USPL Checklist: AO/AOD Non Permit OJT

<table>
<thead>
<tr>
<th>Description:</th>
<th>Employees need to complete all of the tasks listed below under the supervision of a qualified Asset Operator (AO)/Asset Operator Designee (AOD).</th>
</tr>
</thead>
</table>
| **1. POLICIES** | Read the following policies/procedures and discuss the roles and responsibilities of the Asset Operator (AO) and/or Asset Operator Designee (AOD) with a qualified AO:  
   – ATW Policy  
   – Stop Work Procedure |
| Comments | N/A:  
   Met: |
| **2. ATW Policy** | Describe verifying that asset equipment is in a safe condition for the scope of work to be performed.  
   3. ATW Policy  
   Demonstrate completing the appropriate sections of the ATW form with input from the Performing Authority and the workforce. |
| Comments | N/A:  
   Met: |
| **4. ATW Policy** | Describe confirming that a member of the workforce has visited the job site to identify hazards specific to the job site and documented those hazards and resulting mitigations on the ATW form as part of completing Section B.  
   5. ATW Policy  
   Describe how to identify any simultaneous operations (SIMOPS) for the facility and/or equipment involved in the scope of work documented on the ATW.  
   6. ATW Policy  
   Demonstrate indicating on the ATW the conditions that require work to stop and the AO to be notified  
   7. ATW Policy  
   Describe confirming that the Performing Authority understands which specific asset is to be worked on.  
   8. ATW Policy  
   Demonstrate identifying the specific asset to the Performing Authority as needed depending on his/her judgment of the Performing Authority knowledge of the asset. |
| Comments | N/A:
