

02

Our purpose is reimagining energy for people and our planet. We want to help the world reach net zero and improve people's lives.

We have been delivering energy solutions for Indonesia for 55 years, and we will continue to deliver long-term value for our customers, communities and all our stakeholders in Indonesia.

Our energy solutions for Indonesia range from hydrocarbon production & operations, to energy trading & shipping, and retail products.

Castrol Indonesia

The Home Of Liquid Engineering

Castrol lubricants are trusted for their high performance and quality.

Since 1997 when we built Indonesia's first private lubricants blending plant, Castrol has been serving drivers, motorcyclists, and industries in the country. We do this through Liquid Engineering. That means creating high performance oils, lubricants, fluids and greases for every application you can imagine.

Today we operate a 80,000 mtpa, fully-automated plant in Merak, Banten.

Castrol is a valued partner to our customers and communities. We do this through partnerships with small and medium enterprises, and helping hundreds of automotive workshops as well as large-scale industries grow successful businesses.

Castrol

PTAneka Petroindo Raya

Since beginning operations in 2018, we have opened 19 fuel stations across DKI Jakarta, Jawa Barat, and Jawa Timur*. Our aim is to open up to 350 fuel stations in Indonesia over the next decade.

Our fuels service stations in Indonesia are fitted out with the goal of reducing their carbon footprint, supported by bp Target Neutral. We are a partner of the BIRU project that enables households to produce their own low-cost, low-carbon energy using biogas digesters thus saving Indonesia an estimated 45,000 tonnes of CO2 emissions per year.

We are committed to developing and offering a differentiated consumer proposition that leverages both bp and AKR's capabilities and expertise across Indonesia's growing fuels retail market.

*Data as per October 2021

PTDirgantara Petroindo Raya

Air bp and AKR see huge potential within the Indonesian aviation fuel sector and will support the development of Indonesia's aviation industry. Our joint venture holds the remit to develop aviation fuel business in Indonesia.

We are the jet fuel supplier for Wiladatika Private Airport in Jakarta, and we operate a jet fuel storage and provide into plane filling service at the Indonesian Morowali Industrial Park, Sulawesi Tengah.

PT Jasatama Petroindo

PT Jasatama Petroindo is bp's trading & shipping arm in the country. PT Jasatama Petroindo has extensive experience in trading gas oil for mining and industrial purposes, as well as fuel oil for Marine Vessel Power Plants. We have been operating in Indonesia's gas oil market since 2010, and expanded our portfolio to the limited trading of fuel oil in 2018.

In support of a just energy transition, we help the next generation of Indonesians advance their education. For over five years, PT Jasatama Petroindo has been providing scholarships to university students in the country, focusing on engineering and economics.

PTP Petro Storindo Energi

PT Petro Storindo Energi is a tank terminal company which was developed to meet the rising demand for diesel fuel, in the expanding coal mining operations in Kalimantan Timur. It operates a 75,000 m3 storage terminal along with a dolphin mooring system, located in Sangatta, Kalimantan Timur.

Tangguh UNG

bp has been operating Tangguh LNG since 2009. Located in Teluk Bintuni, Papua Barat Province it is a fully integrated LNG operations – from bringing gas from the bay, to processing it in our two-train onshore liquefaction facility, and delivering the LNG to customers.

We are currently working to expand the Tangguh LNG plant by adding a third train, which will increase Tangguh's production capacity to a total of 11.4 million tonnes per annum (mtpa). Tangguh train 3 was deemed a National Strategic Project, as per Presidential Decree No. 58/2017.

More than 99% of our team is in Indonesian, with more than half of our people being local Papuans.

Delivering Value to communities

Alongside our net zero ambition and aims, we have also set out aims to help improve people's lives and care for our planet.

In Indonesia, our Tangguh sustainable development programmes support the social sustainability of Tangguh LNG. The programmes help Indigenous People in:

Community health

Livelihood and Papuan entrepreneurship

Education

Governance

Papuan development

External relations

Since these programmes were first implemented in 2005, Papua Barat - particularly communities in the villages around Tangguh LNG - has benefited from the continual development of Tangguh plant.

