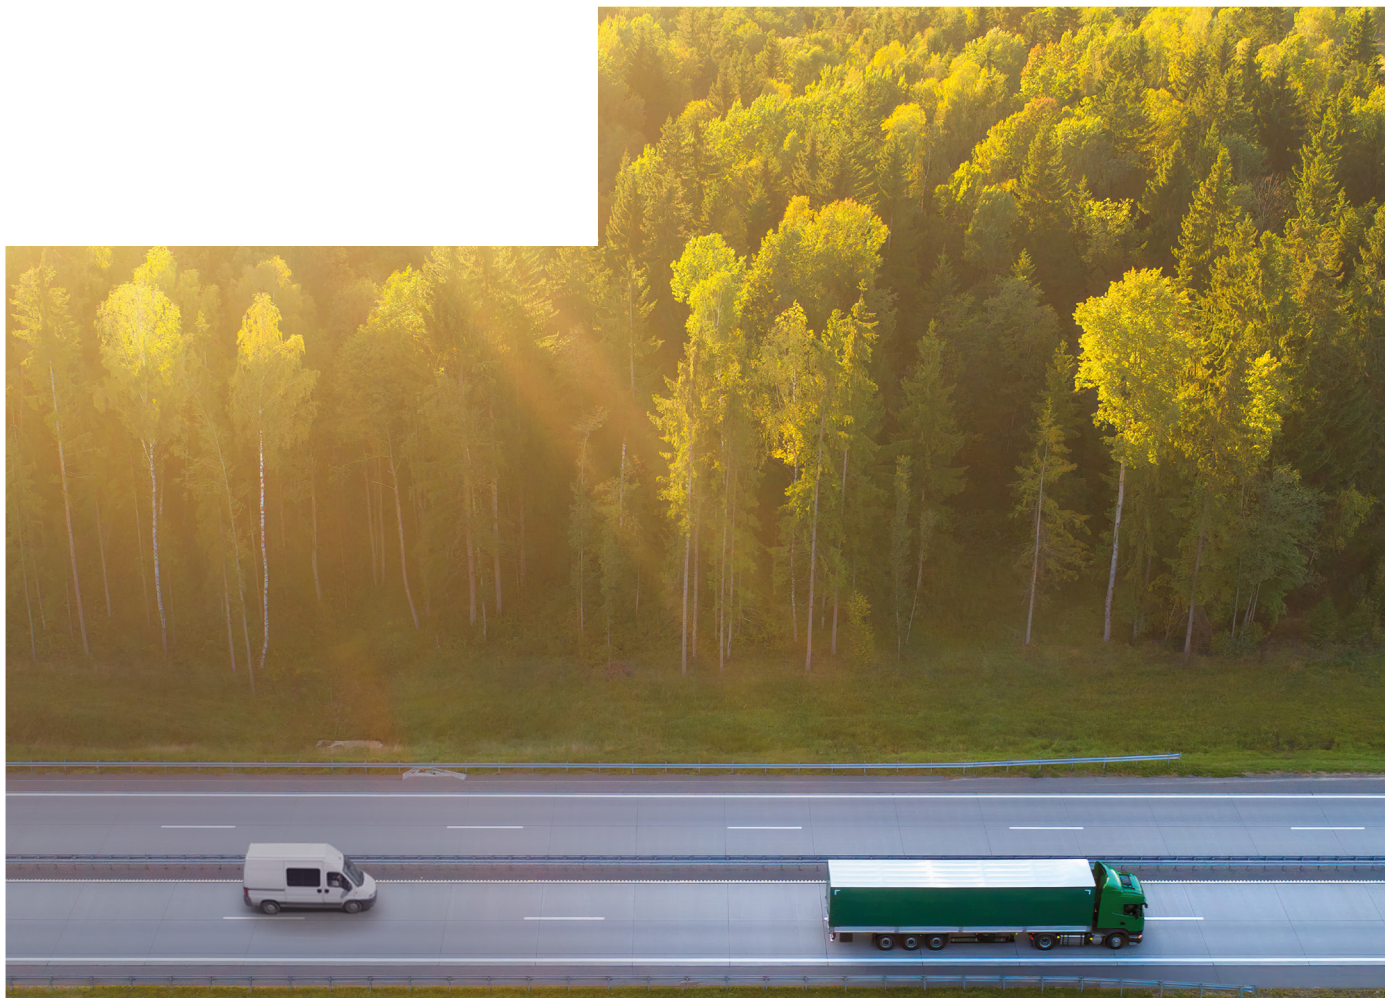

bp Fleet Solutions

# Drive across Europe with a trusted partner

As a fleet manager, you know how challenging the complexities of settling tolls can be for the daily workflow of your business. At bp, we help drivers make simple, cashless toll payments while providing fleet managers with a range of easy fleet management solutions.

Take advantage of our many years of expertise throughout Europe for your mobility needs with the integrated bp Tollbox for EETS. With the European Electronic Toll Service (EETS), drivers can pay for tolls in different countries using only one device.

# The bp Tollbox for EETS

A solution for today and for the evolving needs of tomorrow.

