

## **TANGGUH COORDINATION WITH POLICE DURING YEAR 2007**

The Integrated Community Based Security (ICBS) program was designed with the goal of providing those who live and work around the Tangguh project with a safe and secure environment. It was formulated in collaboration with the Indonesian authorities to address the security and human rights concerns of all stakeholders based on partnerships between Tangguh, the communities, and the government's security providers. As such, on April 16, 2004, a Security "Field" Guidelines Agreement was executed between the Papua police and BP, as operator of the Tangguh project<sup>1</sup>. The Field Guidelines set forth the measures to implement the broader Memorandum of Understanding dated August 22, 2003 between BPMIGAS (Indonesia's upstream oil & gas regulatory body) and the Indonesian Police concerning security of oil and gas projects throughout the Republic of Indonesia.

The Field Guidelines are aimed at ensuring the working conditions at the Tangguh project remain secure, in order, and without violation of law. They cover the provision of security at the project and at associated project facilities. The Field Guidelines make clear that BP is responsible for primary security provided by unarmed private security guards. The Guidelines also specify the procedures to be followed whereby BP can request assistance from the police, and the procedures to be followed by police in deploying such assistance.

The Field Guidelines describe specific commitments of both BP and police with respect to bearing the costs of security for Tangguh. In this regard:

- Each respective organization will bear its own cost for the conduct of its activities or the discharge of its basic obligations under the Guidelines.
- All costs, payments, and provisions of materials or supplies will be open and transparent and either side has the discretion to publicly disclose this information.
- If BP requests security assistance from police:
  - With BP approval and request for payment, BPMIGAS (the Indonesia upstream oil & gas regulatory body) will make payment for transportation, lodging, meals, and daily allowances.

- The amount and procedure for payment will be based on standards and procedures issued by BPMIGAS.
- BP will not be obligated to pay for any support unless previously approved and accepted by BPMIGAS as 'cost recoverable' based on the applicable production sharing contracts and approved by BP Management and its investment partners in the Tangguh project
- BP will not be allowed and will not provide any weapon, weaponry, ammunition or any funding to support the procurement of these items.

### **Payments in 2007 in Direct Support of Tangguh Security**

In 2007, several activities in regards to ICBS and Joint Security Guideline were conducted. Most of the activities were milestones to the ICBS program, such as BP and Police Joint Exercise; establishment of the Security Forum in 24 villages; communication and increasing awareness of Law and Exclusion Zone for the community ; as well as conducting sessions on Labor Law for demobilized Workers. There were also regular activities such as increasing understanding of the JUKLAP and coordination meetings with Bintuni Police. Consequently, there was an increase in Police payments compared to year 2006. All activities, however, were covered by the Joint Security Guideline (JUKLAP) in both legal umbrella and payment reference.

### **Background of the activity**

**Joint Exercise:** As stipulated in Joint Security Guidelines (JUKLAP) between BP Tangguh and Papua Police (POLDA Papua) Chapter IV, point 2b: "joint exercises and IMT simulation training will be developed and directed by both the Director of Vital Object Security (DIRSAMAPTA) POLDA Papua and Tangguh Project Management", and that "the exercises should be done a minimum of once a year, or even more often if the situation demands it". We have conducted the exercise in February 2007, with the objective to test out the implementation of the United Nations' Voluntary Principal of Security and Human Rights (VPSHR) in crisis situations besides also abiding with BP's commitment to human rights. A total of 100 police officers from Bintuni and Manokwari were invited to Babo to participate in the activity. The exercise was conducted successfully and was widely covered by the media and attended by local NGOs.

**Communication and Familiarization of the Law and Exclusion Zone:** This activity is part of the Community Policing Program, which is one of the

commitments stated in the ICBS program. Main topics of the program are as follows;

- Tangguh project as a National Vital Object with significant contribution in the development of the Bintuni area.
- Familiarization of the Indonesia National Law and Basic Human Rights to the community around the Bay.
- Communication and familiarization of the Exclusion Zone surrounding the Tangguh Project.

**Establishment of Security Forum:** Develop District-level security forum involving community leaders from 24 villages in Babo, FakFak and Bintuni to promote understanding of Law and Order, increase capacity to discuss and/or respond to security issues/incidents as they arise in the community.

**Familiarization of the Labor Law:** As Tangguh approaches its operation stage; this activity was conducted in support of the demobilization plan. Police and local Labor Department (Disnaker) officials from Bintuni conducted familiarization of the Labor Law and Rights for more than 7,000 workers expected to be demobilized.
