

Working Safely at bp Terminals & Pipelines

Working Safely at bp Terminals & Pipelines

Safety is NOT silent! – Here's How YOU fit into the Process

Golden Rules of Safety

- Which rules applies for **your** tasks today?
- What barriers will protect **you** and **your coworkers**?
- What procedures do **you** need to go home safely?
- **Hot Work**
- **Permit to Work**
- **Ground Disturbance**
- **Confined Space Entry**
- **Working at Heights**
- **Energy Isolation**
- **Lifting Operations**
- **Driving Safety**

Control of Work

- Be an **active** participant in risk assessment activities.
- Your signature on the Permit to Work (PTW) means **you** have read and understand the risks and mitigations for the day.
- Daily Tailgate – **SPEAK UP!**

What's Your Exposure?

- Stay focused on the task at hand.
- Continually ask **yourself**, "What's my exposure?"
- **Pause, process, plan, proceed.**

Will YOU Stop the Job?

- Listen to **your** inner voice!
- If it doesn't look or feel right, stop the job. **Have courage!**
- Who would **you** report a stop work to today? AO/AOD? Foreman? Safety rep?
- It is **your** right and obligation to stop unsafe work.
- **Do it Safely or NOT AT ALL!**

Safety

Respect

Excellence

Courage