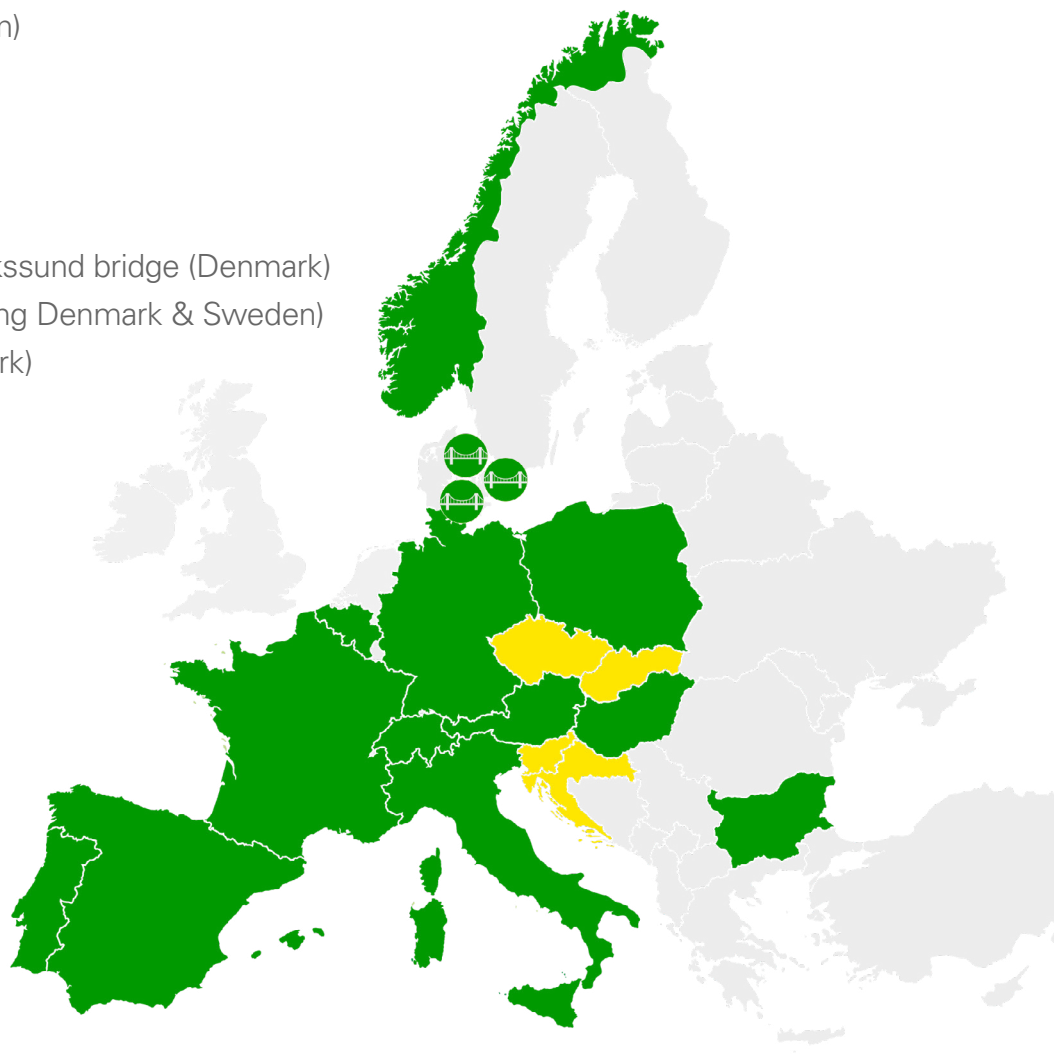

17 acceptance partners in 14 countries and still growing.

## Current countries:

- Austria

## Planned:

- Slovenia
- Croatia
- Slovakia
- Czech Republic

\*Date as of Jan 2023. The joining date depends on local toll chargers and is subject to change

EETS fully implemented

EETS planned for 2023

# What's included in the offer?

One on-board device for tolls on roadways, bridges, and tunnels.

One **on-board unit (OBU)** for all countries that are already using EETS.

Combined transactions in **one invoice** and **one report** per country.

**No additional hardware** needed for you or your drivers.

Access to a **24/7 online portal** for ordering and managing your devices and transactions.

**Customer Service** hotlines in various languages: German, Dutch, Polish and English, Italian, French, and Spanish.

**Complementary services:** Truck wash, ferries, repair and break down assistance, secure truck parking.

**Advanced offer:** Track & trace your fleet with GPS for up to the minute updates.

# A package for every size

Each business has unique needs and requirements, that's why the bp Tollbox for EETS offer comes in two versions – Basic and Advanced.

We'll help you choose the best offer for your fleet.

# Simple solutions increase efficiency

Whenever a new challenge arises, rely on bp to provide you with integrated services to help you simplify managing your fleet.

## One service provider

One trusted partner and a single point of contact saves time and increases efficiency. Instead of managing multiple providers, you just have one supplier for your toll needs across Europe.

## Easily track your fleet and monitor your transactions

Keep an eye on your fleet with track and trace live GPS option. Cut the number of hours you spent on tracking and reporting with real time transaction data and easily accessible reports.

## No additional trainings or devices

Your drivers will be quickly ready for their next journey across Europe without needing multiple OBUs and additional training. While you gain time to focus on more important tasks.

## One trusted partner

Rely on our experience across multiple markets to help you reduce risk, penalties, and fines, wherever possible and thereby save money.

## Easy instalation and use

Shift box from one vehicle to another.

# What you gain with bp by your side

## Benefit for you:

Simplicity – Just one device instead of several country specific OBUs.

More reliability thanks to hardwire. Flexibility to change between vehicles.

Less downtime – No workshop visits for installation required.

Less risk – Reduce unexpected costs, penalties, and fines with help from bp.

More flexibility and update on the air – easy OBU exchange between vehicles, no more manual bookings.

Easy to use and set-up – Change number of axles, weight class and menu language.

Dedicated customer support – toll experts as single point of contact for EETS and ORS queries.

Access to all bp On Road Services, including ferries, truck wash and secure parking.

# Your fleet is in *good hands*

Choose bp as your trusted partner for journeys across Europe. Talk to our toll experts about getting the **integrated** and **customizable EETS** offer for your fleet today.