Programme highlights

Close to

annual malaria incidence in Teluk Bintuni.

More than

high school graduates from Teluk Bintuni, Fakfak, Manokwari and Sorong have completed the Tangguh technician apprentice programme with internationally-certified qualifications and are now working at Tangguh.

Bringing community cooperatives more than US\$6.1 million of total revenues, from supplying over

3,400 tonnes

of agriculture and fishery products to Tangguh LNG catering.

More than

30 Papuan

companies and suppliers are involved in Tangguh's supply chain, with a cumulative contract value exceeding US\$ 250 million.

Tangguh supported the establishment of SUBITU, a group of businesses led by Indigenous Papuans. Since 2015, they have expanded to

DUSITIESS

business units with presence in Teluk Bintuni, Sorong, and Manokwari.

Data as of 1Q 2021

The Tangguh sustainable development programmes are in line with our AMDAL commitments and abide by international standards. In meeting these commitments, we are audited by an external panel and Tangguh lenders, and subject to regular review by the Tangguh independent advisory panel.

Our Values and Code of Conduct

As our business transforms itself in step with the world we serve, our five values provide a fixed point of reference for the way we operate and behave. They focus our people's spirit of invention and purpose.

Safety Respect Excellence Courage One team

Five aims to get bp to net zero

Five aims to help the world meet net zero

Improve people's lives

Care for our planet

Net Zero Operations

To be net zero across our entire operations on an absolute basis by 2050 or sooner.

Aim 2 //

Net Zero Oil And Gas

To be net zero on an absolute basis across the carbon in our upstream oil and gas production by 2050 or sooner.

Halving Intensity

To cut the carbon intensity of the products we sell by 50% by 2050 or sooner.

Aim 4 //

Reducing Methane

To install methane measurement at all our existing major oil and gas processing sites by 2023, publish the data, and then drive a 50% reduction in methane intensity of our operations.

Aim 5 %

More \$ For New Energies

To increase the proportion of investment we make into our non-oil and gas businesses.

Aim 6 // 65

Advocating

To more actively advocate for policies that support net zero, including carbon pricing.

Aim 7 % 65

Incentivizing Employees

To incentivize our global workforce to deliver on our aims and mobilize them to become advocates for net zero.

Aligning Associations

To set new expectations for our relationships with trade associations around the globe.

Aim 9 // 65

Transparency Leader

To be recognized as an industry leader for the transparency of our reporting.

Clean Cities And Corporates

To launch a new team to create integrated clean energy and mobility solutions.

Aim 11 // 65

More Clean Energy

To develop enough clean energy to benefit more than 36 million people.

Aim 12 (5) (1) (1) (1) (2)

Just Transition

To support a just energy transition that advances human rights and education.

Aim 13 🕅 🐍 🕸

Sustainable Livelihoods

Helping more than 1 million people build sustainable livelihoods and resilience.

Aim 14 🐉 🕌

Greater Equity

Greater diversity, equity & inclusion for our workforce and customers, and to increase supplier diversity spend to \$1 billion.

Aim 15 🐉 🖫

Enhance Wellbeing

To enhance the health and wellbeing of our employees, contractors and local communities.

Aim 16 🐩 🕉 Enhancing Biodiversity

Making a positive impact through our actions to restore, maintain and enhance biodiversity where we work.

Aim 17 👚 👸 🥸 🕥

Water Positive

Becoming water positive by 2035.

Aim 18 (5) (7) (11) (12)

Championing Nature-Based Solutions

Championing nature-based solutions and enabling certified natural climate solutions.

Aim 19 🖏 🥸 🕞

Unlock Circularity

To unlock new sources of value through circularity.

Aim 20 (P) % (5)

Sustainable Purchasing

Developing a more sustainable supply chain.

Get bp to net zero

More clean energy

Sustainable livelihoods

Greater equity

Nature

Enhance wellbeing

Unlock circularity

Sustainable purchasing
