

ETAP Platform

Infrastructure Information

Oil export capacity	212 kbp/d
LP Gas Compression	268 mmscf/d
HP Gas Compression	404 mmscf/d
Gas export capacity	440 mmscf/d
Gas lift capacity	140 kbp/d
Produced water handling capacity	9,539 m3/d
Water injection capacity	18,284 m3/d

High Level Capacity Information

Basic capacity information is portrayed below through coded 'traffic lights', which reflect thresholds of availability over the next 5 years.

Available Capacities ■ >25% ■ 5%-25% ■ <5% Unknown

Process Capacity Available	2019	2020	2021	2022	2023	Comments
Oil Export Capacity						
LP Gas Compression						
HP Gas Compression						
Gas Export						
Gas Lift						
Produced Water Handling						Debottlenecking opportunities
Water Injection
